Entropic Creation Helge S. Kragh, 2016-04-29 Entropic Creation is the first English language book to consider the cultural and religious responses to the second law of thermodynamics from around 1860 to 1920 According to the second law of thermodynamics as formulated by the German physicist Rudolf Clausius the entropy of any closed system will inevitably increase in time meaning that the system will decay and eventually end in a dead state of equilibrium Application of the law to the entire universe first proposed in the 1850s led to the prediction of a future heat death where all life has ceased and all organization dissolved In the late 1860s it was pointed out that as a consequence of the heat death scenario the universe can have existed only for a finite period of time According to the entropic creation argument thermodynamics warrants the conclusion that the world once begun or was created It is these two scenarios allegedly consequences of the science of thermodynamics which form the core of this book The heat death and the claim of cosmic creation were widely discussed in the period 1870 to 1920 with participants in the debate including European scientists intellectuals and social critics among them the physicist William Thomson and the communist thinker Friedrich Engels One reason for the passion of the debate was that some authors used the law of entropy increase to argue for a divine creation of the world Consequently the second law of thermodynamics became highly controversial In Germany in particular materialists and positivists engaged in battle with Christian mostly Catholic scholars over the cosmological consequences of thermodynamics This heated debate which is today largely forgotten is reconstructed and examined in detail in this book

bringing into focus key themes on the interactions between cosmology physics religion and ideology and the public way in which these topics were discussed in the latter half of the nineteenth and the first years of the twentieth century **Energy for Life** Colleen Deatsman,2006 THERE IS NO MAGIC IF THERE IS NO ENERGY Magic is more than words gestures and visualization The definition of magic to bring about change in conformity to will calls for change to be made in a situation Change requires energy Energy in Change out Yes you can input some energy through the burning of candles and incense and the sacrifice of other material forms but the real foundation for magical success comes from the ability of the magician to channel energy from its ultimate source That energy flows through the magician to be expressed and transformed guided by his focused intent This new book Energy for Life not only teaches the reader how to tap into the Universal Life Force but the accompanying audio CD enables the user to do so through expertly crafted guided meditation carried into the user s deep unconscious by specially composed musical accompaniment Finalist for the Coalition of Visionary Resources Award for Best Alternative Health Healing Book **The Book of the Holy Light** Michael Levey,Michael Levi,2004 LISTEN TO ITS RHYTHMS WITH AN OPEN HEART The Book of the Holy Light reveals the nature of God in the form of the Son of God The first chapter The Testament of the Holy Light of God opens the framework of existence in the body of God revealing the nature of light in the embrace of unity The book continues with The Testament of the Son of God inviting the children of light to return home to the inner space of God The next chapter The Twelve Transformations of the Holy Light of God awakens the inner transformations of consciousness transmuting the children of light into the body of God Next The Trans portal Matrix of Divine Grace describes the inter connecting matrix of consciousness binding the children of light in the body of God The book continues with The Dimensions of Light opening the multi dimensional universe to the children of God The next chapter The Forms of Ascending Light triggers the mechanisms of ascension in the consciousness of the child of light Finally The Circle of Ascending Light weaves a tapestry of light around the children of God connecting them to the body of God This is the story of light told through revelation To appreciate it fully you must set aside your intellect and like poetry listen to its rhythms with an open heart Tony Ellis award winning poet and author of There is Wisdom in Walnuts **The Radiant Universe [By] Hans Rohr; Translated and Revised From the German by Arthur Beer** Arthur Beer,Hans. the Radiant Universe Rohr,Hans.
