Price,2023-10-31 Speech and Silence in Contemporary Children s Literature brings a fresh perspective to a central literary question Who speaks by examining a variety of represented silences These include children who do not speak do not yet speak effectively or speak on behalf of others A rich and unexamined literary archive explores

the problematics of children who are literally silent or metaphorically so because they cannot communicate effectively with adults or peers This project centers children s literature in the question of voice by considering disability gender race and ecocriticism Children s literature rests on a paradox at the root of its own genre it is produced by an adult author writing to a constructed idea of what children should be By reading a range of contemporary children s literature this book scrutinizes how such texts narrate the child s journey from communicative alterity to a place of empowered adult speech Sometimes the child s verbal enclosure enables privacy and resistance At other times silence is coerced or imposed or arises from bodily impairment Children may act as intermediaries speaking on behalf of species that cannot Recently we have seen children exercise their voices on the world stage and as authors In all cases the texts analyzed here reveal speech as a minefield to be traversed Children who talk too much too little or with insufficient expertise pose problems to themselves and others Implicitly and sometimes explicitly they attempt to hold adults to account inside and outside the text Speech and Silence in Contemporary Children s Literature addresses this underconceptualized subject in what will be an important text for scholars of children s literature childhood studies English disability studies gender studies race studies ecopedagogy and education
