Rethinking Aids Prevention Learning From Successes In Developing Countries:

Rethinking AIDS Prevention Edward C. Green, 2003-11-30 This is not another book about how AIDS is out of control in Africa and Third World nations or one complaining about the inadequacy of secured funds to fight the pandemic The author looks objectively at countries that have succeeded in reducing HIV infection rates along with a worrisome flip side to the progress The largely medical solutions funded by major donors have had little impact in Africa the continent hardest hit by AIDS Instead relatively simple low cost behavioral change programs stressing increased monogamy and delayed sexual activity for young people have made the greatest headway in fighting or preventing the disease s spread Ugandans pioneered these simple sustainable interventions and achieved significant results As National Review journalist Rod Dreher put it Rather than pay for clinics gadgets and medical procedures especially in the important earlier years of its response to the epidemic Uganda mobilized human resources In a New York Times interview Green cited evidence that partner reduction promoted as mutual faithfulness is the single most effective way of reducing the spread of AIDS That deceptively simple solution is not merely about medical advances or condom use It is about the ABC model Abstain Be faithful and use Condoms if A and B are impossible Yet deeply rooted Western biases have obstructed the effectiveness of AIDS prevention Many Western scientists have attacked the ABC approach as impossible and moralistic Some Western activists and HIV carriers have been outraged thinking the approach passes moral judgment on their behaviors But there is also a troubling suspicion among a growing number of scientists who support the ABC model that certain opponents may simply be AIDS profiteers more interested in protecting their incomes than battling the disease This book is a bellwether in the escalating controversy offering persuasive evidence in support of the ABC approach and exposing the fallacies and motivations of its opponents

SODOM HAS BOUNCED BACK: A Response to Contemporary Challenges Faced by Young Christians Sikhumbuzo Dube, 2014-10-24 The city of Sodom had not only become the hub of variety of activities but a rendezvous for perpetrators of all forms of vice The crime and vice must have been fuelled by economic pressures among other factors Although the economy of Sodom was thriving many young people

could have been living in abject poverty Many unemployed young people killed their time by beer drinking and loitering as a result they got hooked to a number of sexual mores Beautiful young women signed up with rich businessmen who hired them out for escort services to wealthy visitors The city adult book and video stores the one night fornicatory stands and porn shops were teeming with wicked men of Sodom This book addresses current hot potatoes like homosexuality lesbianism revisionist gay theology the occult music television and its impact premarital non marital sex and materialism through looking glasses of Lot s story It focuses on a redemptive ministry approach to these issues *Biohealth* Raymond Downing,2011-09-01 The development of modern medicine is on a very steep trajectory upward a rise that began only about a hundred years ago This rise is certainly quantitative but it is accompanied by qualitative changes in the way we understand and deliver healthcare This book begins with a look at three recognized periods of medical development from 1900 until World War II from the war until about 1980 and the period since 1980 While the common response is to celebrate these developments this book suggests that perhaps we should also be wary especially of the qualitative changes Since World War II these medical developments have entered more and more areas of our lives It is precisely this process of medicalization that should be critically examined Since 1980 we have medicalized life itself Drawing from medical sociology the book examines four characteristics of contemporary Western health care health as a system risk as a means of understanding health health as a commodity and individual responsibility for health Critical examination of these four tendencies in contemporary health care forms the core of the argument of this important book about the essence of biohealth and medical practice **Igbo Mediators Of Yahweh Culture Of Life** Philip Chidi Njemanze MD,2017-11-30 This is a book about the Culture of Life of Igbo People the Chosen People of God The Igbo people were Pharaohs of Ancient Egypt Kings of Ancient Israel Phoenicians Greeks Etruscans Iberians Carthaginians Ugaritians Lemnians Mayans Olmecs Ancient Chinese Extraterrestrials in UFOs Babylonians and Jewish authors of the Holy Bible The Igbo people built the pyramids and invented electricity computer automobile airplane helicopter and submarine Igbo Orie Mediators of Almighty God The Chosen People of God YaHWeH Ya IHo W IHe meaning God the Divine Light that enlightens **Global Religious Movements Across Borders** Stephen M. Cherry,Helen Rose Ebaugh,2016-04-22 From global missionizing among proselytic faiths to mass migration through religious diasporas religion has traveled from one side of the world and back again It continues to play a prominent role in shaping world politics and has been a vital force in the continued emergence spread and creation of a transnational civil society Exploring how religious roots are shaping organizations that seek to aid people across political and geographic boundaries service movements this book focuses on how religious movements establish structures to assist people with basic human needs such as food clothing shelter education and health Examining a multitude of faith traditions with origins in different parts of the world seven contributing chapters with an introduction and conclusions by the senior author offer a unique discussion of the intersections between religious transnationalism and social movements **Poverty**

and Life Expectancy James C. Riley, 2005-07-18 A multidisciplinary study that reconstructs Jamaica's rise from low to high life expectancy and explains how that was achieved Jamaica is one of the small number of countries that has attained a life expectancy nearly matching that in richer countries despite having a much lower level of per capita income

Religious-Spiritual Diversity in Organisations Edwina Pio, Robert Kilpatrick, Peter Lineham, 2024-02-12 Challenges involved in the interplay between religion and business are incredibly complex and as such this book thoughtfully considers the critical issue of inclusion and how employers should view its importance Whilst exploring the intricacies of organised religion it investigates how mindful religious wisdom can be harmoniously applied within corporate and not for profit environments

What Anthropologists Do Veronica Strang, 2020-06-24 What is Anthropology Why should you study it What will you learn And what can you do with it What Anthropologists Do answers all these questions And more Anthropology is an astonishingly diverse and engaged subject that seeks to understand human social behaviour What Anthropologists Do presents a lively introduction to the ways in which anthropology's unique research methods and cutting edge thinking contribute to a very wide range of fields environmental issues aid and development advocacy human rights social policy the creative arts museums health education crime communications technology design marketing and business In short a training in Anthropology provides highly transferable skills of investigation and analysis The book will be ideal for any readers who want to know what Anthropology is all about and especially for students coming to the study of Anthropology for the first time

Pandemic Genres Neville Wallace Hoad, 2025 As HIV AIDS emerged as a public health crisis of significant proportions across much of sub Saharan Africa it became the subject of local and international interest prurient benevolent and interventionist Meanwhile the experience of Africans living with HIV AIDS became an object of aesthetic representation in multiple genres by Africans themselves These cultural representations engaged public discourse the public policy pronouncements of officials of postcolonial states an emerging global NGO speak and journalism In *Pandemic Genres* Neville Hoad investigates how cultural production novels poems films around the pandemic supplemented public discourse From Botswana Kenya and South Africa he shows that the long historical imaginaries of race empire and sex underwrote all attempts to bring the pandemic into public representation Attention to genres that stage themselves as imaginary particularly on the terrain of feeling may forecast possibilities for new figurations

The Devil's Milk John Andrew Tully, 2011 Capital as Marx once wrote comes into the world dripping from head to foot from every pore with blood and dirt He might well have been describing the long grim history of rubber From the early stages of primitive accumulation to the heights of the industrial revolution and beyond rubber is one of a handful of commodities that has played a crucial role in shaping the modern world and yet as John Tully shows in this remarkable book laboring people around the globe have every reason to regard it as the devil's milk All the advancements made possible by rubber industrial machinery telegraph technology medical equipment countless consumer goods have occurred against a backdrop of seemingly endless exploitation

conquest slavery and war But Tully is quick to remind us that the vast terrain of rubber production has always been a site of struggle and that the oppressed who toil closest to the devil's milk in all its forms have never accepted their immiseration without a fight This book the product of exhaustive scholarship carried out in many countries and several continents is destined to become a classic Tully tells the story of humanity's long encounter with rubber in a kaleidoscopic narrative that regards little as outside its rangewithout losing sight of the commodity in question With the skill of a master historian and the elegance of a novelist he presents what amounts to a history of the modern world told through the multiple lives of rubber

AIDS and Governance Alan Whiteside, 2016-03-23 The political impact of HIV AIDS varies greatly and is difficult to map States depend on how governments choose to manage the political implications of HIV and AIDS both those stemming from the erosions of its own capacity as well as those that originate from their changing relationship on a national and international level Across the developing world HIV AIDS is slowly killing adults in their most productive years hollowing out state structures deepening poverty and raising profound questions that touch on the organization of all aspects of social economic and political life With the epidemic showing scant signs of slowing down this innovative volume assesses how HIV AIDS affects governance and conversely how governance affects the course of the epidemic In particular the volume *The African AIDS Epidemic* John Iliffe, 2005-02-15 This history of the African AIDS epidemic is a much needed accessibly written historical account of the most serious epidemiological catastrophe of modern times The African AIDS Epidemic A History answers President Thabo Mbeki's provocative question as to why Africa has suffered this terrible epidemic While Mbeki attributed the causes to poverty and exploitation others have looked to distinctive sexual systems practiced in African cultures and communities John Iliffe stresses historical sequence He argues that Africa has had the worst epidemic because the disease was established in the general population before anyone knew the disease existed HIV evolved with extraordinary speed and complexity and because that evolution took place under the eyes of modern medical research scientists Iliffe has been able to write a history of the virus itself that is probably unique among accounts of human epidemic diseases In giving the African experience a historical shape Iliffe has written one of the most important books of our time The African experience of AIDS has taught the world much of what it knows about HIV AIDS and this fascinating book brings into focus many aspects of the epidemic in the longer context of massive demographic growth urbanization and social change in Africa during the latter half of the twentieth century The African AIDS Epidemic A History is a brilliant introduction to the many aspects of the epidemic and the distinctive character of the virus

Making Chastity Sexy Christine J. Gardner, 2011-07-28

Even though they are immersed in sex saturated society millions of teens are pledging to remain virgins until their wedding night How are evangelical Christians persuading young people to wait until marriage Christine J Gardner looks closely at the language of the chastity movement and discovers a savvy campaign that uses sex to sell abstinence Drawing from interviews with evangelical leaders and teenagers she examines the strategy to shift from a negative just say no approach to a positive

one just say yes to great sex within marriage Making Chastity Sexy sheds new light on an abstinence campaign that has successfully recast a traditionally feminist idea my body my choice into a powerful message but one that Gardner suggests may ultimately reduce evangelicalism's transformative power Focusing on the United States her study also includes a comparative dimension by examining the export of this evangelical agenda to sub Saharan Africa

Quarantine Life from Cholera to COVID-19 Kari Nixon, 2022-04-12 For readers of Mary Roach and Jared Diamond an innovative look at the histories of different epidemics and what it meant for society alongside what lessons different diseases have to teach us as society battles the novel coronavirus Throughout history there have been numerous epidemics that have threatened mankind with destruction Diseases have the ability to highlight our shared concerns across the ages affecting every social divide from national boundaries economic categories racial divisions and beyond Whether looking at smallpox HIV Ebola or COVID 19 outbreaks we see the same conversations arising as society struggles with the all encompassing question What do we do now In poignant yet relevant detail Niki Kapsambelis author of *The Inheritance* Quarantine Life from Cholera to COVID 19 demonstrates that these conversations have always involved the same questions of individual liberties versus the common good debates about rushing new and untested treatments considerations of whether quarantines are effective to begin with what to do about healthy carriers and how to keep trade circulating when society shuts down This vibrant social and medical history tracks different diseases and outlines their trajectory what they meant for society and societal questions each disease brought up along with practical takeaways we can apply to current and future pandemics so we can all be better prepared for whatever life throws our way

Medical Anthropology at the Intersections Marcia C. Inhorn, Emily A. Wentzell, 2012-07-19 This work offers productive insight into the field of medical anthropology and its future as viewed by some of the world's leading medical anthropologists

Rule Systems Theory Helena Flam, Marcus Carson, 2008 Explaining the complexity of social life remains the central challenge of the social sciences This book offers a variety of theoretical empirical explorations and applications inspired by an important neo institutional approach to tackling this complexity the rule systems theory Its point of departure is the assumption that institutions and cultural formations possess causal powers and relative autonomy constraining and enabling people's social actions and interactions Structural and cultural properties of society are carried by transmitted and reformed by human agents whose interactions generate reproduce elaborate and transform structures The contributors are highly accomplished economists sociologists and political scientists who come from the US and several European countries The book is meant as a Festschrift for Tom Burns a central figure in the development of the rule systems theory

Doomed Interventions Kim Yi Dionne, 2018 This book is for students and scholars studying political economy public policy and global health and all those who are interested in knowing how ordinary Africans think about the response to the AIDS epidemic It studies the divergent priorities of donors and citizens in response to AIDS intervention in Africa

Religion and AIDS in Africa Jenny Trinitapoli, Alexander Weinreb, 2012-08-16 The first comprehensive empirical

account of how religion affects the interpretation prevention and mitigation of AIDS in Africa the world s most religious continent
