Hakan Yavuz, 2003-08-28 In November of 2002 the Justice and Development Party swept to victory in the Turkish parliamentary elections Because of the party's Islamic roots its electoral triumph has sparked a host of questions both in Turkey and in the West Does the party harbor a secret Islamist agenda Will the new government seek to overturn nearly a century of secularization stemming from Kemal Atatürk's early twentieth century reforms Most fundamentally is Islam compatible with democracy In this penetrating work M Hakan Yavuz seeks to answer these questions and to provide a comprehensive analysis of Islamic political identity in Turkey He begins in the early twentieth century when Kemal Atatürk led Turkey through a process of rapid secularization and

crushed Islamic opposition to his authoritarian rule Yavuz argues that since Atatürk's death in 1938 however Turkey has been gradually moving away from his militant secularism and experiencing a quiet Muslim reformation Islamic political identity is not homogeneous says Yavuz but can be modern and progressive as well as conservative and potentially authoritarian While the West has traditionally seen Kemalism as an engine for reform against reactionary political Islam in fact the Kemalist establishment has traditionally used the Islamic threat as an excuse to avoid democratization and thus hold on to power Yavuz offers an account of the soft coup of 1997 in which the Kemalist military bureaucratic establishment overthrew the democratically elected coalition government which was led by the pro Islamic Refah party He argues that the soft coup plunged Turkey into a renewed legitimacy crisis which can only be resolved by the liberalization of the political system The book ends with a discussion of the most recent election and its implications for Turkey and the Muslim world Yavuz argues that Islamic social movements can be important agents for promoting a democratic and pluralistic society and that the Turkish example holds long term promise for the rest of the Muslim world Based on extensive fieldwork and interviews this work offers a sophisticated new understanding of the role of political Islam in one of the world's most strategically important countries

[Political Islam, Citizenship, and Minorities](#) Andrea Zaki Stephanous, 2012-07-10 Political Islam Citizenship and Minorities discusses the relationship between religion and politics in the Middle East and the future of political Christianity The emergence of political Islam and the recent changes in political Christianity in the region have both contributed to a new perception of the role of Arab Christians Political Christianity is a part of the political discourse in the Middle East it makes a major contribution to the political life of the region This book explores Arab political participation in general and particularly examines the role of minorities The author considers both the impact of political Islam on politics and the concept of a political system based on religious principles The Copts of Egypt and the Maronites of Lebanon are compared in order to examine the nature of political participation by Arab Christians and to consider the political theologies behind both communities Arabism as a broad concept that includes Islam and other faiths is our concern A new vocabulary and fresh concepts for the effective political participation of Arab Christians are introduced in this book and a new concept of dynamic citizenship that is based on the development of civil society and learns from the problems of the past is developed

Muslim Politics Dale F. Eickelman, James Piscatori, 2018-06-05 In this

updated paperback edition Dale Eickelman and James Piscatori explore how the politics of Islam play out in the lives of Muslims throughout the world They discuss how recent events such as September 11 and the 2003 war in Iraq have contributed to reshaping the political and religious landscape of Muslim majority countries and Muslim communities elsewhere As they examine the role of women in public life and Islamic perspectives on modernization and free speech the authors probe the diversity of the contemporary Islamic experience suggesting general trends and challenging popular Western notions of Islam as a monolithic movement In so doing they clarify concepts such as tradition authority ethnicity protest and symbolic space notions that are crucial to an in depth understanding of ongoing political events This book poses questions about ideological politics in a variety of transnational and regional settings throughout the Muslim world Europe and North America for example have become active Muslim centers profoundly influencing trends in the Middle East Africa Central Asia and South and Southeast Asia The authors examine the long term cultural and political implications of this transnational shift as an emerging generation of Muslims often the products of secular schooling begin to reshape politics and society sometimes in defiance of state authorities Scholars mothers government leaders and musicians are a few of the protagonists who invoking shared Islamic symbols try to reconfigure the boundaries of civic debate and public life These symbolic politics explain why political actions are recognizably Muslim and why Islam makes a difference in determining the politics of a broad swath of the world

The Ulama in Contemporary Islam Muhammad Qasim Zaman, 2010-12-16 From the cleric led Iranian revolution to the rise of the Taliban in Afghanistan many people have been surprised by what they see as the modern reemergence of an antimodern phenomenon This book helps account for the increasingly visible public role of traditionally educated Muslim religious scholars the ulama across contemporary Muslim societies Muhammad Qasim Zaman describes the transformations the centuries old culture and tradition of the ulama have undergone in the modern era transformations that underlie the new religious and political activism of these scholars In doing so it provides a new foundation for the comparative study of Islam politics and religious change in the contemporary world While focusing

primarily on Pakistan Zaman takes a broad approach that considers the Taliban and the ulama of Iran Egypt Saudi Arabia India and the southern Philippines He shows how their religious and political discourses have evolved in often unexpected but mutually reinforcing ways to redefine and enlarge the roles the ulama play in society Their discourses are informed by a longstanding religious tradition of which they see themselves as the custodians But these discourses are equally shaped by and contribute in significant ways to contemporary debates in the Muslim public sphere This book offers the first sustained comparative perspective on the ulama and their increasingly crucial religious and political activism It shows how issues of religious authority are debated in contemporary Islam how Islamic law and tradition are continuously negotiated in a rapidly changing world and how the ulama both react to and shape larger Islamic social trends Introducing previously unexamined facets of religious and political thought in modern Islam it clarifies the complex processes of religious change unfolding in the contemporary Muslim world and goes a long way toward explaining their vast social and political ramifications

Reform and Modernity in Islam Safdar Ahmed, 2013-05-30 The debate over Islam and modernity tends to be approached from a Eurocentric perspective that presents Western norms as a template for progress against which Islamic societies can be measured This misses the historical development of Muslim reformist thought that actively engages with the world around it and seeks to reconfigure Islam within the diverse conditions of modernity Safdar Ahmed paints a complex and nuanced picture that goes beyond the idea that Muslim reformers have either reproduced or reacted against Western ideas Rather Ahmed argues they have reconstructed and appropriated these ideas and so the thread of Western influence runs through modern Islamic thought on nationalism and sovereignty femininity and gender Ahmed uncovers new historiographical perspectives by critically examining the work of prominent intellectuals such as Muhammad Abduh Qasim Amin and Abdul A la Maududi

Encyclopedia of Islamic Civilisation and Religion Ian Richard Netton, 2013-12-19 The Encyclopedia of Islamic Civilization and Religion provides scholarly coverage of the religion culture and history of the Islamic world at a time when that world is undergoing considerable change and is a focus of international

study and debate The non Muslim world s perceptions of Islam have often tended to be dominated by unrepresentative radical extremist movements and media interpretations of events involving such movements to the extent that many people are unaware of the depth and variety of Islamic thought At the same time many who have had a formal training in Islamic studies have tended to concentrate on the traditional to the exclusion of the contemporary The Encyclopedia of Islamic Civilization and Religion covers the full range of Islamic thought in historical depth but it also provides substantial coverage of contemporary trends across the Muslim world With well over a thousand entries on Islamic theology history arts science law and institutions and coverage of Islam in individual countries and cities around the world the Encyclopedia of Islamic Civilization and Religion provides an extremely rich resource for students and researchers in religious studies and Middle Eastern studies Entries are cross referenced and bibliographies are provided There is a full index Routledge published The Qura n An Encyclopedia in 2005 an excellent companion to the Encyclopedia of Islamic Civilization and Religion

Rethinking Islamist Politics Salwa Ismail,2006-05-26 In an atmosphere of growing concern over the threat posed by Islamist violence political Islamism has become the most important of geopolitical issues In the process it has been misrepresented Contrary to what many believe Islamist movements are characterised by their diversity Revisiting the main arguments and explanations that have been used over the past twenty years to understand Islamist activism moderate as well as militant Salwa Ismail here proposes a rethinking of Islamist politics The phenomenon of political Islam is determined by macro and micro level changes in the Muslim world such as the retreat of the welfare state across the Middle East and the subsequent expansion in the role of informal political activists in the popular neighbourhoods of such cities as Algiers or Cairo Ismail examines both levels to explain the socio economic and political settings out of which Islamism has developed Her focus is both the economic and political environments that fomented Islamism and the structures of Islamist movements themselves from their ideologies to their modes of action Looking at Islamism as a form of contestation politics Ismail offers a reassessment of its failures and successes limited as it is by its use of violence but capable of real mobilisation at a popular level Rethinking Islamist Politics will be vital reading for anyone seeking to understand such spectacular expressions of Islamism as the September 11th attacks but also the everyday struggles of ordinary people which Islamism embodies *The Talibanization of Southeast Asia* Bilveer Singh,2007-10-30 Long before the terrorist attacks of September 11 2001 awakened the United States and the Western world to the heightened level of the terrorist threat Southeast Asia had been dealing with this threat The bombing in Bali that killed 202 people many of them Australian tourists was by no means the region s first experience with Islamic extremism which can be traced back to the 1940s and the Darul Islam struggle The most recent group to emerge is Al Jama ah Al Islamiyah AJAI the most potent Islamic terrorist organization to date in the region and the group behind the Bali bombing Understanding the process of Talibanization in Southeast Asia which was once an oasis of moderate Islam in the modern world is a key to unraveling the mystery of the increased radicalization in the region

Essentially this involved the establishment of a political system that was more Islamic in character either nationally or within a specific territory of a national state This book analyzes the increasing Talibanization of Southeast Asia a relatively new phenomenon that involves the adoption of Islamist doctrines ideologies and values that are largely militant in character and that for some groups includes the adoption of violence to achieve their goals This has succeeded in posing one of the most serious security challenges to the region since the end of the Cold War Jihadists are operating in small and localized cells even though the broad goals remain the same namely to spread sharia establish an Islamic state and bring down secular regimes As most governments do not have the credibility or the expertise to diminish the threat posed by Islamist extremism Wahhabism and Salafism Southeast Asia is in danger of being Talibanized in the near future
