Writing Double

Bette London, 2002-01-01 Although Roland Barthes and Michel Foucault announced the death of the author several decades ago critics have been slow to abandon the idea of the solitary writer Bette London maintains that this notion has blinded us to the reality that writing is seldom an individual activity and that it has led us to overlook both the frequency with which women authors have worked together and the significance of their collaborative undertakings as a form of professional activity In *Writing Double* the first full length treatment of women s literary partnerships she goes to the heart of issues surrounding authorial identity What is an author Which forms of authorship are sanctioned and which forms marginalized Which of these forms have particularly attracted women Such questions are central to London s analysis of the challenge that women s literary collaboration presents to accepted notions of authorship Focusing on British texts from the nineteenth and twentieth centuries she considers a fascinating variety of works by largely noncanonical and in some instances highly unconventional authors from the enormously popular novels composed by writing teams at the turn of the century to the Bront juvenilia and the occult scripts of Georgie Yeats and W B Yeats to automatic writings produced by mediums purporting to be in communication with the spirit world

The Professional Literary Agent in Britain, 1880-1920

Mary Ann Gillies, 2007-01-01 Breaking new ground in the study of British literary culture during an important transitional period this new work by Mary Ann Gillies focuses on the professional literary agent whose emergence in Britain around 1880 coincided with and accelerated the transformation of both publishing and authorship Like other recent studies in book and print culture *The Professional Literary Agent in Britain 1880 1920* starts from the central premise that the business of authorship is inextricably linked with the aesthetics of literary praxis Rather than provide a broad overview of the period however Gillies focuses on a specific figure the professional literary agent She then traces the influence of two prominent agents A P Watt generally acknowledged as the first professional literary agent and J B Pinker the leading figure in the second wave of agents focusing on their respective relationships with two key clients The case studies not only provide insight into the business dynamics of the literary world at this time but also illustrate the shifting definition of literature itself during the period

Women's Literary Collaboration, Queerness, and Late-Victorian Culture

Jill R. Ehnenn,2017-05-15 The first full length study to focus exclusively on nineteenth century British women while examining queer authorship and culture Jill R Ehnenn s book is a timely interrogation into the different histories and functions of women s literary partnerships For Vernon Lee Violet Paget and Kit Anstruther Thomson Somerville and Ross Edith Somerville and Violet Martin Elizabeth Robins and Florence Bell and Katharine Bradley and Edith Cooper the couple who wrote under the pseudonym of Michael Field collaborative life and work functioned strategically as sites of discursive resistance that critique Victorian culture in

ways that would be characterized today as feminist lesbian and queer Ehnenn s project shows that collaborative texts from such diverse genres as poetry fiction drama the essay and autobiography negotiate many limitations of post Enlightenment patriarchy Cartesian subjectivity and solitary creativity industrial capitalism and alienated labor and heterosexism In so doing these jointly authored texts employ a transgressive aesthetic and invoke the potentials of female spectatorship refusals of representation and the rewriting of history Ehnenn s book will be a valuable resource for scholars and students of Victorian literature and culture women s and gender studies and collaborative writing
