Rethinking Peter Singer A Christian Crit:

Rethinking Peter Singer Gordon R. Preece, 2002-01-01 Who is Peter Singer What does he say about issues like abortion infanticide euthanasia and animal rights What does he say about Christianity What exactly is his philosophy Peter Singer is probably the world's most famous or infamous contemporary philosopher says Gordon Preece Recently appointed as professor of bioethics at Princeton University's Center for Human Values Singer is best known for his book on animal rights *Animal Liberation* and for his philosophical text *Practical Ethics* But underneath his seemingly benign agenda lies perhaps the most radical challenge to Christian ethics proposed in recent times In *Rethinking Peter Singer* four of Singer's contemporaries fellow Australian scholars Gordon Preece Graham Cole Lindsay Wilson and Andrew Sloane grapple with Singer's views respectfully but incisively From a straightforwardly Christian perspective they critique Singer's thought in four major areas abortion and infanticide euthanasia animal rights and Christianity *Rethinking Peter Singer* is not only for those who want to understand Singer's views but also for all who want to challenge the thinking that more and more informs our society's stance on moral issues

Peter Singer and Christian Ethics Charles C. Camosy, 2012-04-12 This book explores a number of important issues to illuminate the common ground between Peter Singer and Christian ethics

Vulnerability and Care Andrew Sloane, 2016-01-28 Medical and bioethical issues have spawned a great deal of debate in both public and academic contexts Little has been done however to engage with the underlying issues of the nature of medicine and its role in human community This book seeks to fill that gap by providing Christian philosophical and theological reflections on the nature and purposes of medicine and its role in a Christian understanding of human society The book provides two main doorways into a Christian philosophical theology of medicine First it presents a brief description of the contexts in which medicine is practiced in the early 21st century identifying key problems and challenges that medicine must address It then turns to issues in contemporary bioethics demonstrating how the debate is rooted in conflicting visions of the nature of medicine and so human existence This leads to a discussion of some of the philosophical and theological resources currently available for those who would reflect Christianly on medicine The heart of the book consists of an articulation of a Christian understanding of medicine as both a scholarly and a social practice articulating the philosophical theological framework which informs this perspective It fleshes out features of medicine as an inherently moral practice one informed by a Christian social vision and shaped by key theological commitments The book closes by returning to the issues relating to the context of medicine and bioethics with which it opened demonstrating how a Christian philosophical theology of medicine informs and enriches those discussions

What is the Bible? Graham A. Cole, 2022-02-02 The book that understands you Christians are people of the book But does the Bible still speak today Can an ancient book still be relevant In *What is the Bible* Graham A Cole asks why Christians should value God's word Fundamentally God's word gives light It reveals God It also reveals this world It gives a new perspective on the past present and future And God's word illuminates you It knows and understands

you better than you do It doesn't simply answer your questions it asks questions of you It will not leave you unchanged Learn what makes this book so valued by so many people The Questions for Restless Minds series applies God's word to today's issues Each short book faces tough questions honestly and clearly so you can think wisely act with conviction and become more like Christ *Ethical Veganism, Virtue Ethics, and the Great Soul* Carlo Alvaro, 2019-03-13 Millions of animals are brought into existence and raised for food every year This has generated three serious problems first intensive animal farming is one of the leading causes of environmental degradation Farming livestock contributes to a large amount of greenhouse gases to the atmosphere each year it contributes to land and water degradation biodiversity loss coral reef degeneration and deforestation Second raising animals for food causes millions of animals to suffer and be killed And third consumption of meat and animal products is linked with heart disease diabetes and various cancers Consequently a global change in the way that animals are treated is imperative Many moral philosophers have suggested a move toward vegetarianism But vegetarianism unfortunately still relies on raising animals for food and does not avoid the deleterious effects of animal products on human health The right solution is ethical veganism which is the avoidance of all animal products and by products Some moral philosophers have framed ethical veganism in terms of animals having the same fundamental rights as humans a notion that is highly controversial In any case the view that animals have rights is not capable of generating the moral duty to embrace ethical veganism The answer is to adopt a virtue oriented approach to the treatment of animals because the acquisition of virtues such as compassion magnanimity temperance and fairness enable people to see that raising and using animals for food is unfair callous and self indulgent **Oxford Textbook of Spirituality in Healthcare** Mark Cobb, Christina Puchalski, Bruce Rumbold, 2012-08-09 The relationship between spirituality and healthcare is historical intellectual and practical and it has now emerged as a significant field in health research healthcare policy and clinical practice and training Understanding health and wellbeing requires addressing spiritual and existential issues and healthcare is therefore challenged to respond to the ways spirituality is experienced and expressed in illness suffering healing and loss If healthcare has compassionate regard for the humanity of those it serves it is faced with questions about how it understands and interprets spirituality what resources it should make available and how these are organised and the ways in which spirituality shapes and informs the purpose and practice of healthcare These questions are the basis for this resource which presents a coherent field of enquiry discussion and debate that is interdisciplinary international and vibrant There is a growing corpus of articles in medical and healthcare journals on spirituality in addition to a wide range of literature but there has been no attempt so far to publish a standard text on this subject Spirituality in Healthcare is an authoritative reference on the subject providing unequalled coverage critical depth and an integrated source of key topics Divided into six sections including practice research policy and training the project brings together international contributions from scholars in the field to provide a unique and stimulating resource Biblical Critical Theory

Christopher Watkin, 2022-11-08 With a foreword from Tim Keller A bold vision for Christians who want to engage the world in a way that is biblically faithful and culturally sensitive In *Biblical Critical Theory* Christopher Watkin shows how the Bible and its unfolding story help us make sense of modern life and culture Critical theories exist to critique what we think we know about reality and the social political and cultural structures in which we live In doing so they make visible the values and beliefs of a culture in order to scrutinize and change them Biblical Critical Theory exposes and evaluates the often hidden assumptions and concepts that shape late modern society examining them through the lens of the biblical story running from Genesis to Revelation and asking urgent questions like How does the Bible s storyline help us understand our society our culture and ourselves How do specific doctrines help us engage thoughtfully in the philosophical political and social questions of our day How can we analyze and critique culture and its alternative critical theories through Scripture Informed by the biblical theological structure of Saint Augustine s magisterial work *The City of God* and with extensive diagrams and practical tools Biblical Critical Theory shows how the patterns of the Bible s storyline can provide incisive fresh and nuanced ways of intervening in today s debates on everything from science the arts and politics to dignity multiculturalism and equality You ll learn the moves to make and the tools to use in analyzing and engaging with all sorts of cultural artifacts and events in a way that is both biblically faithful and culturally relevant It is not enough for Christians to explain the Bible to the culture or cultures in which we live We must also explain the culture in which we live within the framework and categories of the Bible revealing how the whole of the Bible sheds light on the whole of life If Christians want to speak with a fresh engaging and dynamic voice in the marketplace of ideas today we need to mine the unique treasures of the distinctive biblical storyline

Theology and Law Christine Parker, 2005 A creative interface between the issues the stories and the values virtues that sustain and may heal two central disciplines institutions of our society Reconsidering Intellectual Disability Jason Reimer Greig, 2015-11-02 Drawing on the controversial case of Ashley X a girl with severe developmental disabilities who received interventionist medical treatment to limit her growth and keep her body forever small a procedure now known as the Ashley Treatment *Reconsidering Intellectual Disability* explores important questions at the intersection of disability theory Christian moral theology and bioethics What are the biomedical boundaries of acceptable treatment for those not able to give informed consent Who gets to decide when a patient cannot communicate their desires and needs Should we accept the dominance of a form of medicine that identifies those with intellectual impairments as pathological objects in need of the normalizing bodily manipulations of technological medicine In a critical exploration of contemporary disability theory Jason Reimer Greig contends that L Arche a federation of faith communities made up of people with and without intellectual disabilities provides an alternative response to the predominant bioethical worldview that sees disability as a problem to be solved *Reconsidering Intellectual Disability* shows how a focus on Christian theological tradition s moral thinking and practice of friendship with God offers a way to free not only people with intellectual disabilities

but all people from the objectifying gaze of modern medicine L Arche draws inspiration from Jesus's solidarity with the least of these and a commitment to Christian friendship that sees people with profound cognitive disabilities not as anomalous objects of pity but as fellow friends of God This vital act of social recognition opens the way to understanding the disabled not as objects to be fixed but as teachers whose lives can transform others and open a new way of being human

Compassion-Justice Conflicts and Christian Ethics Albino Barrera, 2023-11-02 We seek to be both loving and just However what do we do when love and justice present us with incompatible obligations Can one be excessively just Should one bend rules or even break the law for the sake of compassion Alternatively should one simply follow rules Unjust beneficence or uncaring justice which is the less problematic moral choice Moral dilemmas arise when a person can satisfy a moral obligation only by violating another moral duty These quandaries are also called moral tragedies because despite their good intentions and best effort people still end up being blameworthy Conflicting demands of compassion and justice are among the most vexing problems of social philosophy moral theology and public policy They often have life and death consequences for millions In this book Albino Barrera examines how and why compassion justice conflicts arise to begin with and what we can do to reconcile their competing claims **Christian Physicalism?**, Joshua R. Farris, R. Keith

Loftin, 2017-12-26 On the heels of the advance since the twentieth century of wholly physicalist accounts of human persons the influence of materialist ontology is increasingly evident in Christian theologizing To date the contemporary literature has tended to focus on anthropological issues e g whether the traditional soul body distinction is viable with occasional articles treating physicalist accounts of such doctrines as the Incarnation and Resurrection of Jesus cropping up as well Interestingly the literature to date both for and against this influence is dominated by philosophers The present volume is a collection of philosophers and theologians who advance several novel criticisms of this growing trend toward physicalism in Christian theology The present collection definitively shows that Christian physicalism has some significant philosophical and theological problems No doubt all philosophical anthropologies have their challenges but the present volume shows that Christian physicalism is most likely not an adequate accounting for essential theological topics within Christian theism Christians then should consider alternative anthropologies Questioning the Human Lieven Boeve, Yves De

Maeseneer, Ellen Van Stichel, 2014-08-15 Theological anthropology is being put to the test in the face of contemporary developments in the spheres of culture politics and science traditional perspectives on the human person are no longer adequate Yet can theological anthropology move beyond its previously established categories and renew itself in relation to contemporary insights The present collection of essays sets out to answer this question Uniting Roman Catholic theologians from across the globe it tackles from a theological perspective challenges related to the classical natural law tradition part 1 to the modern conception of the subject part 2 and to the postmodern awareness of diversity in a globalizing context part 3 Its contributors share a fundamental methodological choice of a critical constructive dialogue with contemporary culture

science and philosophy This collection integrates a wider range of approaches than one usually finds in theological volumes bringing together experts in systematic theology and in theological ethics Authors come from different American contexts including Black and Latino and from a European context that include both French and German Moreover the interdisciplinary insights upon which the different contributions draw stem from both the natural sciences such as neuroscience evolutionary biology and ethology and the humanities such as cultural studies philosophy and hermeneutics This volume will be essential reading for anyone seeking a state of the art account of theological anthropology of the uncertainties it is facing and of the responses it is in the process of formulating The shared Roman Catholic background of the authors of this collection makes this volume a helpful complement to recent publications that predominantly represent views from other theological traditions

Whatever Became of Love? Thomas C. Pfizenmaier, 2023-07-21 This book is written for those who want growth in love This book is written for those who long for a place to stand with confidence in a trembling world This book is written for those who suspect our civilization is running on fumes and want to help If you are one of these people then this book is written for you In discovering Jesus as he encounters us in the Scriptures you will discover that his love is unimaginably powerful for those who will place themselves at its disposal powerful enough to restore all things

Transnational Legal Processes Michael Likosky, 2002-04 This work comprises 24 linked essays by leading transatlantic scholars in international law and the social sciences examining the sociolegal aspects of multi jurisdictional legal techniques and trans jurisdictional social phenomena The contributors bring a range of disciplinary expertises including anthropology economics law and sociology to bear on key questions raised by transnational legal processes The pieces explore legal developments in multiple territories including Africa Asia Latin America and the United States The volume is designed as a general reader for courses on law and globalisation and related studies The collection is made up of four parts each addressing a central theme in transnational law and legal action law making and compliance human rights commerce and governance The essays discuss such diverse problems as the role of foreign actors in the ethnic conflicts of Kosovo and Rwanda the power the United States and the UK wield over international capital markets and the adaptability of existing public international law to deal with the challenges wrought by globalisation

On Animals David L. Clough, 2012-02-02 This volume is a project in systematic theology a rigorous engagement with the Christian tradition in relation to animals under the doctrinal headings of creation reconciliation and redemption and in dialogue with the Bible and theological voices central to the tradition The book shows that such engagement with the tradition with the question of the animal in mind produces surprising answers that challenge modern anthropocentric assumptions For the most part therefore the novelty of the project lies in the questions raised rather than the proposal of innovative answers to it The transformation in our thinking about animals for which the book argues results in the main from looking squarely for the first time at the sum of what we are already committed to believing about other animals and their place in God's creation

Canadian Periodical Index, 1995 [Ethics in Medicine](#) Jennifer

Jackson, 2006 How in a secular world should we resolve ethically controversial and troubling issues relating to health care Should we as some argue make a clean sweep getting rid of the Hippocratic ethic such vestiges of it as remain Jennifer Jackson seeks to answer these significant questions establishing new foundations for a traditional and secular ethic which would not require a radical and problematic overhaul of the old These new foundations rest on familiar observations of human nature and human needs Jackson presents morality as a loose anatomy of constituent virtues that are related in different ways to how we fare in life and suggests that in order to address problems in medical ethics a virtues based approach is needed Throughout attention is paid to the role of philosophy in medical ethics and how it can be used to clarify key notions and distinctions that underlie current debates and controversial issues By reinstating such concepts as justice cardinal virtue and moral duty Jackson lays the groundwork for an ethics of health care that makes headway toward resolving seeming dilemmas in medical ethics today This penetrating and accessible book will be invaluable to students of sociology and health care as well as those who are interested in the ethical uncertainties faced by the medical world

Seeking Common Ground Andrew Fiala, Peter Admirand, 2021-08-26 Seeking Common Ground is a dialogue between an atheist philosopher and a Catholic theologian It is about religion and nonreligion as well as about dialogue itself The book provides a framework for dialogue grounded in seven key values Harmony Courage Humility Curiosity Honesty Compassion and Honor Unlike typical debates about religion and atheism Fiala and Admirand show that atheists and theists can work together on projects of mutual understanding They explore the terrain of religion and nonreligion discussing a range of sources topics issues and concerns including adventures in interfaith dialogue challenging ethical issues problems interpreting biblical texts the growth of secularism and the importance of ritual and community The authors show that it is possible to disagree about religion while also seeking common ground The book includes a foreword by Rabbi Jack Moline president of the U S Interfaith Alliance

A Theology for the Bildungsbürgertum Leif Svensson, 2020-04-06 This book provides a new approach to Albrecht Ritschl's theology Leif Svensson argues that Ritschl's theological project must be related to three cultural developments historical criticism materialism and anti Lutheran polemics and understood in the context of the de Christianization of the Bildungsbürgertum in nineteenth century Germany Albrecht Ritschl remains the great unknown of nineteenth century theology In this important study Leif Svensson sheds new light on Ritschl's thought by relating it to contemporaneous social and cultural developments Rooted in deep familiarity with German intellectual life of the time the book convincingly illustrates the value of a history of theology that is mindful of its various contexts Johannes Zachhuber University of Oxford I confess I was hesitant to blurb a book on Ritschl but then I read it Svensson's well researched presentation of Ritschl's thought is compelling and forceful I highly recommend this book Stanley Hauerwas Duke Divinity School Svensson's work ably places Ritschl's contribution to theology in the broader context of the intellectual and cultural history of the nineteenth century Students of Protestant theology and thought and all interested in the complex

Rethinking EU Law-making Policy on Confiscation of the Proceeds of Crime

Ariadna H. Ochnio, 2025-05-30 The book provides a critical analysis of EU law making policy on the confiscation of the proceeds of crime using a minimalist restorative approach to justice focused on the rights of victims and communities and more proactive roles for all participants in confiscation procedures This book shows how the examined policy has been translated into the EU law standards adopted as its realisation and whether the gaps identified in these standards are reflected in the domestic law of the comparator EU jurisdictions Poland Germany and France The post conviction confiscation regime in England and Wales is also explored as an example of an alternative non EU model of value based confiscation Considering the complex juridical nature of confiscation which challenges the applicability of the civil criminal dichotomy this book recommends a twofold approach when shaping EU confiscation mechanisms focused on linking policy objectives with a restorative approach to justice and making the appropriate choice of criminal or civil routes for confiscation This book will be of key interest to scholars students and practitioners in EU policy and law criminal law EU and national law on confiscation EU criminal justice policy and more broadly to European studies criminology and international organisations
