Watt, 2023-07-03 Higher education is facing a perfect storm as it contends with changing demographics shrinking budgets and concerns about access and cost while underrepresented groups both in faculty ranks and students are voicing dissatisfaction with campus climate and demanding changes to structural inequities This book argues that to address the inexorable changes ahead colleges and universities need both to centralize the value of diversity and inclusion and employ a set of strategies that are enacted at all levels of their institutions It argues that individual and institutional change efforts can only be achieved by implementing diversity as a value that is embracing social change efforts as central and additive rather than episodic and required and provides the research and theoretical frameworks to support this approach as well as tools and examples of practice that accomplish change The contributors to this book identify the elements that drive successful multicultural initiatives and that strengthen the effectiveness of campus efforts to dismantle systemic oppression as well as the individual and organization skills needed to manage difference effectively Among these is developing the capacity of administrators

faculty and student affairs professionals as conscious scholar practitioners to sensitively manage conflicts on campus deconstruct challenging structures and reconstruct the environment intentionally to include in respectful ways experiences of historically marginalized groups and non dominant ways of being in the world The books focus on developing capacities for multicultural competence aligns with higher education s increasing emphasis on civic engagement and institutional goals promote skills to interact in meaningful and responsible ways around difference whether of people ideas or identities Designing Transformative Multicultural Initiatives provides guiding principles and practical strategies to successfully transform higher education to become fully inclusive and advance the success of all constituents and stakeholders Race, Racialization and Antiracism in Canada and Beyond Genevieve Fuji Johnson,Randy Enomoto,2007-06-23 This multidisciplinary volume brings together scholars and activists to examine expressions of racism in contemporary policy areas including education labour immigration media and urban planning While anti racist struggles during the twentieth century were largely pitched against overt forms of racism e g pogroms genocide segregation apartheid and ethnic cleansing it has become increasingly apparent that there are other less visible forms of racism These subtler incarnations are of special interest to the contributors The intent of Race Racialization and Antiracism in Canada and Beyond is to probe systemic forms of racism as well as to suggest strategies for addressing them The collection is organized by themes pertinent to political and social expressions of racism in Canada and the wider world such as the state and its mediation of race education and the perpetuation of racist marginalization and the role of the media The contributors argue that in order to effectively combat racism various methodological approaches are required approaches that are reflective of the diversity of the world we seek to understand *Brutal Minds* Stanley K. Ridgley,2023-05-16 If you are scratching your head as to how radicals could have seized control in Washington and of American media while defaming American democracy as a white supremacist nightmare look no further than the left s transformation of American universities into ideological boot camps for Marxist treachery *Brutal Minds* is a model of clarity and straight talk about this national tragedy whose destructive energies have yet to run their course DAVID HOROWITZ Bestselling Author of *Final Battle* Much of university life is controlled by subsidized paranoiacs amateur psychotherapists neo Marxist totalitarians student affairs professionals imbued with authoritarian mentality and racist thought reformers who run workshops that destroy family ties and traditional beliefs to clear the way for new relationships grounded in racist ideology These are the brutal minds who threaten and abuse students in the name of an academic fraud called antiracist pedagogy In *Brutal Minds* award winning professor Stanley K Ridgley exposes the dangers of radicalization cancel culture academic censorship and the growing influence of socialists boldly transforming colleges across the country into reeducation camps of dull conformity An educational charade masks activities and ideology as dangerous as those that inspired Communist China s tragic Cultural Revolution This book strips away the fa ade of the modern American university to reveal the malignant bureaucratic viscera inside the institution It is a dark world an anti

intellectualist sanctuary where brutal minds find purpose protection camaraderie subsidy and power Dr Ridgley s book calls us to action to halt this anti intellectual takeover of higher education and to restore the greatness of one of Western civilization s most brilliant creations the American University A tale of how one of history s great institutions the American university is undergoing an infiltration by an army of mediocrities whose goal is to destroy it as an institution of knowledge creation and replace it with an authoritarian organ of ideology and propaganda From the Preface to Brutal Minds

Ideologies in Education Lilia I. Bartolomé,2008 Exposes the invisible yet pervasive nature of oppressive dominant ideologies the urgent need to articulate their existence and the harmful impact they have on education The solutions to many of the educational challenges facing subordinated students are not purely technical or methodological in nature but are instead rooted in commonly unacknowledged discriminatory ideologies and practices The invisible foundation hegemonic ideologies that inform our perceptions and treatment of subordinated students needs to be made explicit and studied critically in order to comprehend the challenges presented in minority education and possible solutions more accurately Confronts the continuing existence and vigorous resurgence of not easily named discriminatory perspectives toward students from subordinated cultural groups as well as their numerous manifestations in schools and identifies the measures necessary to neutralize unequal material conditions and biased beliefs From publisher description
