Christoff, 2019-03-07 This book is written based on vigorous and prolonged debates between the Slavophiles and proponents of Russian Slavophilism s principal ideological rival Westernism in the mid nineteenth century It presents the analysis and evaluation of Iu F Samarin s dissertation      *New Essays on Dostoyevsky* Malcolm V. Jones, Garth M. Terry, 1983-03-31 This book comprises essays to mark the centenary of Dostoyevsky s death in 1881 The first part considers specific works and the second part ranges more widely over aspects of the great novelist s work including essays on Dostoyevsky as philosopher on his religious thought and on formalist and structuralist approaches to his work      **Polish Encounters, Russian Identity** David L. Ransel, Bozena Shallcross, 2005-06-15 At a time when Poland is emphasizing its distance from Russia Polish Encounters Russian Identity points to the historical ties and mutual influences of these two great Slavic peoples Whether Poland adopted a hostile or a friendly stance toward Russia the intense responses of Russian thinkers writers and political leaders to Poland and to Polish culture shaped Russians idea of themselves and their place in the world Countering the recent trend to deny the rich interactions between Russia and Poland this collection reminds readers that these longstanding if often difficult contacts constitute an important and enduring element in the consciousness of the peoples of both countries The contributors are Manon de Courten Megan Dixon Halina Goldberg Leonid Efremovich Gorizontov Irina Grudzinska Beth Holmgren Judith Deutsch Kornblatt Matthew Pauly Nina Perlina Robert Przygodski David L Ransel Bozena Shallcross Barbara Skinner and Andrzej Walicki      **The Routledge History Handbook**

**of Central and Eastern Europe in the Twentieth Century** Włodzimierz Borodziej, Ferenc Laczó, Joachim von Puttkamer, 2020-08-02 Intellectual Horizons offers a pioneering transnational and comparative treatment of key thematic areas in the intellectual and cultural history of Central and Eastern Europe in the twentieth century For most of the twentieth century Central and Eastern European ideas and cultures constituted an integral part of wider European trends However the intellectual and cultural history of this diverse region has rarely been incorporated sufficiently into nominally comprehensive histories of Europe This volume redresses this underrepresentation and provides a more balanced perspective on the recent past of the continent through original critical overviews of themes ranging from the social and conceptual history of intellectuals and histories of political thought and historiography to literary visual and religious cultures to perceptions and representations of the region in the twentieth century While structured thematically individual contributions are organized chronologically They emphasize where relevant generational experiences agendas and accomplishments while taking into account the sharp ruptures that characterize the period The third in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for understanding the intellectual and cultural history of this dynamic region

**Fiction and Society in the Age of Pushkin** William Mills Todd, 1986 Todd describes the ideology of the educated westernized gentry then charts the possibilities for literary life first patronage the salons popular literature then rapid emergence of an incipient literary profession He explores the interactions of literature and society as writers discovered their own milieu and were discovered by it *Russia and Eastern Europe, 1789-1985* Raymond Pearson, 1989 History and Geopolitics Andrzej Nowak, 2008 *Russia and the Idea of Europe* Iver B. Neumann, 2013-02-01 The end of the Soviet system and the transition to the market in Russia coupled with the inexorable rise of nationalism has brought to the fore the centuries old debate about Russia's relationship with Europe In *Russia and the Idea of Europe* Iver Neumann discusses whether the tensions between self referencing romantic nationalist views and Europe orientated liberal views can ever be resolved Drawing on a wide range of Russian sources Neumann outlines the argument as it has unfolded over the last two hundred years showing how Russia is caught between the attraction of an economically politically and socially more developed Europe and the attraction of being able to play a European style imperial role in less developed Asia Neumann argues that the process of delineating a European other from the Russian self is an active form of Russian identity formation The Russian debate about Europe is also a debate about what Russia is and should be Lyric Poetry and Modern Politics Clare Cavanagh, 2009-01-01 This work explores the intersection of poetry national life and national identity in Poland and Russia from 1917 to the present It also provides a comparative study of modern poetry from the perspective of the Eastern and Western sides of the Iron Curtain World Communism, 1964-1969, a Selected Bibliography United States. Congress. Senate. Committee on the Judiciary, 1971 **Eastern & Western History, Thought, & Culture 1600-1815** Walter W. Davis, 1993-05-12 This work aims to provide a broad integrated and reasonably comprehensive survey of political economic

cultural and social developments of the 17th and 18th centuries in the eastern and western worlds      *Revolution and Tradition in People's Poland* Joseph R. Fiszman, 2015-03-08 The postwar political and technological industrial revolutions have brought profound changes to Poland Yet although a generation has now grown up in the Communist ideology the transformation it demands is far from complete Traditional institutions values and patterns of behavior continue to exist and are in daily confrontation with the new regime Education must obviously play a critical role in the process of socialization and teachers are expected to instill in future citizens a thorough commitment to socialist values But how well are they equipped for this task To answer this question Joseph R Fiszman has done extensive field work in Poland sponsored by the U S Office of Education He is the first American citizen permitted to do research of this type in an Eastern European country He has examined all aspects of the teachers lives from social background and training to attitudes values and status in the community His findings are an important contribution to the attempt to understand the process of change in societies where revolutionary values face the entrenched power of tradition Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Dostoevsky and the Catholic Underground Elizabeth A. Blake, 2014-04-30 While Dostoevsky s relation to religion is well trod ground there exists no comprehensive study of Dostoevsky and Catholicism Elizabeth Blake s ambitious and learned *Dostoevsky and the Catholic Underground* fills this glaring omission in the scholarship Previous commentators have traced a wide ranging hostility in Dostoevsky s understanding of Catholicism to his Slavophilism Blake depicts a far more nuanced picture Her close reading demonstrates that he is repelled and fascinated by Catholicism in all its medieval Reformation and modern manifestations Dostoevsky saw in Catholicism not just an inspirational source for the Grand Inquisitor but a political force an ideological wellspring a unique mode of intellectual inquiry and a source of cultural production Blake s insightful textual analysis is accompanied by an equally penetrating analysis of nineteenth century European revolutionary history from Paris to Siberia that undoubtedly influenced the evolution of Dostoevsky s thought      *Multicultural Writers from Antiquity to 1945* Alba Amoia, Bettina L. Knapp, 2001-10-30 The final decades of the 20th century have seen an explosion of interest in multiculturalism But multiculturalism is more than an awareness of the different cultures comprising contemporary societies For centuries people from around the world have come in contact with cultures other than their own and their exposure to multiple cultures has fostered their creativity and ability to make lasting contributions to civilization The effects of multiculturalism are especially apparent in literature since writers tend to be particularly aware of their environments and record their experiences This reference includes alphabetically arranged entries for more than 100 world writers from

antiquity to 1945 who were significantly influenced by cultures other than their own Included are entries for major canonical Ancient and Modern writers of the Western and Eastern worlds Each entry is written by an expert contributor and includes a brief biography a discussion of multicultural themes and contexts a summary of the writer s critical reception and primary and secondary bibliographies By illuminating the shaping influence of multiculturalism on these writers the volume points to the lasting value of multiculturalism in the contemporary world

**National Identity and Great-Power Status in Russia and Japan** Tadashi Anno, 2018-09-03 Having suffered military defeat at the hands of advanced Western powers in the 1850s Russia and Japan embarked upon a program of catch up and modernization in the late 19th Century While the two states sought in the main to replicate the successes of the advanced great powers of the West the discourse on national identity among Russian and Japanese elite in this period evinced a considerable degree of ambivalence about Western dominance With the onset of the crisis of power and legitimacy in the international order ushered in by the First World War this ambivalence shifted towards more open revolt against Western dominance The rise of communism in Russia and militarism in Japan were significantly shaped by their search for national distinctiveness and international status This book is a comparative historical study of how the two non Western great powers emerged as challengers to the prevailing international order in the interwar period each seeking to establish an alternative order Specifically Anno examines the parallels and contrasts in the ways in which the Russian and Japanese elites sought to define the two countries national identities and how those definitions influenced the two countries attitudes toward the prevailing order At the intersection of international relations theory comparative politics and of historical sociology this book offers an integrated perspective on the rise of challengers to the liberal international order in the early twentieth century
