photographs of aircraft in 1931 aged fifteen Fortunately he kept copious notes recording the locations and dates of when and where aircraft were photographed More importantly he noted aircraft colour schemes details rarely recorded by the press at the time The aircraft types photographed by Riding ranged from the Tiger Moth RAF fighters ultra lights to airliners the whole giving a good cross section of flying in Britain up to the outbreak of the Second World War The book s photographs are of excellent quality and do not all consist of sterile bog standard side views Many depict aircraft being stripped for maintenance and servicing others show aircraft dumped or after having crashed Although approached in a generally light hearted manner the book features in depth and informative captions
