Brown, Sumit Ganguly, 1997-10-20 Efforts to contend with tensions inherent in multiethnic societies case studies of India Pakistan Sri Lanka Burma Thailand Malaysia Singapore Indonesia the Philippines China Australia New Zealand Papua New Guinea Fiji Vanuatu and the Federated States of Micronesia Ethnic conflict one of the most serious and widespread problems in the world today can undermine efforts to promote political and economic development as well as political economic and social justice It can also lead to violence and open warfare producing horrifying levels of death and destruction Although government policies on ethnic issues often have profound effects on a country the subject has been neglected by most scholars and analysts This volume analyzes different policies governments have pursued in their efforts to contend with the tensions inherent in multiethnic societies The book focuses on Asia and the Pacific the most populous and economically vibrant part of the world The heart of the book is a set of case studies of government policies in sixteen countries India Pakistan Sri Lanka Burma Thailand Malaysia Singapore Indonesia the Philippines China Australia New Zealand Papua New Guinea Fiji Vanuatu and the Federated States of Micronesia The studies consider a wide range of political economic educational linguistic and cultural policies and how these policies have evolved over time Using a broad comparative perspective to assess the effectiveness of different governmental approaches the authors offer policy recommendations that cut across individual countries and regions **Allies Divided** Robert D. Blackwill, Michael Stürmer, 1997 Many Transatlantic security concerns in the coming decades will originate not in Europe but in the Greater Middle East which encompasses the area from the Maghreb to the Caspian basin This volume juxtaposes essays from U S and European scholars on selected areas and issues the Arab Israeli peace process the Persian Gulf Turkey and the Caspian Basin the proliferation of weapons of mass destruction and military force projection Each author considers American and European strategies toward a particular issue and makes suggestions for future policy collaboration between the countries on both sides of the Atlantic

Gaddy, 2003 Hill and Gaddy frame the problems of Siberia more clearly and offer policy recommendations which are more concrete and coherent than any previous analyses of Siberia from Russian or foreign sources of which I am aware Robert Cottrell New York Review of Books *Avoiding Nuclear Anarchy* Graham T. Falkenrath, 1995 The legal foundation of the contemporary European security order is the Treaty on Conventional Armed Forces in Europe CFE Negotiated by NATO and the Warsaw Pact states as the Cold War was ending and implemented as the new Europe took shape the CFE Treaty imposes strict limits on the armed forces of all the major European states This book takes a detailed look at the origins and evolution of the CFE negotiations and the impact of the CFE Treaty on European Security It draws extensively on interviews with participants in the CFE negotiations and offers a careful reconstruction of a process that contributed to the transformation of Cold War Europe a critical assessment of the treaty's contribution to security in post Cold War Europe and an evaluation of the lessons of CFE for future conventional arms control initiatives CSIA Studies in International Security No 6 The Arms Production Dilemma Randall Forsberg, 1994 The studies show how military strategy planned forces and the age of systems in the current inventory affect the domestic demand for new production how the recent drop in domestic demand affects arms industries and the extent to which governments and firms in the arms producing nations are turning to exports to sustain the industries In the shrinking arms market of the post Cold War era countries with advanced arms industries face difficult choices concerning force size arms production arms export and defense industrial capacity This book explores the links among these issues through a detailed study of the combat aircraft industries in the United States Russia Britain France Germany Italy and Sweden the seven countries that develop produce and export all of the world's technologically advanced weapon systems The studies show how military strategy planned forces and the age of systems in the current inventory affect the domestic

demand for new production how the recent drop in domestic demand affects arms industries and the extent to which governments and firms in the arms producing nations are turning to exports to sustain the industries Stunning changes in Russia's combat aircraft forces industry and strategy are detailed here for the first time as are expected future Russian combat aircraft exports to China Newly compiled data also show that in the United States and Russia and globally arms production for export will exceed production for domestic use for the first time in history starting in 1995 Arms production is thus increasingly dominated by commercial rather than security interests Ultimately at issue is whether governments will exploit the opportunity offered by the dramatic post Cold War contraction of the world arms market to reduce their armed forces and constrain international arms trade while shrinking the arms industry or keep pushing arms exports that generate new threats and justify larger armed forces more arms production and bigger arms industries **The Sanctions Paradox**

Daniel W. Drezner, 1999-08-26 Despite their increasing importance there is little theoretical understanding of why nation states initiate economic sanctions or what determines their success This book argues that both imposers and targets of economic coercion incorporate expectations of future conflict as well as the short run opportunity costs of coercion into their behaviour Drezner argues that conflict expectations have a paradoxical effect Adversaries will impose sanctions frequently but rarely secure concessions Allies will be reluctant to use coercion but once sanctions are used they can result in significant concessions Ironically the most favourable distribution of payoffs is likely to result when the imposer cares the least about its reputation or the distribution of gains The book's argument is pursued using game theory and statistical analysis and detailed case studies of Russia's relations with newly independent states and US efforts to halt nuclear proliferation on the Korean peninsula Publisher description **The Greek Paradox** Graham Allison, Kalypso Nicolaidis, 1997-01-07 As a bridge between the East and West a pole of stability in the Balkans and a Mediterranean crossroads Greece could play a significant role in the post Cold War world But Greece's performance in domestic and international policy falls short of this promise The essays in The Greek Paradox look at some of the reasons for this gap and suggest possible political and economic reforms The contributors both scholars and policymakers examine a range of contemporary issues in the Balkans and on NATO's southern flank The essays shed light on nation building political and economic development modernization and post Cold War international relations Contributors Graham T Allison Gianna Angelopoulos Daskalaki P Nikiforos Diamandouros Michael S Dukakis Misha Glenny Dimitris Keridis F Stephen Larrabee Kalypso Nicola Dis Joseph S Nye Jr Alexis Papahelas Elizabeth Prodromou Monteagle Stearns Constantine Stephanopoulos Stavros B Thomadakis Basilios E Tsingos Loukas Tsoukalis Susan Woodward CSIA Studies in International Security

Soviet Strategic Thought, 1917-91 Andrei A. Kokoshin,1998-01-15 During the Cold War Westerners were obsessed with the military policies of the Soviet Union. Until the demise of the Soviet Union, however, few details of Moscow's thinking on military matters were available. In this book Andrei Kokoshin reveals how Soviet military theorists developed and debated the concepts that provided the basis for the Kremlin's defense policies. Drawing on Soviet era archives and unpublished materials, he sheds light on this important chapter in the history of Russia and the world. The book covers three main themes: the relationship between politics and military strategy in the Soviet Union; how the Soviet political and military leadership assessed threats to Soviet security; the nature of future wars and methods of warfare; and the relationship between offense and defense in Soviet military strategy. Kokoshin places the strategic concepts behind Moscow's military policies in the context of internal and international struggles for power and assesses the future role of military power in Russia's national security strategy.
