realisation of life Rabindranath Tagore,2023-06-01 Reproduction of the original Sadhana Rabindranath Tagore,2021-10-12 Sadhana The Realisation of Life 1916 is a collection of essays by Rabindranath Tagore Published after Tagore received the 1913 Nobel Prize in Literature Sadhana The Realisation of Life contains the author s thoughts on selfhood the universe morality and beauty Inspired by the Upanishads the sacred foundational texts of Hinduism Tagore s collection bridges the gap between East and West ancient and modern in its search for universal truth The west seems to take a pride in thinking that it is subduing nature This sentiment is the product of the city wall habit and training of mind For in the city life man naturally directs the concentrated light of his mental vision upon his own life and works and this creates an artificial dissociation between himself and the Universal Nature within whose bosom he lies In this collection of essays Tagore is at his philosophical poetic best reflecting earnestly and with ease on matters public and private Grounded in the teachings of the Upanishads Sadhana The Realisation of Life is a text engaged with the role of tradition in an increasingly alienated and individualistic modern world With a beautifully designed cover and professionally typeset manuscript this edition of Rabindranath Tagore s Sadhana The Realisation of Life is a classic of Indian literature reimagined for modern readers SADHANA RABINDRANATH. TAGORE,2018 *Sadhan* Rabindranath Tagore,2002 Sadhana was first published in 1913 It contains eight essays and was written during Tagore s six month stay in the USA in 1912 1913 Tagore hoped that through these essays western readers will have an opportunity of coming into touch with the ancient spirit of India as revealed in our sacred texts and manifested in the life of today Tagore used some of the translations done by Satish Chandra Ray and Ajit Kumar Chakravarti of passages from his discourses in Bengali given to the students of Santiniketan The Sixth lecture The Realization of Action is translated by Surendranath Tagore from Karmayog Sadhana, Or the Realisation of Life Rabindranath Tagore,1966 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Sadhana** Rabindranath Tagore,2015-07-13 Excerpt from Sadhana The Realisation of Life Perhaps it is well for me to explain that the subject matter of the papers published in this book has not been philosophically treated nor has it been approached from the scholar s point of View The writer has been brought up in a family where texts of the

Upanishads are used in daily worship and he has had before him the example of his father who lived his long life in the closest communion with God while not neglecting his duties to the world or allowing his keen interest in all human affairs to suffer any abatement So in these papers it may be hoped western readers will have an opportunity of coming into touch with the ancient spirit of India as revealed in our sacred texts and manifested in the life of today About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

S_dhan_ Rabindranath Tagore,2013-04-21 The civilisation of ancient Greece was nurtured within city walls In fact all the modern civilisations have their cradles of brick and mortar These walls leave their mark deep in the minds of men They set up a principle of divide and rule in our mental outlook which begets in us a habit of securing all our conquests by fortifying them and separating them from one another We divide nation and nation knowledge and knowledge man and nature It breeds in us a strong suspicion of whatever is beyond the barriers we have built and everything has to fight hard for its entrance into our recognition When the first Aryan invaders appeared in India it was a vast land of forests and the new comers rapidly took advantage of them These forests afforded them shelter from the fierce heat of the sun and the ravages of tropical storms pastures for cattle fuel for sacrificial fire and materials for building cottages *Sadhana* Rabindranath Tagore,2013-10 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book **Sadhana â**

Sadhana Rabindranath

Tagore,2020-11-20 We have seen that it was the aspiration of ancient India to live and move and have its joy inBrahma the all conscious and all pervading Spirit by extending its field of consciousness over all the world But that it may be urged is an impossible task for man to achieve If this extension of consciousness be an outward process then it is endless it is like attempting to cross the ocean after ladling out its water By beginning to try to realise all one has to end by realising nothing But in reality it is not so absurd as it sounds Man has every day to solve this problem of enlarging his region and adjusting his burdens His burdens are many too numerous for him to carry but he knows that by adopting a system he can lighten the weight of his load Whenever they feel too complicated and unwieldy he knows it is because he has not been able to hit upon the system which would have set everything in place and distributed the weight evenly This search for system is really a search for unity for synthesis it is our attempt to harmonise the heterogeneous complexity of outward materials by an inner adjustment In the search we gradually become aware that to find out the One is to possess the All that there indeed is our last and highest privilege It is based on the law of that unity which is if we only know it our abiding strength Its living principle is the power that is in truth the truth of that unity which comprehends multiplicity Facts are many but the truth is one The animal intelligence knows facts the human mind has power to apprehend truth The apple falls from the tree the rain descends upon the earth you can go on burdening your memory with such facts and never come to an end But once you get hold of the law of gravitation you can dispense with the necessity of collecting facts ad infinitum You have got at one truth which governs numberless facts This discovery of truth is pure joy to man it is a liberation of his mind For a mere fact is like a blind lane it leads only to itself it has no beyond But a truth opens up a whole horizon it leads us to the infinite That is the reason why when a man like Darwin discovers some simple general truth about Biology it does not stop there but like a lamp shedding its light far beyond the object for which it was lighted it illumines the whole region of human life and thought transcending its original purpose Thus we find that truth while investing all facts is not a mere aggregate of facts it surpasses them on all sides and points to the infinite reality **Sādhana; the realisation of life, by Rabindranath Tagore**
