**Causality and Containment in Seventeenth-Century Chinese Fiction** McMahan, 2023-07-31 A number of features characterize late Ming vernacular fiction as part of the general cultural expansion of that period These features centrally include the exposition of sexual transgression and the function of containment by which is meant the ideology of the control of desires The late Ming writers are studiously devoted to illustrating minute obscene or erotic details that belie the decorum of the orthodox surface However this subversiveness of detail decreases in intensity from the late Ming to the early Qing when values of containment are reinvoked Related topics are the theme of causality and its role in the story's mapping of the logic of adultery adultery as an emblem of the woman's escape from containment and the use of the narrative topos of the gap in the wall as a locus of sexual transgression

**Chinese Law** Jianfu Chen, 2023-09-25 Law in particular its actual functioning in any given society is above all a part of the culture of that society a part of its historical political social and intellectual creation If a black letter approach towards law in the West is under increasing criticism it is particularly unhelpful if not misleading in understanding Chinese law its nature and developments Rather to understand Chinese law its nature and developments we need to examine the Chinese legal traditions the prevailing political and economic situations Party policies on economic reform and tolerance towards political liberalisation and scholarly discussions and debate This is the approach of this book Its aim is to put Chinese law in context to outline the nature and present status of its development and to analyse the meaning of the law within the Chinese context However this monograph does not ignore the practical needs for determining the precise contents of the black letter law either A study of this kind necessarily involves a process of topic selection However to avoid over generalisation and over simplification it also demands a considerable degree of comprehensiveness in coverage For this reason the book covers what the Chinese scholars term fundamental law and basic branches of law while other topics are covered because they are either crucial for the understanding of the law such as legal traditions in China or of practical importance such as foreign investment and trade Chapter One provides an historical background to traditional Chinese legal culture and modern law reforms The historical background of specific topics is examined as the topics are analysed in the following chapters Chapter Two deals with the changing fate of law under Communist rule Its focus is on the underlying factors and justifications for such changes Chapter Three introduces discussions on specific branches of law from public law constitutional law law making administrative law criminal law criminal procedure law to private law civil law family law contracts law on business entities and law on foreign investment and trade Each of these is dealt with in a separate chapter After the analysis of these substantial topics certain conclusions

are drawn which attempt to define the nature of Chinese law and its developments in present day China
