## **Restoring Word:**

The Restoring Word J. Randall Nichols, 2003-07-08 This bridge building work about the roles of pastor and preacher and how they can be effectively integrated quickly became a classic when it was first published and has never been duplicated. The author argues that while they sometimes seem to conflict these ministry functions share a common process and a common goal and can be synchronized around the image of restoration. Preserving both psychological awareness and theological integrity the preacher is invited into the pulpit with an enhanced sense of the power and influence of preaching in people's living and growing. Challenging some of the most cherished assumptions of homiletics Dr Nichols invites preachers to restored confidence in the importance of preaching in the formation of Christian community spiritual growth for hurting people and the renewal of worship as a *communitas* experience of the divine human encounter. *The Restoring Word* grows out of the author's lifetime of experience as a preacher psychotherapist and teacher. It is a deeply involving story about how the person of the preacher becomes a tool for the enactment of grace in the always mysterious process of proclaiming the Word. Therapeutically accurate pastorally sensitive and theologically challenging *The Restoring Word* walks its readers through a long neglected garden slowly and lovingly coming to life.

**Preaching Words** John S. McClure, 2007-01-01 John McClure's *Preaching Words* highlights the most important ideas in homiletics and preaching offering short explanations of these ideas what scholars of preaching are saying about them and how they can help in today's preaching. Topics range from elements of the sermon introduction body and conclusion to aspects of delivery types of preaching in different Christian traditions and theories of preaching.

**A Table Before Me** David E Ross, 2007-03 *A Table before me* The Meditating Christian reveals God as the Living God who has spoken to His people definitively through Jesus Christ and who continues to speak daily through His Word. God prepares a table before us each day where He sits with us and feeds us His Word. The secret of meditation is that we do not have to force our entry into God's Word. God delights to speak to all who will listen. He only requires that we listen by opening ourselves to Him as He speaks by focusing on the words that we read and by allowing His Spirit to plant those words in our innermost being just as a farmer plants seeds in the springtime. The result will be a transformed prayer life deeper communion with God and a new joy in participating in God's redeeming work throughout the world. The Korean edition of this book is a best seller in Korea and translation has begun on the Chinese edition. David and Ellen Ross are Presbyterians who have served as missionaries to the Korean people for over forty five years. Co founders of Youth With A Mission Korea and The Antioch Institute for International Ministries their present ministry includes teaching and writing providing pastoral care for long term cross cultural missionaries and ministry to North Korea. David is the author of two books on North Korea as well as numerous Bible study manuals.

*Scene of the Cybercrime* Debra Littlejohn Shinder, Michael Cross, 2008-07-21 When it comes to computer crimes the criminals got a big head start. But the law

enforcement and IT security communities are now working diligently to develop the knowledge skills and tools to successfully investigate and prosecute Cybercrime cases When the first edition of Scene of the Cybercrime published in 2002 it was one of the first books that educated IT security professionals and law enforcement how to fight Cybercrime Over the past 5 years a great deal has changed in how computer crimes are perpetrated and subsequently investigated Also the IT security and law enforcement communities have dramatically improved their ability to deal with Cybercrime largely as a result of increased spending and training According to the 2006 Computer Security Institute s and FBI s joint Cybercrime report 52% of companies reported unauthorized use of computer systems in the prior 12 months Each of these incidents is a Cybercrime requiring a certain level of investigation and remediation And in many cases an investigation is mandated by federal compliance regulations such as Sarbanes Oxley HIPAA or the Payment Card Industry PCI Data Security Standard Scene of the Cybercrime Second Edition is a completely revised and updated book which covers all of the technological legal and regulatory changes which have occurred since the first edition The book is written for dual audience IT security professionals and members of law enforcement It gives the technical experts a little peek into the law enforcement world a highly structured environment where the letter of the law is paramount and procedures must be followed closely lest an investigation be contaminated and all the evidence collected rendered useless It also provides law enforcement officers with an idea of some of the technical aspects of how cyber crimes are committed and how technology can be used to track down and build a case against the criminals who commit them Scene of the Cybercrime Second Edition provides a roadmap that those on both sides of the table can use to navigate the legal and technical landscape to understand prevent detect and successfully prosecute the criminal behavior that is as much a threat to the online community as traditional crime is to the neighborhoods in which we live Also included is an all new chapter on Worldwide Forensics Acts and Laws Companion Web site provides custom tools and scripts which readers can download for conducting digital forensic investigations Special chapters outline how Cybercrime investigations must be reported and investigated by corporate IT staff to meet federal mandates from Sarbanes Oxley and the Payment Card Industry PCI Data Security Standard Details forensic investigative techniques for the most common operating systems Windows Linux and UNIX as well as cutting edge devices including iPods Blackberries and cell phones

**Divine Therapiea and the Sermon** Neil Pembroke, 2013-09-19 Therapeutic preaching is badly in need of rehabilitation Administering mini doses of psychological self help from the pulpit simply will not do Therapeutic preaching that is theocentric draws listeners more deeply into God s healing love It involves setting up a creative conversation between divine and human therapy In a novel and deeply insightful way Neil Pembroke shows how metaphors and analogues drawn from psychotherapy can be employed to draw out the power in divine terapiea
