## **Restructuring Territoriality Europe And The United States Compared:**

**Restructuring Territoriality** Christopher K. Ansell, Giuseppe Di Palma, 2004-07-12 The bundling of political authority into mutually exclusive territorial boundaries territoriality is a fundamental principle of modern political organization Indeed it provides the foundation for other cherished institutions national sovereignty citizenship the modern welfare state and democracy Are globalization internationalization and Europeanization conspiring to unbundle territoriality If so are sovereignty citizenship the welfare state and democracy unravelling as well Is a new post national non territorial form of political organization heralded by the European Union being born With a focus on Europe this volume explores these issues from various substantive and theoretical perspectives The authors find evidence of the diffusion of authority both within and beyond the state producing novel institutional arrangements and new modes of governance But the United States may provide more useful insights into the new dispensation than the idea of a post national non territorial politics Interest in contemporary challenges to democracy run throughout this volume

**Comparative Federalism** Anand Menon, Martin Schain, 2006-11-16 Comparative federalism is an important topic with scholarly work comparing the US EU proliferating rapidly This volume seeks to build on contribute to this literature by developing a systematic comparison of the institutions policies developmental patterns of the European Union the United States

State Territoriality and European Integration Michael Burgess, Hans Vollaard, 2006 The European nation state is now placed between the interconnected processes of globalization and European integration This new book examines these evolving relationships showing how the conventional territorial basis of the state is being reappraised Bringing together leading thinkers on the nation state this volume tackles key questions about how we should conceptualize and discuss the political significance of territory in today's world For example does the era of Europeanization and globalization herald the end of citizens traditional attachment to their national territories Do our conceptions of the state no longer correspond to contemporary political realities These questions are approached from a range of positions that illuminate the debates now taking place across the world This book delivers a clear set of key concepts indicators and theoretical notions to carry out a historically and empirically grounded examination Drawing upon case studies from across Europe the lessons and conclusions detailed have a fascinating international scope and can be applied to our understanding of globalization which is intimately connected with European integration This is an invaluable book for all students of European integration political science and international relations

**Europe, Like America** Josep M. Colomer, 2010 *Rethinking European Spatial Policy as a Hologram* Valeria Fedeli, 2017-03-02 Bringing together case studies from several European countries this book provides an in depth examination of the evolution of European spatial policy Contributors focus on changes to the design and implementation of European policies at both national and local levels and examine institutional change particularly Europeanization European governance and EU enlargement Rhetorical discursive and representational dimensions are also interlinked to explore synergies and conflicts

The volume offers an experimentation of new interpretative approaches to spatial planning which will prove essential to the international debate      *Compound Democracies* Sergio Fabbrini, 2010-08-19 This is a major new comparison of the American and European political systems By deploying a powerful new model to analyse the two systems it draws some challenging conclusions about their increasing similarity Professor Fabbrini argues that the process of regional integration in Europe over the last 60 years has significantly reduced the historical differences between the democracies on either side of the Atlantic The EU and the US are now similar because they represent two different species of the same political genus the compound democracy The defining feature of compound democracy is the union of states and their citizens Through such union the states agree to pool their sovereignty within a larger integrated supra state or supranational framework They do so because these unions are primarily pacts for avoiding war Because the states which made those unions were and continue to be asymmetrically correlated any attempt to create a unified polity that is a political system where the decision making power is monopolized by only one institution is likely to fail He goes on to argue that the US and the EU are based on a multiple diffusion of powers which guarantees that any interest can have a voice in the decision making process and no majority will be able to control all the institutional levels of the polity This type of system allows an inter states organization to operate as a supra state polity but it does so at the expense of decision making capacity and accountability

**Europeanization** P. Graziano, M. Vink, 2006-11-28 This cutting edge handbook written by foremost authoritative scholars presents the main theoretical and empirical issues involved in current Europeanization research It evaluates the achievements and shortcomings of the growing literature As an advanced reference book it also sets the parameters for Europeanization research in the coming years      **A 'Macro-regional' Europe in the Making** Stefan Gänzle, Kristine Kern, 2015-10-19 Macro regional strategies seek to improve the interplay of the EU with existing regimes and institutions and foster coherence of transnational policies Drawing on macro regional governance and Europeanization this edited volume provides an overview of processes of macro regionalization in Europe displaying evidence of their significant impact

**Comparative Federalism** Thomas O. Hueglin, Alan Fenna, 2015-01-01 *Comparative Federalism A Systematic Inquiry* Second Edition is a uniquely comprehensive analytic and genuinely comparative introduction to the principles and practices as well as the institutional compromises of federalism Hueglin and Fenna draw from their diverse research on federal systems to focus on four main models America Canada Germany and the European Union but also to range widely over other cases At the heart of the book is careful analysis of the relationship between constitutional design and amendment fiscal relations institutional structures intergovernmental relations and judicial review Such analysis serves the dual role of helping the reader understand federalism and providing a comparative framework from which to assess the record of federal systems The second edition has been extensively revised and updated taking into account new developments in federal systems and incorporating insights from the growing body of literature in the field It includes two new chapters Fiscal Federalism and The

Limits of Federalism      Geopolitics and International Relations ,2021-12-13 Although we live in a globalised world territorially embedded factors are highly relevant in such domains as security economy energy environment politics diplomacy Today s analysts of world affairs are often loosely referring to geopolitics but do not always clearly define it This book therefore offers a necessary framework an introduction into the main components of geopolitical analysis an overview of the main geopolitical schools of thought as well as reflections on how technology and geopolitics affect each other in economy energy and security In addition several empirical studies are showcased each developing innovative approaches Leading authors reflect upon containment analyse geopolitical myths research geoeconomic rivalries study mental maps analyse conflict through territorially embedded variables greed motivations and apply neo medievalism to study sub state diplomacy Contributors include David Crikemans Gyula Csurgai Luis da Vinha Manuel Duran Alexandre Lambert Antonios Nestoras and Steven Spittaels      **Power and the State** Martin J. Smith,2009-08-14 In this important new text Martin Smith reassesses traditional debates about power and how they understand the nature and impact of the state He develops an analysis of the new forms of state power that have developed in response to the perceived challenges of globalization and governance      **Does the Constitution Follow the Flag?** Kal Raustiala,2011 The Bush Administration has notoriously argued that detainees at Guantanamo do not enjoy constitutional rights because they are held outside American borders But where do rules about territorial legal limits such as this one come from Why does geography make a difference for what legal rules apply Most people intuitively understand that location affects constitutional rights but the legal and political basis for territorial jurisdiction is poorly understood In this novel and accessible treatment of territoriality in American law and foreign policy Kal Raustiala begins by tracing the history of the subject from its origins in post revolutionary America to the Indian wars and overseas imperialism of the 19th century He then takes the reader through the Cold War and the globalization era before closing with a powerful explanation of America s attempt to increase its extraterritorial power in the post 9 11 world As American power has grown our understanding of extraterritorial legal rights has expanded too and Raustiala illuminates why America s assumptions about sovereignty and territory have changed Throughout he focuses on how the legal limits of territorial sovereignty have diminished to accommodate the expanding American empire and addresses how such limits ought R to look in the wake of Iraq Afghanistan and the war on terror A timely and engaging narrative Does the Constitution Follow the Flag will change how we think about American territory American law and ultimately the changing nature of American power      **Devolution and social citizenship in the UK** Greer, Scott L.,2009-01-21 Most of the expansive literature on social citizenship follows its leading thinker T H Marshall and talks only about the British state often referring only to England But social citizenship rights require taxation spending effective public services and politics committed to them They can only be as strong as politics makes them That means that the distinctive territorial politics of the UK are reshaping citizenship rights as they reshape policies obligations and finance across the UK This timely book explores how

changing territorial politics are impacting on social citizenship rights across the UK The contributors contend that whilst territorial politics have always been major influences in the meaning and scope of social citizenship rights devolved politics are now increasingly producing different social citizenship rights in different parts of the UK Moreover they are doing it in ways that few scholars or policymakers expect or can trace Drawing on extensive research over the last 10 years the book brings together leading scholars of devolution and citizenship to chart the connection between the politics of devolution and the meaning of social citizenship in the UK The first part of the book connects the large and largely distinct literatures on citizenship devolution and the welfare state The empirical second part identifies the different issues that will shape the future territorial politics of citizenship in the UK intergovernmental relations and finance policy divergence bureaucratic politics public opinion and the European Union It will be welcomed by academics and students in social policy public policy citizenship studies politics and political science

**European societies** Steffen Mau,Roland Verwiebe,2010-10-08 This comprehensive textbook provides a thorough analysis of the nature of European societies across the expanded EU member states Using a wealth of data the authors compare the different dimensions of the territorial and social order of Europe and address a range of issues relating to Europeanisation and key topics such as inequality migration poverty population and family the labour market and education Presented in a student friendly way this book also helps unravel people s attitudes towards Europe European integration and citizens of other European countries It will be an essential read for under and post graduate students and academics of sociology European studies social stratification social policy and political sciences

**Fiscal Unions** Tomasz P. Woźniakowski,2022-10-03 By building on a recent research comparing the EU and US and drawing on Riker s influential theory of federalism this books explores the origins of fiscal unions It investigates early American history and traces its constitutional debates to argue that an internal threat such as sovereign debt crisis leading to social unrest threatening the Union triggers emergence of federal taxing powers i e a federal fiscal union It then contrasts the American experience of fiscal integration with the European one and subsequently concludes with the insights for the EU It is a first monograph to compare the American and European models of fiscal integration making two original contributions to the theoretical and empirical literature In reference to the former it introduces the concept of fiscalization which defines the emergence of a fiscal union with federal tax powers Concerning the latter by analysing the Confederation period of the US and applying Riker s theory using mainly unexplored primary sources such as the protocols from state ratification conventions of 1787-88 this book adds to the US EU comparative federalism literature It shows that paradoxically by not agreeing to give the EU fiscal capacity so that they could protect their fiscal sovereignty member states gave up more of this very fiscal sovereignty to the central institutions than states in classical federations This research allows the reader to learn about the similarities and the differences between the pre Constitution US and the modern EU with regards to their fiscal arrangements a comparison of the arguments that were used while debating those arrangements and finally the conditions

under which central level of government in the systems of multi level government is likely to get a power to tax

**Mediterranean Paradiplomacies** Manuel Duran, 2015-03-10 In *Mediterranean Paradiplomacies The Dynamics of Diplomatic Reterritorialization* Manuel Duran presents a new view on the phenomenon of paradiplomacy by analyzing the diplomatic activities of a number of Mediterranean substate entities as a site of political territorialization The international agency of these substate entities is giving way to new patterns of territorialization as well as alternative forms of diplomacy Duran examines the diplomatic activities of two Spanish two French and two Italian regions The book poses the question of why and how these regions operate diplomatically in a given territorial milieu and convincingly elucidates the particular patterns of reterritorialization that result from these diplomatic activities

**New Challenges for Stateless Nationalist and Regionalist Parties** Eve Hepburn, 2013-10-18 Throughout Europe stateless nationalist and regionalist parties have moved from niche actors in party systems to mainstream political players No longer the outsider in party politics these parties have successfully entered government at the regional and state levels and many have been responsible for pushing the agenda for radical constitutional change in the United Kingdom Spain Italy Belgium Germany and France However the transformation of these parties from peripheral movements to established parties of government does not come without its problems Whilst these parties were once able to focus on the single issue of self determination they have been forced to change their strategies alter their behaviour and compromise on their principles in order to succeed in an era of electoral volatility partisan dealignment and multi level governance This book explores how stateless nationalist and regionalist parties across Western Europe have responded to the twin challenges of multi level politics i e operating at the regional state and European levels and a multi dimensional policy space whereby they must articulate policy proposals alongside their territorial demands Written by leading experts in the field this is a cutting edge collection of theoretical analytical and empirical work on the challenges currently facing nationalist and regionalist parties in Europe This book was previously published as a special issue of *Regional and Federal Studies*

**Reconceptualizing Sovereignty in the Post-National State: Statehood Attributes in the International Order** Flavio G. I. Inocencio, 2014-08-18 This book offers a multidisciplinary approach to the study of the concept of sovereignty This book outlines the origins context and evolution of the concept of sovereignty as an essential attribute of the modern territorial State since the Peace of Westphalia in 1648 The book identifies two competing traditions of the concept of sovereignty the tradition inaugurated by Jean Bodin in 1576 in his work *The Six Books of the Commonwealth* and another that started with Johannes Althusius in 1603 considered the father of federal theory in his less known work *Politica* In order to understand the concept of sovereignty it is necessary to understand the constitutional rules of each international system and the fact that the States are the primary polities in the international arena The rise of International Organizations and the increasing institutionalization of the international system challenges this state centric world considering their exercise of sovereign powers Following authors such as Daniel Elazar the book

discusses the importance of federalism as political theory which offers a different understanding of the concept of sovereignty The book discusses the European Union as a paradigmatic case of a postmodern confederation which challenges the notion of sovereignty as an absolute and exclusive statehood attribute Furthermore the reconceptualization of sovereignty in International Law should consider the rise of regional and functional legal orders the different understandings of sovereignty offered by the federalist tradition and the processes of deterritorialization and disaggregation of authority The book concludes with the idea that concept of sovereignty in International Law should be seen as a flexible concept which is not an exclusive attribute of the modern territorial state This book is required reading for all interested in the history and the evolution of the concept of sovereignty

### **The Party Politics of Territorial Reforms in Europe** Emanuele

Masseti,Simon Toubeau,2020-07-24 The book analyses how political parties compete and strategise on the issue of territorial reform using case studies that include countries from both Western Belgium Germany Italy and Spain and Central Eastern Europe Poland Slovakia and Romania Each case study considers different drivers of decentralization such as territorial identities and the demands of regionalist parties for territorial autonomy or independence efficiency concerns related to issues of uneven economic development and economic competitiveness the pressure from supra national organizations especially the EU as well as different combinations of these drivers They also consider how the ideology and organisation of state wide parties and the institutional context in which they compete shape their responses to these drivers and their strategy towards the question of territorial reform This collection investigates the logic of the actions that guide political parties strategy to highlight trends that are apparent across the case studies This book was originally published as a special issue of West European Politics

### **The Oxford Handbook of Political Institutions** R. A. W. Rhodes,Sarah A.

Binder,Bert A. Rockman,2008-06-12 The study of political institutions is among the founding pillars of political science With the rise of the new institutionalism the study of institutions has returned to its place in the sun This volume provides a comprehensive survey of where we are in the study of political institutions covering both the traditional concerns of political science with constitutions federalism and bureaucracy and more recent interest in theory and the constructed nature of institutions The Oxford Handbook of Political Institutions draws together a galaxy of distinguished contributors drawn from leading universities across the world Authoritative reviews of the literature and assessments of future research directions will help to set the research agenda for the next decade

## Embracing the Beat of Phrase: An Mental Symphony within **Restructuring Territoriality Europe And The United States Compared**

In a global consumed by screens and the ceaseless chatter of fast transmission, the melodic beauty and mental symphony produced by the published word frequently disappear into the backdrop, eclipsed by the constant noise and distractions that permeate our lives. However, nestled within the pages of **Restructuring Territoriality Europe And The United States Compared** a wonderful fictional prize filled with raw emotions, lies an immersive symphony waiting to be embraced. Constructed by an elegant composer of language, this charming masterpiece conducts readers on a psychological journey, skillfully unraveling the hidden melodies and profound affect resonating within each carefully constructed phrase. Within the depths of this touching examination, we shall examine the book is central harmonies, analyze their enthralling publishing model, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.

### **Restructuring Territoriality Europe And The United States Compared Introduction**

In today's digital age, the availability of Restructuring Territoriality Europe And The United States Compared books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Restructuring Territoriality Europe And The United States Compared books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Restructuring Territoriality Europe And The United States Compared books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Restructuring Territoriality Europe And The United States Compared versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Restructuring Territoriality Europe And The United States Compared books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Restructuring Territoriality Europe And The United States Compared books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000

free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Restructuring Territoriality Europe And The United States Compared books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Restructuring Territoriality Europe And The United States Compared books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Restructuring Territoriality Europe And The United States Compared books and manuals for download and embark on your journey of knowledge?

## **FAQs About Restructuring Territoriality Europe And The United States Compared Books**

1. Where can I buy Restructuring Territoriality Europe And The United States Compared books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Restructuring Territoriality Europe And The United States Compared book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs,

- or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Restructuring Territoriality Europe And The United States Compared books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
  5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
  6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
  7. What are Restructuring Territoriality Europe And The United States Compared audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
  8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
  9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
  10. Can I read Restructuring Territoriality Europe And The United States Compared books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
