The Russian Empire Andreas Kappeler, 2014-08-27 The national question and how to impose control over its diverse ethnic identities has long posed a problem for the Russian state This major survey of Russia as a multi ethnic empire spans the imperial years from the

sixteenth century to 1917 with major consideration of the Soviet phase It asks how Russians incorporated new territories how they were resisted what the character of a multi ethnic empire was and how finally these issues related to nationalism

**The "Russian" Civil Wars, 1916-1926** Jonathan Smele,2016-01-15 This volume offers a comprehensive and original analysis and reconceptualisation of the compendium of struggles that wracked the collapsing Tsarist empire and the emergent USSR profoundly affecting the history of the twentieth century Indeed the reverberations of those decade long wars echo to the present day not despite but because of the collapse of the Soviet Union which re opened many old wounds from the Baltic to the Caucasus Contemporary memorialising and de memorialising of these wars therefore form part of the book s focus but at its heart lie the struggles between various Russian political and military forces which sought to inherit and preserve or even expand the territory of the tsars overlain with examinations of the attempts of many non Russian national and religious groups to divide the former empire The reasons why some of the latter were successful Poland and Finland for example while others Ukraine Georgia and the Muslim Basmachi were not are as much the author s concern as are explanations as to why the chief victors of the Russian Civil Wars were the Bolsheviks Tellingly the work begins and ends with battles in Central Asia a theatre of the Russian Civil Wars that was closer to Mumbai than it was to Moscow

**Russia's Own Orient** Vera Tolz, 2011-02-10 Russia's own Orient examines how intellectuals in early twentieth century Russia offered a new and radical critique of the ways in which Oriental cultures were understood at the time Out of the ferment of revolution and war a group of scholars in St Petersburg articulated fresh ideas about the relationship between power and knowledge and about Europe and Asia as mere political and cultural constructs Their ideas anticipated the work of Edward Said and post colonial scholarship by half a century The similarities between the two groups were in fact genealogical Said was indebted via Arab intellectuals of the 1960s who studied in the Soviet Union to the revisionist ideas of Russian Orientologists of the fin de siècle But why did this body of Russian scholarship of the early twentieth century turn out to be so innovative Should we agree with a popular claim of the Russian elites about their country's particular affinity with the Orient There is no single answer to this question The early twentieth century was a period when all over Europe a fascination with things Oriental engendered the questioning of many nineteenth century assumptions and prejudices In that sense the revisionism of Russian Orientologists was part of a pan European trend And yet Tolz also argues that a set of political social and cultural factors which were specific to Russia allowed its imperial scholars to engage in an unusual dialogue with representatives of the empire's non European minorities It is together that they were able to articulate a powerful long lasting critique of modern imperialism and colonialism and to shape ethnic politics in Russia across the divide of the 1917 revolutions

**Reformers and Revolutionaries in Modern Iran** Dr Stephanie Cronin, 2013-04-15 Even though the left has never held power in Iran its impact on the political intellectual and cultural development of modern Iran has been profound This book's authors undertake a fundamental re examination and re appraisal of the phenomenon of leftist activism in Iran interpreted in the broadest sense throughout the period of its existence up to and including the present

**Russia in Revolution** S. A. Smith, 2017-01-19 The Russian Revolution of 1917 transformed the face of the Russian empire politically economically socially and culturally and also profoundly affected the course of world history for the rest of the twentieth century Historian S A Smith presents a panoramic account of the history of the Russian empire from the last years of the nineteenth century through the First World War and the revolutions of 1917 and the establishment of the Bolshevik regime to the end of the 1920s when Stalin simultaneously unleashed violent collectivization of agriculture and crash industrialization upon Russian society Drawing on recent archivally based scholarship *Russia in Revolution* pays particular attention to the varying impact of the Revolution on the various groups that made up society peasants workers non Russian nationalities the army women and the family young people and the Church In doing so it provides a fresh way into the big perennial questions about the Revolution and its consequences why did the attempt by the tsarist government to implement political reform after the 1905 Revolution fail why did the First World War bring about the collapse of the tsarist system why did the attempt to create a democratic system after the February Revolution of 1917 not get off the ground why did the Bolsheviks succeed in seizing and holding on to power why did they come out victorious from a punishing civil war why did the New Economic Policy they introduced in 1921 fail and why did Stalin come out on top in the power struggle inside the Bolshevik party after Lenin's death in 1924 A final chapter then reflects on the larger significance of 1917 for the history of the twentieth century and for all its terrible flaws what the promise of the Revolution might mean for us today
