

# VALLARD ATLAS - 1547 -

An upside-down world

Have you ever dreamed of having a key piece of modern history in your private library?

The *Vallard Atlas* contains 15 lavishly illustrated nautical charts and is a wonderful testimony to the Age of Discovery. Curiously enough North is placed at the bottom of the page, a common practice in Muslim cartography. Some charts reveal the main features of the eastern coast of Australia, depicted 200 years before Capitan Cook disembarked there!
