**Sacral Space** Jari Jetsonen, Sirkkaliisa Jetsonen, 2003 Exploring the beauty of Finnish modern church buildings this study demonstrates how they appeal to the visitor with their minimalist character The essential strength of their architecture is illustrated within the presence of light and nature and the buildings and their interiors are depicted as attuned to the passing of each day and the change of seasons Conducting a tour through twelve churches and chapels from the 1940s to 1990s this examination includes the Resurrection Chapel by Erik Bryggman the Otaniemi Chapel by Kaija and Heikki Siren the Church of the Three Crosses by Alvar Aalto and more Construction photographs architects drawings and commentary are included and an accompanying article commenting on the uniqueness and history of each church building is also featured revealing the essentials of Finnish sacral architecture

**Finnish Summer Houses** Jari Jetsonen, Jetsonen Sirkkaliisa, 2008-03-20 Summer is when Finland is at its spellbinding best Emerging from a seven month long winter Finns head outdoors to savor the magical light of the all too brief Scandinavian summer Cityscapes give way to pristine lakes endless forests and idyllic seaside vistas The Finnish summer house offers a unique opportunity for their owners to relax get back in touch with nature and enjoy outdoor activities such as boating swimming and hiking Not surprisingly the architecture of the Finnish summer house occupies an almost mythic even mystical place in the hearts of their inhabitants as well as their architects Indeed many Finnish architects regard the design of their own summer residence or weekend studio as one of their most important works For them the summer house is not only a place to spend leisure time but also a chance to study specific technical details and experiment with new spatial concepts Finnish Summer Houses presents in detail twenty villas cottages and cabins by architects such as Eliel Saarinen Oiva Kallio Alvar Aalto and Juhani Pallasmaa among many others Authors Jari and Sirkkaliisa Jetsonen use contemporary photographs archival images drawings and plans to illustrate the diversity found in the designs of Finnish summer residences From Lars Sonck's Lassas Villa 1895 with its traditional farmhouse elements and Alvar Aalto's Muuratsalo Experimental House 1952-54 to Erkki Kairamo's sparse Villa Aulikki 1995-2003 which seems to grow out of its landscape the works in this book are of a highly personal nature indeed most of the summer houses are still used by the architect or the families of their children The very best examples of these fantastic summer homes are collected here making Finnish Summer Houses an inspiration for anyone dreaming about a summer home of their own
