Rethinking Goodness:

Rethinking Goodness Michael A. Wallach, Lise Wallach, 1990-07-05 Arguing that a psychological basis for ethics can be found in human motivation Rethinking Goodness proposes a naturalistic ethics that transcends the conflict between liberalism and authoritarianism the conflict between freedom at the price of narcissism and morality at the price of coercion The authors offer a third option an ethic broader than liberalism s pursuit of the personal that avoids jeopardizing as do authoritarian positions the centrality of individual autonomy

Reasons and the Good Roger Crisp, 2006-08-24 This work offers answers to some of the questions in moral philosophy including What reasons do we have for acting in one way or another Are there moral reasons What are reasons anyway How can we know about them What makes for a good human life How should we weigh the well being of others against our own

Human Dignity in Contemporary Ethics David G. Kirchhoffer, 2013 Human Dignity in Contemporary Ethics develops a holistic and relevant understanding of human dignity for ethics today Whilst critics of the concept of human dignity call for its dismissal and many of its defenders rehearse the same old arguments this book offers an alternative set of methodological assumptions on which to base a revitalized and practical understanding of human dignity which at the same time overcomes the challenges that the concept currently faces The Component Dimensions of Human Dignity model enables human dignity to serve both as a descriptive category that explains moral choices and as a normative criterion that helps to evaluate moral behaviour A consideration of two cases violent crime and physician assisted suicide

demonstrates how the model offers a way to avoid the pitfalls of both moralism and moral relativism while still leaving space for relativity in ethics By using an approach that should be acceptable to both religious and secular perspectives alike this book offers a unique way out of the dignity talk that currently plagues ethics **Healing Souls** Eric G. Swedin,2022-08-15

In this first history of psychotherapy among the Latter day Saints Eric G Swedin describes how modern psychology has affected the healing of souls in the LDS community But he also shows how this community melded its theological doctrines with mainstream psychiatry when secular concepts clashed with fundamental tenets of Mormonism The psychological professions pervasive in twentieth century American society were viewed as dangerous by some religious communities Healing Souls describes the LDS community s mixed feelings about science and modernity while valuing knowledge Mormons feared a challenge to faith Nonetheless psychology courses were introduced at Brigham Young University and LDS psychotherapists began to introduce new ideas and practices to the community Swedin portrays the rise of professional organizations such as the Association of Mormon Counselors and Psychotherapists as well as the importance of Allen E Bergin first director of the BYU Institute for Studies in Values and Human Behavior Bergin and others paved the way for the LDS adoption of professional psychotherapy as an essential element of their cure of souls Important chapters take up LDS psychopathology feminist dissent LDS philosophies of sexuality and the LDS rejection of mainstream psychotherapy s selfist psychology on the basis of theological doctrines of family salvation eternalism and the natural man Healing Souls contributes to a more complete historical picture of the mental health professions in North America and a better understanding of how religious traditions and psychology have influenced each other **The Quality of Life** Richard Kraut,2018-08-22

The Quality of Life Aristotle Revised presents a philosophical theory about the constituents of human well being The principal idea is that what Aristotle calls external goods wealth reputation power have at most an indirect bearing on the quality of our lives Starting with Aristotle s thoughts about this topic Kraut increasingly modifies and occasionally rejects that stance He argues that the way in which we experience the world is what well being consists in A good internal life comprises in part pleasure but far more valuable is the quality of our emotional intellectual social and perceptual experiences These offer the potential for a richer and deeper quality of life than that which is available to many other animals A good human life is immeasurably better than that of a simple creature that feels only the pleasures of nourishment even if it felt pleasure for millions of years human life would be superior In opposition to contemporary discussions of well being which often appeal to a thought experiment devised by Robert Nozick Kraut concludes that the quality of our lives consists entirely in the quality of our experiences While others hold that we must live in the real world to live well and that one s interior life has little or no value on its own Kraut s interpretation of this thought experiment supports the opposite conclusion *The Middle Voice of Ecological Conscience* John Llewelyn,1991-10-13 *Reconstructing the Common Good in Education* Larry Cuban,Dorothy Shapps,2000 What constitutes the common good in American public education This volume explores the ongoing debate
