Responsive Evaluation Jennifer C. Greene, Tineke A. Abma, 2002-01-21 With his 1973 address titled Program Evaluation Particularly Responsive Evaluation Robert Stake offered a new vision and rationale for educational and social program evaluation In this vision evaluation was reframed from the application of sophisticated analytic techniques that address distant policymakers questions of program benefits and effectiveness on the average to an engagement with on site practitioners about the quality and meaning of their practice These innovative ideas helped accelerate a transformation of the evaluation enterprise into its current pluralistic character within which remain multiple and varied legacies of key responsive evaluation principles This volume offers some of those legacies representing central epistemological artistic and political dimensions of Stake s original commitment to responsiveness This is the 92nd issue of the Jossey Bass series New Directions for Evaluation

Evaluation for a Caring Society Merel Visse, Tineke A. Abma, 2018-02-01 This book highlights views on responsive participatory and democratic approaches to evaluation from an ethos of care It critically scrutinizes and discusses the invisibility of care in our contemporary Western societies and evaluation practices that aim to measure practices by external standards Alternatively the book proposes several foci for evaluators who work from a care perspective or wish to encourage a caring society This is a society that sees evaluation and care as a continuously unfolding relational practice of moral political learning contributing to life sustaining webs At one level is the evaluator's immediately responsive and interpersonal encounter with the personal troubles of social actors most visible as Mills originally pointed out in an individual's biography and in those social settings directly open to the individual's lived experience At another level the sociological and political level the evaluator operates at what Mills called the arena of public issues where immediate personal troubles are seen not only as problems encountered by individuals but as the result of structural and political arrangements in society evaluation for a caring society is thought to operate at both levels Thomas A Schwandt Professor Emeritus University of Illinois at Urbana Champaign The intricate

relationship between evaluation and care is hardly addressed by evaluators or caregivers This book fills a gap as it focuses on the relationship between evaluation and care and provides a multitude of examples of evaluation as a caring practice the book can serve as an antidote to the present day haste in social practices and contribute in form and content to developing an evaluation practice which may foster a caring society Guy Widdershoven Professor of Philosophy and Ethics of Medicine and head of the Department of Medical Humanities at VU University Medical Center VU University Amsterdam

instructors who hope to receive aid are required to provide data on their classroom programs Due to the lack of reliable valid large scale assessments of student achievement in music however music educators in schools that accept funds face a considerable challenge in finding a way to measure student learning in their classrooms From Australia to Taiwan to the Netherlands music teachers experience similar struggles in the quest for a definitive assessment resource that can be used by both music educators and researchers In this two volume Handbook contributors from across the globe come together to provide an authority on the assessment measurement and evaluation of student learning in music The Handbook s first volume emphasizes international and theoretical perspectives on music education assessment in the major world regions This volume also looks at technical aspects of measurement in music and outlines situations where theoretical foundations can be applied to the development of tests in music The Handbook s second volume offers a series of practical and US focused approaches to music education assessment Chapters address assessment in different types of US classrooms how to assess specific skills or requirements and how assessment can be used in tertiary and music teacher education classrooms Together both volumes of The Oxford Handbook of Assessment in Music Education pave the way forward for music educators and researchers in the field

Disrupting Program Evaluation and Mixed Methods Research for a More Just Society Jori N. Hall, Ayesha Boyce, Rodney Hopson, 2023-01-01 While women have influenced the fields of program evaluation and mixed methods research their contributions are rarely acknowledged In this edited volume we recognize the contributions Jennifer C Greene made to evaluation and mixed methods focusing on how she disrupted traditional ways methods are conceptualized and implemented We aim to provide a range of perspectives on how Greene disrupted social science theory methodology and training through her commitment to the values of democracy diversity and dialogue Accordingly the volume makes explicit how Greene democratized social science inquiry and training by emphasizing inclusive culturally responsive and educative theories methods and pedagogical practices Second it clarifies how her commitment to diversity supported scholars from diverse disciplinary backgrounds and cultures within and beyond the United States and validated often ignored perspectives on phenomena or experiences And third it showcases how her commitment to dialogue opened spaces for non traditional methodological approaches that engage communicate and disseminate program evaluation and mixed methods work Taken together the first hand accounts presented in this volume offer a historical perspective and practical guidance on program evaluation and mixed methods conceptualization implementation and training Endorsements The theme of disruption in this book is a powerful look at the breadth and significance of Jennifer C Greene s distinguished contributions both theoretical and practical in evaluation for over 30 years In essence these chapters reveal the sustaining power of her scholarship and influence today and likely in years to come Her recognition that no single method can solve the complex problems faced in evaluation is revealed in the ontological epistemological and methodological work she developed on mixed methods which led to a genre of study that recast the debate about the hegemony of quantitative over qualitative methods and vice versa She

has foregrounded values the quintessential character of evaluation by recognizing the multiplicity of perspectives that guide our theories roles questions designs and perceptions of quality Jennifer Greene s generativity is exemplified in her egalitarian dialogic stance inclusion of voices and context and commitment to equity The chapters reflect the impact of her work on scholars who continue to advance evaluation for a more just society Valerie J Caracelli U S Government Accountability Office It is not possible to convey in a few words my strongest endorsement for this volume that begins scratching the surface of Jennifer C Greene s many contributions to evaluation theory methods and practice I have worked with and learned from her on many occasions over the years as I grappled with refining my understanding and practice of culturally responsive evaluation I commend the editors and authors for this first substantive collection providing a more in depth understanding and appreciation of Jennifer Greene s body of work for some while providing others the opportunity to revisit the lessons we have learned from her work spirit and commitment to make a difference Stafford Hood Center for Culturally Responsive Evaluation Assessment CREA and Professor Emeritus University of Illinois at Urbana Champaign
