Reconstructing Literature:

The Literature of Reconstruction Wolfgang Funk, 2017-03-23 Winner of the 2016 ESSE Junior Scholar Book Award in Literatures in the English Language The Literature of Reconstruction argues for the term and concept of postmillennial reconstruction to fill the gap left by the decline of postmodernism and deconstruction as useful cultural and literary categories Wolfgang Funk shows how this notion emerges from the theoretical and philosophical development that led to the demise of postmodernism by relating it to the idea of authenticity immediate experience that eludes direct representation In addition he provides a clear formal framework with which to identify and classify the features of reconstructive literature by updating the narratological category of metafiction originally established in the 1980s Based on Werner Wolf's observation of a metareferential turn in contemporary arts and media he illustrates how the specific use of metareference results in a renegotiation of the specific patterns of literary communication and claims that this renegotiation can be profitably described with the concept of reconstruction To substantiate this claim in the second half of the book Funk discusses narrative texts that illustrate this transition from postmodern deconstruction to postmillennial reconstruction The analyses take in distinguished and prize winning writers such as Dave Eggers Julian Barnes Jennifer Egan and Jasper Fforde The broad scope of authors featuring writers from the US as well as the UK underlines the fact that the reconstructive tendencies and strategies Funk diagnoses are of universal significance for the intellectual and cultural self image of the global North

Reconstruction in Literary Studies B. Vescio, 2014-08-06 Pointing the way toward a revitalized future for the study of literature Reconstruction in Literary Studies draws on philosophical pragmatism to justify the academic study of literature In turn Vescio connects the changing field to its social function as an institution *Reconstructing Criticism* Philip Smallwood, 2003 This study aims to bring the modern theory of literary criticism and Pope's Essay on Criticism of 1711 into a more productive and interesting association than critical historical structures have generally allowed Smallwood marks out in current terms and in depth the specialized theoretical and aesthetic problem of defining criticism He recognizes that criticism no more than literature or art cannot be finally codified or defined but insists on the need for clarity in the exposition of criticism's purposes and a fuller consciousness of a common community of practice available to audiences outside the academic fold Affirming the unfailing currency and utility of the term criticism as new languages have taken over the critical domain or have sought to replace or abolish literature Smallwood distinguishes between the normative definitions that are everywhere apparent in modern theory of criticism and the advantages to conceptual comprehension achieved by Pope's poetic idea of criticism in the Essay **The Literature of Reconstruction** Brook Thomas, 2017-01-17 In this groundbreaking new study author Brook Thomas argues that literary analysis can enhance our historical understanding of race and Reconstruction The standard view that Reconstruction ended with the Compromise of 1877 is a retrospective construction Works of literature provide the perspective of those who continued to see possibilities for its renewal well past

1877 Historians have long tried to reconcile social history's emphasis on the local with political history's emphasis on the national. Literature creates national political allegories while focusing on events in a particular locale. Moreover, the debate over Reconstruction was a debate about state legitimacy as well as specific laws. It was a question of foundational myths as well as foundational legal principles. Literature's political allegories allow us to recreate those debates rather than view the end of Reconstruction as a foregone conclusion. Because many of the issues raised by Reconstruction remain unresolved, those debates continue into the present. Chapters treat how the racial issues raised by Reconstruction are interwoven with debates over state v. national authority, efforts to combat terrorism, the KKK, the paternalism of welfare, economic expansion, and the question of who should rightly inherit the nation's past. Thomas examines authors who opposed Reconstruction, authors who supported it, and authors who struggled with mixed feelings. This exciting text will set the standard in literary historical studies for decades to come.

Teaching American Literature in Spanish Universities Carme Manuel Cuenca, 2002. Uno de los aspectos más valiosos de este libro es que comienza enlazando a través de los dos primeros artículos la educación universitaria con su nivel inmediatamente anterior, la escuela de secundaria, una conexión que a menudo se olvida con serios resultados para ambos. En este sentido, Benito Camacho Martín, el autor de uno de los artículos, realiza un análisis lícito y en cierto modo dogmático sobre el declive de la enseñanza de literatura en las escuelas de secundaria tanto en horas dedicadas como en conocimientos adquiridos. Los otros artículos, algunos en inglés y otros en castellano, tratan distintos aspectos de la enseñanza de literatura norteamericana con un énfasis manifiesto en materiales del siglo XX y sobre todo en la literatura afroamericana. De hecho, el libro resultará particularmente útil para los profesores de esto último.

Teaching Literature T. Agathocleous, A. Dean, 2002-12-16. In *Teaching Literature*, scholars explain how they think about their everyday experience in the classroom using the tools of their ongoing scholarly projects and engaging with current debates in literary studies. Until recently, teaching has played second fiddle to literary research as a mode of knowledge in academia, leaving new teachers with nowhere to turn for advice about teaching and no forum for discussion of the difficulties and opportunities they face in the classroom.

Reconstructing Jerusalem Kenneth A. Ristau, 2016-06-01. Jerusalem, one of the most contested sites in the world. *Reconstructing Jerusalem* takes readers back to a pivotal moment in its history when it lay ruined and abandoned and the glory of its ancient kings David and Solomon had faded. Why did this city not share the same fate as so many other conquered cities destroyed and forever abandoned, never to be rebuilt? Why did Jerusalem, disgraced and humiliated, not suffer the fate of Babylon, Nineveh, or Persepolis? *Reconstructing Jerusalem* explores the interrelationship of the physical and intellectual processes leading to Jerusalem's restoration after its destruction in 587 B.C.E., stressing its symbolic importance and the power of the prophetic perspective in the preservation of the Judean nation and the critical transition from Yahwism to Judaism. Through texts and artifacts, including a unique comprehensive investigation of the archaeological evidence, a startling story emerges: the visions of a small group of prophets not only inspired the rebuilding of

a desolate city but also of a dispersed people Archaeological historical and literary analysis converge to reveal the powerful elements of the story a story of dispersion and destruction but also of re creation and revitalization a story about how compelling visions can change the fate of a people and the course of human history a story of a community reborn to a barren city

Canons and Contexts Paul Lauter, 1991-03-28 This collection of essays places issues central to literary study particularly the question of the canon in the context of institutional practices in American colleges and universities Lauter addresses such crucial concerns as what students should read and study how standards of quality are defined and changed the limits of theoretical discourse and the ways race gender and class shape not only teaching curricula and research priorities but collegiate personnel actions as well The book examines critically the variety of recent proposals for reforming higher education and it calls into question many practices like employing large numbers of part timers now popular with college managers Offering concrete examples of a comparative method for teaching literary texts and specific instances about integrating curricula **Canons and Contexts** proposes realistic ideas for creating varied spirited and democratic classrooms and colleges

The Canonical Debate Today Liviu Papadima, David Damrosch David Damrosch, Theo D'haen Theo D'haen, 2011-03-10 The Canonical Debate Today Crossing Disciplinary and Cultural Boundaries re enacts the canonical issues current in the 90s from a new perspective triggered by the changes that occurred worldwide in understanding the concepts and the status of theory in the legacy of literary studies within the field of humanities and in cultural production and reception During the last decade discussions of globalization mostly took into account its impact on the status of academic disciplines such as comparative literature or cultural studies or the reconfiguration of national literary fields These debates do not dispense with canonicity altogether but make it more urgent and necessary Canons seen as sets of norms or regulatory practices are central to the formation of disciplines to the recognition and transmission of values even to the articulation of discourses on identity on various levels The three sections of the volume deal with three interrelated subjects theories and applicable contexts of the canon **Canons and Contexts** recent transformations in the area of literary studies in response to the task of canon formation Reshaping Literary Studies and the challenges brought to the understanding of the canon s by the current process of re defining literary and cultural boundaries Transgressing Literary and Cultural Boundaries This volume will appeal to researchers teachers and students of cultural studies comparative literature and literary theory

Literature, the Gothic and the Reconstruction of History Daniel Renshaw, Neil Cocks, 2025-01-31 In the Gothic nothing stays buried for long Since its inception in the mid eighteenth century the Gothic imagination has been concerned with the pasts of the societies from which it emerged This collection featuring contributions from archivists historians and literary critics examines how horror fiction and the wider Gothic mode have engaged with the constructed conception of history From Victorian nightmares of Jurassic jungles to ghost stories on the contemporary stage the contributors adopt varied and innovative approaches to consider how the Gothic has created complicated and sometimes subverted historical narratives In

doing so these works blur the distinctions between the historical record and creative endeavour undermine linear and sequential understandings of the progress of time and dissolve temporal boundaries The collection explores a variety of Gothic forms including drama poetry prose illustration film and folklore and it draws on classic texts such as Wuthering Heights and Dracula as well as less familiar works including Reynolds The Mysteries of London and Baldini s Mal aria Literature the Gothic and the Reconstruction of History will be invaluable to students and scholars interested in the confluences of literary and historical endeavour the creation and depiction of historical constructs in popular culture and Gothic horror in its myriad forms *Literary Meaning* Wendell V. Harris,1998 In this clearly written and accessible book Wendell Harris sets out to expose the inadequacies of current methods and trends in literary criticism The book s greatest strength is its lucid presentation of critical works which are then shown to be compromised by fallacies and flaws CHOICE

Understanding Children's Literature Peter Hunt,1999 This book provides an introduction to some of the critical theories useful in the study of children s literature The 14 chapters examine the context application and relevance to this area of concepts such as feminism ideology psychoanalysis and literacy studies International Companion Encyclopedia of Children's Literature Peter Hunt,2004-08-02 Children s literature continues to be one of the most rapidly expanding and exciting of interdisciplinary academic studies of interest to anyone concerned with literature education internationalism childhood or culture in general The second edition of Peter Hunt s bestselling International Companion Encyclopedia of Children s Literature offers comprehensive coverage of the subject across the world with substantial accessible articles by specialists and world ranking experts Almost everything is here from advanced theory to the latest practice from bibliographical research to working with books and children with special needs This edition has been expanded and includes over fifty new articles All of the other articles have been updated substantially revised or rewritten or have revised bibliographies New topics include Postcolonialism Comparative Studies Ancient Texts Contemporary Children s Rhymes and Folklore Contemporary Comics War Horror Series Fiction Film Creative Writing and Crossover literature The international section has been expanded to reflect world events and now includes separate articles on countries such as the Baltic states the Czech and Slovak Republics Iran Korea Mexico and Central America Slovenia and Taiwan **Institutionalizing English Literature** Franklin E. Court,1992 This book has a dual purpose First it presents a detailed historical record of how the academic discipline of English literary study began in British universities It traces the process of academic legitimation and autonomy from Adam Smith who first offered formal university lectures on English literature between 1748 and 1751 to the formation of the Oxford English School by Sir Walter Raleigh in 1904 Much of this material is drawn directly from the lives and careers of the prominent professors who were the avatars of the new discipline The author examines pedagogical practices programmatic decisions and shifting political currents of academic fashion The primary focus is on two institutions the University of Edinburgh and University College London Not only were they in the forefront in the initial disciplinary

formation of English literary study they were both especially sensitive registers of continually changing ideological imperatives and scholarly trends The second purpose of the book is to demonstrate to those who consider the politicization of literary study a contemporary plague that political ideologies and ethnocentric parochialism have consistently determined the historical development of the discipline and that the institutional history of English literary study is largely a history of ideological and racial controversy Though basically historical in its methodology the book extends into areas of general literary criticism and cultural theory examining how an interdisciplinary network of relations created the political climates and shaped the scholarly trends that determined the discipline's history The record of the genesis of English literary study is in part a record of major institutional commitments of the publication of definitive critical works of the shaping of a teachable canon of literary works and of the vibrant and colorful personalities who left their marks on generations of students But as this book shows the full record also includes other traces of the past salary disputes professional jealousies and conflicts conflicting pedagogical visions British racial distinctions economic constraints the marketing of books committee bureaucracies degree requirements political demagoguery social and religious pressures and many others
