Gorakhpuri: Selected Poetry Firāq Gorakhpūrī, 2000 **ORPHANED AT FREEDOM - A SUBCONTINENT'S TALE** Arun Bhatnagar, 2022-07-11 In the middle of August 1947 two nations the Dominion of India and the Dominion of Pakistan came into being through a Partition of the British Indian Empire The Princely States which owed their existence to the British acceded to either of the two Dominions Jinnah as Governor General of Pakistan and Nehru as Prime Minister of India took the oath of office swearing allegiance to George VI who was still the King of both the Dominions but no longer the Rex Imperator or King Emperor The Dominions eventually emerged as the Republic of India in 1950 and the Islamic Republic of Pakistan in 1956 Twenty five years on in 1972 a third country the People's Republic of Bangladesh was born out of the liquidation of East Pakistan A United India if it had been preserved may have been an equal militarily and economically of the People's Republic

of China Arun Bhatnagar's Book is an engaging and absorbing account of a Subcontinent that passed through the High Noon of Empire saw unity dissolving into division and experienced euphoria and despair progress and tragedy victory and defeat The narrative during the years 1911 1999 traverses by way of the life story of an Indian member of the ICS later a practicing Barrister and Politician various dimensions of history politics economy culture and administration The Afterword conveys the reader into the twenty first century when unfriendly neighbours are in alliance to thwart New Delhi's interests Literacy in the Persianate World Brian Spooner, William L. Hanaway, 2012-03-19 Persian has been a written language since the sixth century B C Only Chinese Greek and Latin have comparable histories of literacy Although Persian script changed first from cuneiform to a modified Aramaic then to Arabic from the ninth to the nineteenth centuries it served a broader geographical area than any language in world history It was the primary language of administration and belles lettres from the Balkans under the earlier Ottoman Empire to Central China under the Mongols and from the northern branches of the Silk Road in Central Asia to southern India under the Mughal Empire Its history is therefore crucial for understanding the function of writing in world history Each of the chapters of Literacy in the Persianate World opens a window onto a particular stage of this history starting from the reemergence of Persian in the Arabic script after the Arab Islamic conquest in the seventh century A D through the establishment of its administrative vocabulary its literary tradition its expansion as the language of trade in the thirteenth century and its adoption by the British imperial administration in India before being reduced to the modern role of national language in three countries Afghanistan Iran and Tajikistan in the twentieth century Two concluding chapters compare the history of written Persian with the parallel histories of Chinese and Latin with special attention to the way its use was restricted and channeled by social practice This is the first comparative study of the historical role of writing in three languages including two in non Roman scripts over a period of two and a half millennia providing an opportunity for reassessment of the work on literacy in English that has accumulated over the past half century The editors take full advantage of this opportunity in their introductory essay PMIRC volume 4 **Shakespeare** Victor Kiernan, 2016-02-15 This book rests on a lifetime's thinking about history It helps us see Shakespeare in a more realistic light Times Literary Supplement Although Shakespeare is rightly celebrated for the continued relevancy of his plays and poetry today we too often lose sight of the wider historical context which shaped his work In Shakespeare Poet and Citizen Victor Kiernan shows that Shakespeare was profoundly sensitive to the great social and political upheavals of his age Shakespeare's life coincided with the first challenges to the institution of monarchy as well as far reaching transformations in the social hierarchy By placing the plays within this context of an emerging modernity Kiernan upends our perception of Shakespeare's writings He shows that these social transformations and especially the changing roles of women are crucial to our understanding of the Comedies in which the confusion of identity disguise and cross dressing play a central role while the Histories similarly reflect the demise of feudal allegiances and the development of the modern state Featuring a new introduction by Michael

Sunni Chauvinism and the Roots of Muslim Modernism Teena Purohit, 2023-05-16 Teena Purohit's new account of Muslim modernism is distinctive in that she seeks to highlight something that has gone unnoticed in previous accounts of the Muslim modernist story it has had a decided Sunni bias and has been linked to calls for suppression of minority Muslim communities Such communities including the Shi'a Ismailis Ahmadis and Bahai's have often been disparaged in Muslim modernist thought as sectarian or deviant and thus as not fully or authentically Muslim In this book Purohit reveals how a succession of key Muslim modernist thinker activists from the colonial anti colonial nationalist and post colonial Islamist eras shared an obsession with Muslim unity that implicitly relied on a Sunni majoritarian perspective Not coincidentally this perspective was also held by European orientalist scholars of Islam who like the Muslim modernists were deeply influenced by notions of sect and heresy that had their origin in Christianity
