Life Embodied Nicolás Fernández-Medina,2018-05-30 The concept of vital force the immanent energy that promotes the processes of life in the body and in nature has proved a source of endless fascination and controversy Indeed the question of what vitalizes the body has haunted humanity since antiquity and became even more pressing during the Scientific Revolution and beyond Examining the complexities and theories about vital force in Spanish modernity Nicol's Fern'ndez Medina's *Life Embodied* offers a novel and provocative assessment of the question of bodily life in Spain Starting with Juan de Cabriada's landmark *Carta filosofica m' dico chymica* of 1687 and ending with Ram' n G'mez de la Serna's avant gardism of the 1910s Fern'ndez Medina incorporates discussions of anatomy philosophy science critical theory history of medicine and literary studies to argue that concepts of vital force served as powerful vehicles to interrogate the possibilities and limits of corporeality Paying close attention to how the body's capabilities were conceived and strategically woven into critiques of modernity Fern'ndez Medina engages the work of Miguel Boix y Moliner Mart' n Mart

practical guide for living or even itself a way of life This volume of essays brings historical views about philosophy as a way of life coupled with their modern equivalents more prevalently into the domain of the contemporary scholarly world Illustrates how the articulation of philosophy as a way of life and its pedagogical implementation advances the love of wisdom Questions how we might convey the love of wisdom as not only a body of dogmatic principles and axiomatic truths but also a lived exercise that can be practiced Offers a collection of essays on an emerging field of philosophical research Essential reading for academics researchers and scholars of philosophy moral philosophy and pedagogy also business and professional people who have an interest in expanding their horizons **Graham Greene** Robert Hoskins,2004-11-23 This study reveals Greene

in a dual role as author one who projects literary experience into his view of life and subsequently projects both his experience and its literary interpretation into his fiction and it defines two phases of Greenes novels through the changing relationship between writer and protagonists The first phase progresses from acutely sensitive self divided young men somewhat like the young Greene to embittered alienated characters ostensibly at great distance from their creator The second phase 1939 includes a series of portraits of the artist through which Greene confronts more directly the tensions and conflicts of his private life **Approaches to Teaching the Works of Miguel de Unamuno** Luis

Álvarez-Castro,2020-04-01 Offers pedagogical techniques for teaching the fiction poetry plays and philosophical works of Miguel de Unamuno in college Spanish and comparative literature classrooms including considerations of romanticism modernity Catholicism existentialism autofiction and metafiction Includes information on reference works and online resources Gives syllabus suggestions for undergraduate and graduate courses [The Consciousness Revolutions](#) Shimon Edelman,2023-04-06 This book is about all things consciousness great and small It starts by pointing to the key characteristic of consciousness without realizing which it cannot be understood like everything else about the mind it is fundamentally a kind of computation Among many other matters this explains how it is that we share some aspects of consciousness with bacteria how it can arise in artificial machines and not just living ones how the empty cocoon of the self that it spins ends up pretending to be the butterfly and how consciousness dooms this virtual butterfly to the splendor and the suffering of being awake and aware Unlike most other books on consciousness this one includes a discussion of some possible ways whereby we pinned like butterflies by our species history and socioeconomic circumstances can awake to our collective predicament and join forces to do something about it It should be of interest to all readers who care about the nature of our lived experience and about our survival which depends on developing critical consciousness of our dire situation and the social dynamics that shape it
