**Developments and Social Problems** Herbert M. Lefcourt, 2013-09-24 Research with the Locus of Control Construct Volume 2 Developments and Social Problems seeks to contribute towards explaining the nomological network in which the locus of control construct is embedded In studying the antecedents concomitants and far reaching ramifications of the construct we can come to see its meaning more clearly The book is organized into three parts Part I pertains to one realm of locus of control research that is of signal interest to psychologists concerned with personality research and theory If locus of control is an important predictor of behavior then we should know something about its origins and the role it plays at different stages of the life span The chapters in the first part aid in the development of such a life span approach to locus of control research Part II focuses on applications to two clinical social problems marital instability and alcoholism Part III explores the use of locus of control as a moderator variable Here the response to particular situational constraints or milieu characteristics is evaluated vis vis status on locus of control variables In this way it becomes possible to speak of the specific effects of therapy or educational procedures upon persons who vary in personality characteristics such as locus of control in much the way that the advocates of interactionism have always advised

*Measures of Personality and Social Psychological Attitudes* John P. Robinson, Phillip R. Shaver, Lawrence S. Wrightsman, 2013-10-22 Measures of Personality and Social Psychological Attitudes Volume 1 in Measures of Social Psychological Attitudes Series provides a comprehensive guide to the most promising and useful measures of important social science concepts This book is divided into 12 chapters and begins with a description of the Measures of Personality and Social Psychological Attitudes Project s background and the major criteria for scale construction The subsequent chapters review measures of response set the scales dealing with the most general affective states including life satisfaction and happiness and the measured of self esteem These topics are followed by discussions of measures of social anxiety which is conceived a major inhibitor of social interaction as well as the negative states of depression and loneliness Other chapters examine the separate dimensions of alienation the predictive value of interpersonal trust and attitudes in studies of occupational choice and racial attitude change and the attitude scales related to locus of control The final chapters look into the measures related to authoritarianism androgyny and values This book is of great value to social and political scientists psychologists nurses social workers non academic professionals and students

*Communication Research Measures II* Rebecca B. Rubin, Alan M Rubin, Elizabeth E. Graham, Elizabeth M. Perse, David Seibold, 2010-04-26 Expanding and building on the measures included in the original 1994 volume Communication Research Measures II A Sourcebook provides new measures in mass interpersonal instructional and group organizational communication areas and highlights work in newer subdisciplines in communication including intercultural family and health It also includes measures from outside the communication discipline that have been employed in communication research The measures profiled here are the best of the best from the early 1990s through today They are models for future scale

development as well as tools for the trade and they constitute the main tools that researchers can use for self administered measurement of people s attitudes conceptions of themselves and perceptions of others The focus is on up to date measures and the most recent scales and indexes used to assess communication variables Providing suggestions for measurement of concepts of interest to researchers inspiring students to consider research directions not considered previously and supplying models for scale developers to follow in terms of the work necessary to produce a valid and reliable measurement instrument in the discipline the authors of this key resource have developed a significant contribution toward improving measurement and providing measures for better science

**Understanding and Treating Alcoholism** Jill Littrell,2014-01-02 There seems to be an abundance of factual information regarding alcoholism what causes it who is most susceptible how it affects its victims and how it should be treated However a definitive source of data supporting or refuting the numerous and diverse positions was never available Thus the goal of the author is to provide professionals with a solid understanding as to which factual statements about alcoholism are actually supported with evidence and some of the empirically validated ways to proceed with treatment Major methods of treatment are reviewed and empirically based approaches are compared and contrasted with one another Different and sometimes new focal points are explored such as the disease concept of alcoholism family members of alcoholics personality characteristics and effects of alcoholism exclusive to women Also notable is the nearly unprecedented look into the impact of alcohol on all types of mood and behavior rather than just on aggression a topic long since exhausted A comprehensive review of literature complemented with critiques of research this two volume set is a thorough informative source of reference for anyone who seeks to further their knowledge of this often misunderstood yet unfortunately all too common phenomenon

**Handbook of Individual Differences, Learning, and Instruction** David H. Jonassen,Barbara L. Grabowski,2012-12-06 Written for teachers trainers and instructional designers anyone who is responsible for designing or preparing instruction this book begins with one basic premise individual differences mediate learning at all levels and in all situations That is some learners find it easier or more difficult to learn some skills or to learn from certain forms of instruction because they vary in terms of aptitude cognitive styles personality or learning styles This volume describes most of the major differences in a readable and accessible way and demonstrates how to design various forms of instruction and predict the ease with which learners will acquire different skills Most books that discuss any learner differences focus on those that characterize special education populations whereas this book focuses on normal learners Designed as a handbook this volume is structured to provide easy and consistent access to information and answers and prescriptions and hypotheses When definitive answers are not possible because there is no research documentation the

authors suggest theories designed to stimulate future research      *Handbook of Interpersonal Communication* Mark L. Knapp, John A. Daly, 2002-10 The Third Edition of the Handbook of Interpersonal Communication includes eight new chapters and eleven revised from the second edition Following an introductory chapter the volume is organized into four parts covering perspectives on inquiry in interpersonal communication fundamental units of interpersonal communication processes and functions and interpersonal contexts Features include Each chapter reviews and updates research in its respective area Part II examines methodological issues in the field Includes articles by top scholars in the field of Interpersonal Communication      **Psychological Perspectives of Helplessness and Control in the Elderly** P.S. Fry, 1988-12-01 The past few years have witnessed widespread acceptance of the notion that few elderly individuals are willing to stand by silently in the process of growing and to relinquish whatever actual controls autonomy or control beliefs they had in the past Increasingly old age is viewed as the dynamics of growth in mastery control and self efficacy on the one hand and a relative decline in psychological and physical resources on the other It is the intent of this volume to communicate both aspects of these changes and to offer a comprehensive review of the cross fertilization of the field of gerontology and the psychology of reactance freedom and control Leading psychologists and social science researchers from the United States Canada and Europe give their views on the meaning and application of control related constructs having specific implications for the field of human aging They address themselves to one or more of the major themes issues or concerns which currently figure in discussions of control beliefs and control constructs as they apply to aging and old age Written primarily for scholars researchers and developmental theorists interested in the complexities and generativity of control constructs and their applications for the psychological well being of older adults the data and issues presented will be equally informative to gero psychologists and mental health professionals concerned with healthy adaptive functioning of the elderly      **Social Psychology, the Second Edition** Roger Brown, 1986 The Second Edition succeeds in showing that social psychology has a potent contribution to make to understanding human behavior Drawing on landmark experiments real life cases and his own valuable insights Brown analyzes a wide range of subjects including obedience and rebellion altruism group decision processes the psycholegal questions of eyewitness testimony jury size and decision rule the psychosexual question of androgyny the sources of ethnic conflict and much more      **Advances in Experimental Social Psychology**, 1987-11-05 *Advances in Experimental Social Psychology*      **Children's Social Networks and Social Supports** Deborah Belle, 1989-03-30 This new work integrates emerging ideas on children's social networks and supports with developmental theory and research Researchers and clinicians armed with new methodological tools synthesize theoretical and clinical work and suggest implications for supportive interventions for children The periods from infancy to adolescence are covered considering social networks inside and outside of the child's household institutional connections and even pets      **The Developmental Psychology of Planning** Sarah L. Friedman, Ellen Kofsky Scholnick, 2014-02-25 Planning is defined as

formulating an organized method for action in advance Although people do not plan all the time and planning does not occur in every situation planning skill is central to all human behavior There are developmental differences in planning skill and in the motivation to plan Even among adults variations in the engagement in the planning process are affected by individual attitudes beliefs and goals Planning also has a different meaning at various junctures in one's life Yet despite the amount of research on planning many of the studies have focused only on the cognitive processes that enable mature individuals to plan A continued exploration of the developmental course of planning this text attempts to situate cognitive aspects of planning in the context of the social and cultural environment and other psychological processes Bringing together the contributions of developmental organizational and social psychologists it explains how when and why we plan Finally it addresses various issues that pertain to the different aspects of planning from formal problem solving to handling the demands of everyday life

**Changes in Children's Perception of Personal Control as a Result of Their Participation in Investigating, Planning, and Altering Their Physical Classroom Environment** Gary Mark Slutzky, 1947-,1991 Personality and Memory Correlates of Intellectual Functioning: Young Adulthood to Old Age K. D. Hooper,J. O. Hooper,K. K.

Colbert,1984-07-02 **Action and Self-Development** Richard M. Lerner,1999-08-24 This text explores the theoretical breadth of models and ideas relevant to action theory Areas addressed include personal goals projects life themes life planning cultural agency and historical and social contexts impact developmental patterns **Canadian Journal of Behavioural Science** ,1988 **Effective Early Childhood Education** Lotty Eldering,Paul P.M. Leseman,2002-12-24 In

examining child development and early educational intervention strategies from cross cultural perspectives this work brings together several recent theoretical insights the results of empirical research and experiences with well evaluated early educational intervention programs Its purpose is to constructively examine current international strategies of early education and literacy for disadvantaged children Perceived Control, Motivation, & Coping Ellen A. Skinner,1995-02-08 At every point in the lifespan individual differences in a sense of control are strong predictors of motivation coping and success and failure in a wide range of domains What are the origins of these individual differences how do they develop and what are the mechanisms by which they exert such an influence on psychological functioning To answer these questions this book draws on theories and research covering key control constructs including self efficacy learned helplessness locus of control and attribution theory Skinner also considers such issues as the origins of control in social interaction environmental features that promote or undermine control developmental change in the mechanisms by which experience Explanations in Organizations Claude Louche,Antoine Talhouk,1997 Under the influence of cognitivism explanations in everyday life constitute a major research theme in social psychology today Studies are divided into two large domains those of locus of control and causal attribution approaches Work and organizational psychologists have not hesitated to take an interest in this research They have made use of it to enrich their own investigations thus the classical models of organizational psychology

such as leadership and motivation have given way to explanation processes But the study of these processes has also contributed to shedding light on the actions of practitioners Explanations are in fact at the heart of many practices of work and organizational social psychology They play a part in situations of recruitment assessment organizational consultation and so on This special issue will aim to present a synthesis of the large body of research devoted to explanations in organizations

A Sociocognitive Approach to Social Norms Nicole Dubois, 2004-01-14 Original theory based upon numerous laboratory studies and wide ranging case studies This research has had great impact in French speaking countries but there is a definite absence of information on this area in English Conceptual and methodological approach
