## **Rving Into Canadas Arctic:**

**Evolution of India's Polar Policies** Jawahar Bhagwat, Anurag Bisen, 2025-01-31 The book examines India's involvement in the Polar regions focusing on its historical evolution and current scientific and political efforts. It also offers suggestions for enhancing India's Polar policies which primarily revolve around climate change and scientific research. The book highlights that India's extensive coastline may be at risk due to the effects of global warming caused by the melting of the Arctic and other ice sheets. As a significant international player, India is well set up to have substantial influence on shaping the policies of Arctic nations to promote sustainable development projects as well as play a crucial role in the sustainable development of the Arctic particularly in light of the geopolitical changes resulting from the Ukraine conflict. This timely book also delves into key topics such as Arctic geopolitics, shipping and energy security. This analysis will be valuable for policymakers, diplomats, political scientists, academics and students with an interest in these areas. Defending NATO's Northern Flank Lon Strauss, Njord Wegge, 2023-11-01 This book investigates several aspects of military power and security in the North Atlantic and Arctic regions. NATO's northern flank is a large maritime and littoral theatre where NATO directly borders Russia's Northern Fleet Military Administrative Territory which is the location of some of Russia's most potent air, sea and land power capabilities. While military tensions on the northern flank had been relatively low for years, the Ukraine war and increased great power rivalry have altered that dynamic with heightened geopolitical tensions. This has increased the focus on military strategic competition in this northernmost region of the alliance. This book presents new assessments of several aspects of military power and security in the North Atlantic and Arctic regions. With an analysis of the security and political climate in the High North and of developments in Western military strategies, capabilities, doctrines and operational concepts, the volume seeks to bring together an holistic understanding of the strategic challenges and opportunities facing the North Atlantic states and NATO in this dynamic area of responsibility for the alliance. In doing this, the book provides key insights into the role of branch specific and joint approaches to power projection and operations in the High North which also include selected country case studies. This book will be of much interest to students of NATO military studies, security studies and International Relations. Negotiating the Arctic E.C.H. Keskitalo, 2004-06-01 This work draws upon the history of Arctic development and the view of the Arctic in different states to explain how such a discourse has manifested itself in current broader cooperation across eight states. Analysis based on organization developments from the late 1970s to the present shows that international region discourse has largely been forwarded through the extensive role of North American particularly Canadian networks and deriving from their frontier based conceptualization of the north. **Agricultural and Industrial Progress in Canada**, 1929 *Material Cultures in Canada* Thomas Allen, Jennifer Blair, 2015-06-08 *Material Cultures in Canada* presents the vibrant and diverse field of material culture studies in Canadian literary, artistic and political contexts today.
