A Restorative Justice Reader Gerry Johnstone, 2003 A fine book Cogently argued and nuanced a serious contribution to thinking on restorative justice John Braithwaite One of the most important developments in crime and its control over recent years has been the emergence of a dynamic campaign promoting restorative justice as an alternative to standard ways of responding to crime i e legal prosecution and state punishment Accompanying this has been a rapidly growing literature on the subject from the UK North America Australasia and elsewhere The main aim of this book is to bring together a selection of extracts from the most important and influential contributions to the restorative justice literature and its emergent philosophy accompanying these with an informative commentary providing context and explanation where necessary The book includes by both well known proponents of restorative justice work by some of the key critics of the restorative justice movement along with work from a number of writers not directly involved in either advocacy or critique of restorative justice but whose work is crucial to an understanding of it The book is organised into five main sections the concept of restorative justice historical anthropological and theological roots of restorative justice the goals restoring victims and offenders and preventing crime the restorative process critical perspectives The book provides a unique sourcebook bringing together writings from a wide range of often inaccessible sources essential reading both for students taking courses in criminal justice restorative justice as well as practitioners involved in the administration of criminal justice who need an understanding of what restorative justice is about and how it has developed

Migration in the Age of Genocide Alastair Davidson, 2015-08-26 This book presents a novel proposal for establishing justice and social harmony in the aftermath of genocide It argues that justice should be determined by the victims of genocide rather than a detached legal system since

such a form of justice is more consistent with a socially grounded ethics with a democracy that privileges citizen decision making and with human rights The book covers the Holocaust genocides in Argentina South Africa Rwanda Latin America and Australia as well as crimes against humanity in Italy and France From show trials to state enforced forgiveness the book examines various methods that have been used since 1945 to punish the individuals and groups responsible for genocide and how they have ultimately failed to deliver true justice to the victims The only way to end this failure the book points out is to return justice to the victims This simple proposition however challenges the Enlightenment tradition of Western law which was built on the refusal to allow victims to determine the measure of justice That would amount according to Bacon Hegel and Kant to a revenge system and bring social chaos But as this book points out forgiveness is only something victims can give no one can demand it In order to establish a lasting peace it is necessary to re examine the philosophical and theoretical refusal to return justice to the victims The engaging argument put forth in this book can help deliver true justice and re establish international social harmony in the aftermath of genocide Genocide is ubiquitous in the modern global world It s understanding is highly relevant for the understanding of specific and perpetuating challenges in migration Genocide forces the migration of millions to avoid crimes against humanity When they flee war zones they bring their fears hates and misery with them So migration research must engage fully with the experience of genocide its human consequences and the ethical dilemmas it poses to all societies Not to do so will make it more difficult to understand and live with newcomers and to achieve some sort of harmony in host countries as well as those which are centers of genocide
