War Department, 2023-10-05 The Manual for Noncommissioned Officers and Privates of Cavalry of the Army of the United States 1917 is a comprehensive guidebook providing essential information and instructions for cavalry soldiers during World War I Written in a concise and authoritative style the manual covers various topics including military tactics weapons handling horse care and battlefield strategies This book serves as a vital resource for understanding the role and responsibilities of cavalry troops in the context of early 20th century warfare It exemplifies the high level of training and professionalism expected from soldiers during that time period The detailed illustrations and diagrams further enhance the reader s understanding of the subject matter As the author the United States War Department was tasked with creating this manual to standardize training and ensure the effectiveness of cavalry units in combat The experience and expertise of military officials and officers were instrumental in compiling this valuable resource for soldiers The dedication to providing thorough

and meticulous guidance reflects the commitment to excellence within the United States Army I highly recommend the Manual for Noncommissioned Officers and Privates of Cavalry of the Army of the United States 1917 to readers interested in military history specifically the role of cavalry units during World War I It offers a unique glimpse into the training and tactics employed by American soldiers during this pivotal period in history *Directives, Publications and Reports Index*

United States. Coast Guard,1973-07 **Archaeologies of the Heart** Kisha Supernant,Jane Eva Baxter,Natasha Lyons,Sonya Atalay,2020-02-13 Archaeological practice is currently shifting in response to feminist indigenous activist community based and anarchic critiques of how archaeology is practiced and how science is used to interpret the past lives of people Inspired by the calls for a different way of doing archaeology this volume presents a case here for a heart centered archaeological practice Heart centered practice emerged in care based disciplines such as nursing and various forms of therapy as a way to recognize the importance of caring for those on whom we work and as an avenue to explore how our interactions with others impacts our own emotions and heart Archaeologists are disciplined to separate mind and heart a division which harkens back to the origins of western thought The dualism between the mental and the physical is fundamental to the concept that humans can objectively study the world without being immersed in it Scientific approaches to understanding the world assume there is an objective world to be studied and that humans must remove themselves from that world in order to find the truth An archaeology of the heart rejects this dualism rather we see mind body heart and spirit as inextricable An archaeology of the heart provides a new space for thinking through an integrated responsible and grounded archaeology where there is care for the living and the dead acknowledges the need to build responsible relationships with communities and with the archaeological record and emphasize the role of rigor in how work and research is conducted The contributions bring together archaeological practitioners from across the globe in different contexts to explore how heart centered practice can impact archaeological theory methodology and research throughout the discipline
