Running against the Grain David A. Crockett, 2009-03-01 Some presidents enter office with an uphill climb in front of them their political party represents a different governing philosophy than the dominant strain of the day These David A. Crockett says are opposition presidents If they are in a sense out of step with their times how do they ever get elected in the first place In *Running against the Grain* How Opposition Presidents Win the White House Crockett employs historical comparisons to draw conclusions about what it takes for these candidates to win the office He focuses on seven presidents in twelve elections William Henry Harrison 1840 and Zachary Taylor 1848 Grover Cleveland 1884 and 1892 and Woodrow Wilson 1912 and 1916 Dwight Eisenhower 1952 and 1956 and Richard Nixon 1968 and 1972 and Bill Clinton 1992 and 1996 Crockett draws on the work of Stephen Skowronek and others in the tradition of American political development to establish the periodization for his study Through a comparative analysis of victorious opposition

candidates Crockett finds explanations that transcend specific campaigns or even specific eras He contends that because the way one acquires the office may have an effect on the practice of leadership in the office running against the grain has implications far beyond Election Day
