Selected Readings In Macroeconomics And Capital Theory From Econometrica Mit:

Selected Readings in Macroeconomics and Capital Theory from Econometrica David Cass, 1974 A great many of the most important developments in modern economics were first revealed in the pages of *Econometrica* This selection of readings from that journal is the third in a series and contains its editors choice of the best articles in the general area of macroeconomics and capital theory that appeared in issues dating from 1935 to 1966 A broad range of topics is covered in the 27 articles selected in order to indicate the general extent of the field A few of the articles were microeconomic in their original intent but have a clear influence on later macroeconomic theory

Selected Readings in Macroeconomics and Capital Theory from Econometrica David Cass, Lionel W. McKenzie, 2003-02-01 A great many of the most important developments in modern economics were first revealed in the pages of *Econometrica* This selection of readings from that journal is the third in a series and contains its editors choice of the best articles in the general area of macroeconomics and capital theory that appeared in issues dating from 1935 to 1966 A broad range of topics is covered in the 27 articles selected in order to indicate the general extent of the field A few of the articles were microeconomic in their original intent but have a clear influence on later macroeconomic theory

General Equilibrium, Growth, and Trade Jerry R. Green, José Alexandre Scheinkman, 2014-05-10 *General Equilibrium Growth and Trade Essays in Honor of Lionel McKenzie* provides information pertinent to the three main areas of Professor McKenzie's scientific research namely international trade economic growth and general equilibrium theory This book highlights the main aspects of McKenzie's work Organized into three parts encompassing 21 chapters this book begins with an overview of the regularizing effects of aggregation over nonregular microrelations This text then examines the theory of a multiperiod monopolist incurring nonseparable labor adjustment costs which is developed when investment is irreversible Other chapters consider the behavior of a price maker in a competitive market as a preliminary step to a more complete analysis of pure competition This book discusses as well the effects of uncertainty on optimal decisions which constitutes an increasingly essential area of economic research The final chapter deals with the general equilibrium macroeconomic model This book is a valuable resource for economists and economic theorists

The Palgrave Companion to MIT Economics Robert A. Cord, 2025-07-10 The Massachusetts Institute of Technology has been and continues to be one of the most important global centres for economics With four chapters on themes in MIT economics and 38 chapters on the lives and work of MIT economists this book shows how economics became established at the Institute how it produced some of the world's best known economists including Paul Samuelson Franco Modigliani and Robert Solow and how it remains a global force for the very best in teaching and research in economics With original contributions from a stellar cast the volumes provide economists especially those interested in macroeconomics and the history of economic thought with an in depth analysis of MIT economics

Russian and Western Economic Thought Vladimir Avtonomov, Harald Hagemann, 2022-10-03 This book examines the interrelations between Russian and European

economics from the early 19th century to the present It analyzes how Western economic thinking such as classical economics and the marginal revolution influenced Russian economic thinking and how Western economic ideas were modified and adapted to better reflect the specific Russian circumstances of the time Moreover the contributions in this book show how these modified ideas also influenced Western economists at the end of the 19th century when Russian economics had reached the stage of professionalism and joined the international discourse on the discipline Written by an international selection of respected experts this book provides an overview of the most influential Russian economists and covers a wide range of topics such as the marginal revolution the specific influence of Marxism the evolution of mathematics and statistics in Russia in the 1890s 1920s and the unique experience of building a planned economy in the Soviet Union It is intended for all scholars and students who are interested in the history of economic thought The Bankers Magazine ,1976

Theories of Technical Change and Investment Chidem Kurdas,2016-07-27 Technology is becoming ever more widely recognised as the crucial element in the explanation of economic growth and business fluctuations Yet the relationship between investors rationality and investment strategy remains ill understood and is often constructed in contradictory fashion Chidem Kurdas s lucid exploration of the problem provides the basis for a synthesis that should prove extremely useful it is the most original book of its kind that I know Professor Heilbroner The New School for Social Research New York What is involved in the rational calculation behind the decision to invest and innovate This book compares the different answers given to this question from the early classics to recent new classical and new institutionalist models in a both rigorous and accessible way □□□□□□□□ ,1976 **Books in Series** ,1980 Theory Of Interregional And International Economics, A: Integrating Neoclassical Growth Theory And New Economic Geography Wei-bin Zhang,2024-12-13 The contemporary global economy is characterized by complex and nonlinear dynamics of interregional and international economic interactions The complexity is associated with endogenous changes in wealth human capital technology population economic structures and gender relations It is obviously necessary to construct a theory to connect all these changes in a single analytical framework with minimum assumptions Nevertheless mainstream economic theory on spatial economics is mostly static and partial This book expands on spatial economics by integrating various theories of spatial economics into a comprehensive and analytical framework through mathematical modelling and computing This book is part of the author s general economic theory with endogenous population capital knowledge preferences sexual division of labor and consumption institutions economic structures and exchange values over time and space It focuses on further developing the theory of interregional and international economies and encompasses dynamic relations between population growth human capital and wealth accumulation environmental change gender institutions market structures the division of labor and consumption and the determination of price structure among regions and nations in a single analytical framework

Money, Banking and Macroeconomics James M. Rock,1977 *Subject Guide to Books in Print* ,1971 **The American**

Economic Review ,1975 Includes annual List of doctoral dissertations in political economy in progress in American universities and colleges and the Hand book of the American Economic Association Library of Congress Catalogs Library of Congress,1976 **Monographic Series** Library of Congress, *Reconstruction of Macroeconomics: Methods of Statistical Physics, and Keynes' Principle of Effective Demand* Hiroshi Yoshikawa,2022-10-29 This book explains how standard micro founded macroeconomics is misguided and proposes an alternative method based on statistical physics The Great Recession following the bankruptcy of Lehman Brothers in September 2008 amply demonstrated that mainstream micro founded macroeconomics was in trouble The new approach advanced in this book reasonably explains important macro problems such as employment business cycles growth and inflation deflation The key concept is demand failures which modern micro founded macroeconomics has ignored It Chapter 3 captures analytically a good part of the intuition that underlies the Keynesian economics of people like Tobin and me Robert Solow Emeritus Institute Professor of Economics Massachusetts Institute of Technology Nobel Laureate in Economics 1987 Professor Hiroshi Yoshikawa provides a unique synthesis of statistical physics and macro economic theory in order to confront the dismal failure in economics and in finance to understand how an economy or a financial market works given the heterogeneous decision making of many different individual interacting actors Economics has failed in this regard with the naive and often misleading concept of representative agents The author presents many insights on the historical development concepts and errors made by the most illustrious economists in the past This book should be essential readings for any economics students as well as academic researchers and policy makers who should learn to bring back good sense thinking in their impactful decisions Didier Sornette Professor on the Chair of Entrepreneurial Risks at the Swiss Federal Institute of Technology Zurich ETH Zurich *Economic Dynamics: Methods and Models* G Gandolfo,1971-01-01 Economic Dynamics Methods and Models aims to give a simple but comprehensive treatment of mathematical methods used in economic dynamics and show how they are utilized to build and to analyze dynamic models The text also focuses on methods and every mathematical technique introduced is followed by its application to selected models The book is divided into three different parts Part I Different Equations discusses general principles first order second order higher order equations simultaneous systems and their economic applications Part II Differential Equations also discusses the same areas as those in Part I but instead features differential equations as what the section name suggests Part III More Advanced Material covers comparative statistics and the comparative principle stability of equilibrium and Liapunov s second method and linear mixed differential and difference equations as well as its other related topics The text is recommended for mathematicians and economists who have an idea on advanced mathematics and would like to know more about its applications in economics **Econometrics:**
Econometrics and the cost of capital : essays in honor of Dale W. Jorgenson Dale Weldeau Jorgenson,2000 This volume summarizes the economic theory the econometric methodology and the empirical findings resulting from the new

approach to econometric modelling of producer behaviour

On Ethics and Economics Kenneth J. Arrow, 2016-08-25 Part intellectual autobiography and part exposition of complex yet contemporary economic ideas this lively conversation with renowned scholar and public intellectual Kenneth J Arrow focuses on economics and politics in light of history current events and philosophy as well Reminding readers that economics is about redistribution and thus about how we treat each other Arrow shows that the intersection of economics and ethics is of concern not just to economists but for the public more broadly With a foreword by Amartya Sen this book highlights the belief that government can be a powerful force for good and is particularly relevant in the current political climate and to the lay reader as well as the economist

The Political Economy of Trade Policy Robert C. Feenstra, Gene M. Grossman, Douglas A. Irwin, 1996 This collection of papers by former students and colleagues celebrates the profound impact that Jagdish Bhagwati has had on the field of international economics over the past three decades Bhagwati who is the Arthur Lehman Professor of Economics at Columbia University has made pathbreaking contributions to the theory of international trade and commercial policy including immiserizing growth domestic distortions economic development and political economy His success and influence as a teacher and mentor is widely recognized among students at both MIT and Columbia and as founder of the Journal of International Economics he has encouraged research on many questions of theoretical and policy relevance The political economy of trade policy Bhagwati s most recent area of interest is the theme of this collection which addresses salient topics including market distortions income distribution and the political process of policy making
