Resistance And Control In Pakistan:

Resistance and Control in Pakistan Akbar S. Ahmed, 2004 How can people in the West make sense of contemporary unrest in the Muslim world Is Islamic fundamentalism to be understood purely in religious terms In *Resistance and Control in Pakistan* one of the world's leading authorities on Islam Akbar S Ahmed illuminates what is happening in the Muslim world today and assesses the underlying causes He does this by telling the dramatic story of the revolt of the Mullah of Waziristan in northwest Pakistan and by placing it within the context of other movements occurring elsewhere in the Islamic world He also examines the social structure and operative principles in Muslim society and scrutinizes the influence of religion in a society that is undergoing modernization Till now there has been little available literature on this topic This book written by an eminent scholar with an international reputation fills this gap giving students of politics sociology and Asian studies a revealing examination of the Muslim world today

Pakistan's War on Terrorism Samir Puri, 2012-02-20 This book examines Pakistan's strategies in the war against Islamist armed groups that began late 2001 following the 9 11 attacks The significance of the war inside Pakistan can hardly be understated Starting in the tribal territories adjacent to Afghanistan Pakistan's war has come to engulf the majority of the country through a brutal campaign of suicide bombings Thousands of Pakistani lives have been lost and the geostrategic balance of the region has been thrown into deep uncertainty Pakistan's War on Terrorism is an account of a decade long war following the 9 11 attacks that is yet to be chronicled in systematic fashion as a campaign of military manoeuvre and terrorist reprisal It is also an analytic account of Pakistan's strategic calculus during this time both in military and political terms and how these factors have been filtered by Pakistan's unique strategic culture This text will be of great interest to students of Asian Politics Terrorism and Political Violence and Security Studies in general

The Rise and Decline of the Insurgency in Pakistan's FATA Shahzad Akhtar, 2022-12-16 This book analyzes the emergence rise and decline of insurgency by the Pakistani Taliban in Pakistan's North Western region also known as Federally Administered Tribal Areas FATA It provides a detailed account of the rise and decline of the FATA insurgency and also examines aftereffects of the insurgency Offering an in depth analysis of how insurgency in the FATA began in 2004 after Pakistan entered its military forces into the tribal areas the author illustrates that the insurgency erupted when state repression on masses is combined with a disruption of the previous modus vivendi centered on co optation of local elites In the following years the insurgency became so powerful that most of the FATA region fell under the control of the insurgents The book further argues that a weak counterinsurgency strategy by the Pakistani government characterised by the overzealous use of force and a failure to win the support of local communities led the insurgency to become stronger and expand its control Furthermore the analysis reveals that a more robust counterinsurgency strategy relying more on a determined and a judicious use of force and attempts to gain the trust and support of local communities adopted in the later years led to the collapse of the insurgency In short this book offers an explanation of what makes an

insurgency more likely to occur and how insurgency escalates and declines In addition this book sheds light on recent development in FATA including the merger of FATA with the mainstream Pakistan the rise of the Pashtun Tahafuz Movement a non violent protest movement and the resurgence of the Pakistani Taliban especially after the Afghan Taliban capture of Kabul in the wake of US withdrawal of forces in Afghanistan This book is a timely addition to the literature on South Asian Politics and Security Studies **World Bibliography of Rice Stem Borers** International Rice Research

Institute,International Centre of Insect Physiology and Ecology,1991 *Pakistan's Political Labyrinths* Ravi Kalia,2015-08-11 This book explores Pakistan from different vantage points It examines a variety of events in contemporary Pakistan through a comprehensive analysis of identity and power politics media landscapes military recruitment role of madrassahs terrorism and militancy civil war as well as outlines future trajectories It studies themes such as Pakistan s relationship with India the legacy of Jinnah gender and fundamentalism urbanisation unrest that have plagued the northern areas It further looks at the nation after the capture of Osama bin Laden and the changing nature of its relation with the US in its aftermath Including contributions from experts in the field and policy makers across the world this volume will interest scholars and researchers on Pakistan studies politics and international relations It will also appeal to government think tanks and the general reader

Developing Sustainable Agriculture in Pakistan Iqrar Ahmad Khan,Muhammad Sarwar Khan,2018-04-17 Agriculture plays a pivotal role in the economy and development of Pakistan providing food to consumers raw materials to industries and a market for industrial goods Unfortunately agricultural production is stagnant due to several barriers including a fixed cropping pattern reliance on a few major crops a narrow genetic pool poor seed quality and a changing climate In addition the high cost of production weak phytosanitary compliance mechanisms and a lack of cold chain facilities makes Pakistan agriculturally uncompetitive in export markets Despite all these issues agriculture is the primary industry in Pakistan and small farmers continue to dominate the business Small farmers grow crops for subsistence under a fixed cropping pattern and a holistic approach is required to develop agriculture to improve the livelihoods of the rural populace This book presents an exhaustive look at agriculture in Pakistan Chapters provide critical analyses of present trends inadequacies in agriculture strategic planning improvement programs and policies while keeping in view the natural resources plant and animal related agricultural production technologies input supplies population planning migration and poverty and balanced policies on finance credit marketing and trade Parasitism and Parasitic Control in Animals Hafiz Muhammad Rizwan,Muhammad Sohail Sajid,2023-07-10 Parasitism and Parasitic Control in Animals brings together all the details needed to appropriately manage parasites in domestic animals It provides comprehensive coverage of parasites and factors affecting their transmission principles of parasite control diagnosis and assessment of parasitological information With numerous new case histories and maps showing the spread of anthelmintic resistance this textbook forms an essential guide for veterinary practitioners students and technicians It is also an invaluable resource for parasitologists researchers animal health

professionals and anyone working with these parasites in developing countries

Political and Social Change in Pakistan's Tribal Areas Naveed Ahmad Shinwari, 2025-05-23 This book analyses agency and place of youth within the Pashtun tribal social order in Pakistan. It looks at Pashtun youth as a separate social category analysing their changing trends of political leadership in Pakistan's former Federally Administered Tribal Areas (FATA). Presenting an in-depth ethnographic inquiry into the intricate dynamics of political leadership manifest among the Pashtun youth hailing from the erstwhile FATA, this book adds more depth to the understanding of political developments and the peculiar relationship between FATA and Pakistan in general. The author argues that events following the Soviet invasion and post 9/11 have disrupted traditional age-based relations in Pashtun society, enabling young adults to assert their political agency in unprecedented ways. This book demonstrates how Pashtun youth have emerged at the forefront of politics through avenues such as Talibanisation, migration, elite politics, and the Pashtun social movement. These young individuals are redefining politics in FATA and across Pakistan, playing a pivotal role in shaping new relationships between the Pashtun community and the Pakistani nation. By demystifying longstanding misconceptions and stereotypes perpetuated since British colonial times and post-independence Pakistan, and the evolving political dynamics in the context of the post-withdrawal phase of US forces from Afghanistan in August 2021, this book provides new empirical evidence and insights into social injustices faced by Pashtun youth. Analysing themes such as political alliances among diverse youth groups, identity politics, expressions of agency, migration, and the importance of urban spaces for activism and rights claims, the study sheds light on the dynamic role of Pashtun youth in contemporary South Asia, making it essential reading for understanding the region's socio-political landscape. It will be of interest to researchers studying politics and society in Pakistan and Afghanistan, anthropology, and post-conflict reconstruction in South Asia.

Pakistan's Tug of War Musa Khan Jalalzai, 2024-10-01 The Pakistani state is in trouble, riven by power struggles and social conflict. Regionalism, ethnic division, and sectarian partisanship within the armed forces have added up to a political and economic breakdown and a complex civil war. The competition between the armed services and the Pakistani intelligence services, both civilian and military, has kept Pakistan locked in turmoil. Here, a lifelong analyst of Pakistani politics and society reflects on the complex interplay of military, political, and societal factors in the country. Musa Khan Jalalzai explains the political and security situation, the impact on society of torture and enforced disappearances, the ongoing conflict in Balochistan, and

Afghanistan and the implications of state sponsored terrorism The Army and the intelligence community are both involved in criminal conduct against citizens revealing a profound lack of strategic direction for these institutions He draws a line from Zia era extremism to expanding terrorism under Pervez Musharraf pointing out the lack of industry economic stagnation huge running deficits and public debt reflecting a failure to strive for the public good Political instability corruption incompetence and control by the agencies are the guiding realities not a policy to promote public welfare The competition between the Pakistani intelligence services and the military have kept the country locked in turmoil Here a lifelong analyst of Pakistani politics and society reflects on the complex interplay of military political and societal factors in Pakistan Musa Khan Jalazai explains the political and security situation the impact on society of torture and enforced disappearances the ongoing conflict in Baluchistan and Afghanistan and the implications of state sponsored terrorism He also touches on the leadership challenges in Pakistan the economic struggles the country faces and concerns regarding the potential for nuclear conflict in South Asia particularly in relation to Imran Khan and the Taliban

The Contextual Determinants of Malaria Elizabeth A. Casman, Hadi Dowlatabadi, 2010-09-30 As malaria and other tropical diseases continue their resurgence questions about the potential impacts of environmental and demographic factors are becoming more critical Recent attempts to understand the increase in malaria incidence often acknowledge the importance of social economic and other contextual variables but fail to explicitly incorporate them into models or consider how they evolve in relation to one another This problem is of crucial interest to the climate policy community which has been buffeted by claims and counter claims concerning the impact of climate change on malaria This important volume examines the contextual determinants of malaria and attempts to develop methods for incorporating them into projections of future incidence Internationally renowned health specialists economists and other social scientists provide regional and global perspectives on risk modeling the history of eradication efforts current determinants including environmental social and economic factors and prospects for new vaccines and drugs The Contextual Determinants of Malaria argues that an association of climate change with increased malaria incidence will have at least as much to do with human aging poverty urbanization and population movement as with a rise in global temperatures By placing climate in this perspective The Contextual Determinants of Malaria focuses attention on the public health needs most critical in both the immediate and long term future It encourages multidisciplinary analysis of malaria control and improves our understanding of the interactions of the diverse range of factors involved in the incidence and spread of the disease

Pest Management in Cotton Graham A. Matthews, Thomas A. Miller, 2021-12-23 This book presents a global overview of the background to and the current state of crop protection and pest management in cotton crops Cotton is

one of the most economically important crops in the world and has been grown for centuries but maintaining high yields of good quality requires sophisticated approaches to pest management The introduction and use of pesticides over the decades significantly increased cotton yields but lead to many adverse environmental impacts Over time new and alternative insecticides were developed but overuse has enabled pests to develop significant resistance The development of genetically modified cotton varieties with toxins derived from *Bacillus thuringiensis* enabled much improved control of lepidopteran larvae including bollworms but as the toxins had no effect on sucking pests farmers had no choice but to continue using insecticides Also some of the new cotton varieties developed in recent times have not adapted to different climatic conditions and the quality of cotton fibre declined as a result This book shows the need for more research to select cotton varieties with high quality fibres suitable for different cotton growing areas and to develop integrated pest management strategies to minimise the use of pesticides It also demonstrates the need for an inter disciplinary approach bringing together plant breeders entomologists plant pathologists agronomists and agricultural engineers to achieve high yields of high quality cotton
