Russia's Bitter Path To Modernity A History Of The Soviet And Post Soviet Eras:

Russia's Bitter Path to Modernity Alexander Chubarov, 2001-01-01 Will it follow the model of the Western capitalist democracies as those who applied the economic shock therapy of the early 90s hoped or will it chose its own distinct path of development In this history of Russia from 1917 to the present Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia *The Fragile Empire* One of the key factors to Russia s distinctiveness is its halfway location in the center of the Eurasian landmass This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles Neither approach says Chubarov will work on its own Chubarov offers a balanced view abstaining from narrow ideologically biased assessments and examines the triumphs yes and failures of Russia s Soviet development within Russia s own cultural and historical context Without ever minimizing the brutalities of the Soviet period the state terror the collectivizations the labor camps the deportations of whole peoples Chubarov demonstrates much continuity between tsarist and Soviet Russia with the latter often repeating the former s mistakes Russia says Chubarov cannot turn its back on its Soviet experience Far from being a blind alley or aberrant phase the Soviet period was an organic part of Russia history and was largely successful in turning Russia and most of the other Soviet republics into modern states

Rivers, Memory, And Nation-building Dorothy Zeisler-Vralsted, 2014-11-01 Rivers figure prominently in a nation s historical memory and the Volga and Mississippi have special importance in Russian and American cultures Beginning in the pre modern world both rivers served as critical trade routes connecting cultures in an extensive exchange network while also sustaining populations through their surrounding wetlands and bottomlands In modern times Mother Volga and the Father of Waters became integral parts of national identity contributing to a sense of Russian and American exceptionalism Furthermore both rivers were drafted into service as the means to modernize the nation state through hydropower and navigation Despite being forced into submission for modern day hydrological regimes the Volga and Mississippi Rivers persist in the collective memory and continue to offer solace recreation and sustenance Through their histories we derive a more nuanced view of human interaction with the environment which adds another lens to our understanding of the past

Saunders, 2019-09-20 Straddling Europe and Asia the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats Over the past 40 years Russia has experienced the most dramatic transformation of any modern state The second edition of *Historical Dictionary of the Russian Federation* provides insight into this rapidly developing country This volume includes coverage of pivotal movements events and persons in the late Soviet Union 1985 1991 and contemporary Russia 1991 present This second edition of *Historical Dictionary of the Russian Federation* contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students

researchers and anyone wanting to know more about Russia *Modernisation in Russia since 1900* Markku Kangaspuro, Jeremy Smith, 2006-12-27 Modernisation has been a constant theme in Russian history at least since Peter the Great launched a series of initiatives aimed at closing the economic technical and cultural gap between Russia and the more advanced countries of Europe All of the leaders of the Soviet Union and post Soviet Russia have been intensely aware of this gap and have pursued a number of strategies some more successful than others in order to modernise the country But it would be wrong to view modernisation as a unilinear process which was the exclusive preserve of the state Modernisation has had profound effects on Russian society and the attitudes of different social groups have been crucial to the success and failure of modernisation This volume examines the broad theme of modernisation in late imperial Soviet and post Soviet Russia both through general overviews of particular topics and specific case studies of modernisation projects and their impact Modernisation is seen not just as an economic policy but as a cultural and social phenomenon reflected through such diverse themes as ideology welfare education gender relations transport political reform and the Internet The result is the most up to date and comprehensive survey of modernisation in Russia available which highlights both one of the perennial problems and the challenges and prospects for contemporary Russia Leaders of Russia and the Soviet Union John Paxton, 2004 This reference work surveys the leaders of Russia and the Soviet Union from Michael the first Romanov tsar in 1613 through the creation and dissolution of the Soviet Union to the present day President of the Russian Federation Vladimir Putin Chronologically arranged these biographies paint a thorough yet succinct portrait of 30 leaders including discussion about the family and education of each ruler important legislation events and wars under each leader s rule and each leader s achievements and impact on Russia or the Soviet Union Soviet Nation-Building in Central Asia Grigol Ubiria, 2015-09-16 The demise of the Soviet Union in 1991 resulted in new state led nation building projects in Central Asia The emergence of independent republics spawned a renewed Western scholarly interest in the region s nationality issues Presenting a detailed study this book examines the state led nation building projects in the Soviet republics of Kazakhstan and Uzbekistan Exploring the degree forms and ways of the Soviet state involvement in creating Kazakh and Uzbek nations this book places the discussion within the theoretical literature on nationalism The author argues that both Kazakh and Uzbek nations are artificial constructs of Moscow based Soviet policy makers of the 1920s and 1930s This book challenges existing arguments in current scholarship by bringing some new and alternative insights into the role of indigenous Central Asian and Soviet officials in these nation building projects It goes on to critically examine post Soviet official Kazakh and Uzbek historiographies according to which Kazakh and Uzbek peoples had developed national collective identities and loyalties long before the Soviet era This book will be a useful contribution to Central Asian History and Politics as well as studies of Nationalism and Soviet Politics **Shadowlands** Meike Wulf, 2016-01-01 Located within the forgotten half of Europe historically trapped between Germany and Russia Estonia has been profoundly shaped by the violent conflicts and

shifting political fortunes of the last century This innovative study traces the tangled interaction of Estonian historical memory and national identity in a sweeping analysis extending from the Great War to the present day At its heart is the enduring anguish of World War Two and the subsequent half century of Soviet rule *Shadowlands* tells this story by foregrounding the experiences of the country's intellectuals who were instrumental in sustaining Estonian historical memory but who until fairly recently could not openly grapple with their nation's complex difficult past *Dying Unneeded* Michelle A. Parsons, 2021-04-30 In the early 1990s Russia experienced one of the most extreme increases in mortality in modern history Men's life expectancy dropped by six years women's life expectancy dropped by three Middle aged men living in Moscow were particularly at risk of dying early deaths While the early 1990s represent the apex of mortality the crisis continues Drawing on fieldwork in the capital city during 2006 and 2007 this account brings ethnography to bear on a topic that has until recently been the province of epidemiology and demography Middle aged Muscovites talk about being unneeded *ne nuzhny* or having little to give others Considering this concept of being unneeded reveals how political economic transformation undermined the logic of social relations whereby individuals used their position within the Soviet state to give things to other people Being unneeded is also gendered while women are still needed by their families men are often unneeded by state or family Western literature on the mortality crisis focuses on a lack of social capital often assuming that what individuals receive is most important but being needed is more about what individuals give Social connections and their influence on health are culturally specific In Soviet times needed people helped friends and acquaintances push against the limits of the state crafting a sense of space and freedom When the state collapsed this sense of bounded freedom was compromised and another freedom became deadly This book is a recipient of the annual Norman L and Roselea J Goldberg Prize for the best project in the area of medicine *When the World Seemed New* Jeffrey A. Engel, 2017 The untold story of how George H W Bush faced a critical turning point of history the end of the Cold War based on unprecedented access to heretofore classified documents and dozens of interviews with key policymakers *Berlin 1961* Frederick Kempe, 2011-05-10 In June 1961 Nikita Khrushchev called Berlin the most dangerous place on earth He knew what he was talking about Much has been written about the Cuban Missile Crisis a year later but the Berlin Crisis of 1961 was more decisive in shaping the Cold War and more perilous It was in that hot summer that the Berlin Wall was constructed which would divide the world for another twenty eight years Then two months later and for the first time in history American and Soviet fighting men and tanks stood arrayed against each other only yards apart One mistake one nervous soldier one overzealous commander and the tripwire would be sprung for a war that could go nuclear in a heartbeat On one side was a young untested U S president still reeling from the Bay of Pigs disaster and a humiliating summit meeting that left him grasping for ways to respond It would add up to be one of the worst first year foreign policy performances of any modern president On the other side a Soviet premier hemmed in by the Chinese East Germans and hardliners in his own government

With an all important Party Congress approaching he knew Berlin meant the difference not only for the Kremlin's hold on its empire but for his own hold on the Kremlin Neither man really understood the other both tried cynically to manipulate events And so week by week they crept closer to the brink Based on a wealth of new documents and interviews filled with fresh sometimes startling insights written with immediacy and drama Berlin 1961 is an extraordinary look at key events of the twentieth century with powerful applications to these early years of the twenty first Includes photographs [Putin](#) Richard Sakwa,2007-11-13 The new edition of this extremely well received political biography of Vladimir Putin builds on the strengths of the first edition to provide the most detailed and nuanced account of the man his politics and his profound influence on Russian politics foreign policy and society New to this edition analysis of Putin's second term as President more biographical information in the light of recent research detailed discussion of changes to the policy process and the lites around Putin developments in state society relations including the conflicts with oligarchs such as Khodorkovsky review of changes affecting the party system and electoral legislation including the development of federalism in Russia details on economic performance under Putin including more discussion of the energy sector and pipeline politics Russia's relationship with NATO after the big bang enlargement EU Russian relations after enlargement and Russia's relations with other post Soviet states the conclusion brings us up to date with debates over the question of democracy in Russia today and the nature of Putin's leadership and his place in the world Putin is essential reading for all scholars and students of Russian politics

genocide imagines a future system of global governance under which the nation state itself is made subject to law The United Nations however has deflected the possibility of such a cosmopolitical law It selectively condemns genocide and has established an institutional structure that denies most peoples subjected to genocide of a realistic possibility of global justice lacks a robust international criminal tribunal or UN army and even encourages security cooperation among states that have proven to be destructive of peoples in the past Questions raised include What have been the causes of mass killing during the period since the United Nations Charter entered into force in 1945 How does mass killing spread across international borders and what is the role of resource wealth the arms trade and external interference in this process Have the United Nations or the International Criminal Court faced up to the problem of genocide and other forms of mass killing as is their mandate
