Self Disclosure In The Therapeutic Relationship:

Psychotherapist Revealed Andrea Bloomgarden, Rosemary B. Mennuti, 2010-06-10 In this edited volume the real dialogue begins Therapists speak openly and honestly about their self disclosure practices decisions and clinical dilemmas Bloomgarden and Mennuti bring together research training and tales from their clinical experience to illuminate lessons derived from their own journeys toward judicious balanced self disclosure practices In a readable fashion the stories highlight a variety of self disclosure and boundary issues that occur in the course of psychotherapy Numerous treatment modalities and clinical orientations are represented The collective wisdom offered through these stories which includes suggested guidelines and a standard of care for good practice will assist the reader in developing a better understanding of what it means to self disclose appropriately recognizing a flexible middle ground between too much and too little along with responsiveness to client need The Freudian based taboo that rigidly warns against all self disclosure is antiquated and a more reasonable balanced perspective is under way As a psychotherapeutic community including psychologists social workers art therapists counselors dance movement therapists who are all represented in this book it is time to talk openly about a balanced judicious and therapeutically appropriate approach to self disclosure and boundaries Bravely that is exactly what the authors in this book have done

Self-Disclosure in the Therapeutic Relationship M. Fisher, Sharon A. Shuman, 2013-11-11 The editors of the present volume were also privileged to collaborate on an earlier book *Intimacy* also published by Plenum Press In our preface to that volume we described the importance and essence of intimacy and its centrality in the domain of human relationships After reading the contributions to that volume a number of issues emerged and pressed for elaboration These questions concerned the nature and parameters of intimacy The natural extension of these concerns can be found in the current work *Self Disclosure in the Therapeutic Relationship* The editors after careful consideration of the theoretical philosophical and technical literature are impressed by the relationship between intimacy and appropriate self disclosure Self disclosure in this context refers to those behaviors that allow oneself to be sufficiently revealing so as to become available for an intimate relationship Levenson has referred to psychotherapy as the demystification of experience wherein intimacy emerges during the time that interpersonal vigilance diminishes through growing feelings of safety Interpersonal experience can be demystified and detoxified by disclosure openness and authentic relatedness This is not an easy process Before one can be open make contact or reach out with authenticity one must be available to oneself This means making contact with and accepting the dark fearful and of ten untouched areas within the person that are often hidden even from oneself The process of therapy enables those areas to gain consciousness be tolerated and be shared with trusted others

Beyond the Therapeutic Relationship Frederic J. Leger, 2014-07-16 Seeking to transfer knowledge across ideological boundaries within a theoretically valid scientific framework Beyond the Therapeutic Relationship draws upon and relates existing research from psychotherapy and the allied fields of human behavior Author Frederic J Leger has successfully cut across multifarious therapies to create an integrated high order theory that unites psychotherapy's disparate forces In the process he addresses the theoretical underpinnings of the field of psychotherapy the paradigm of the therapeutic relationship and its centrality to therapeutic change the difficulties of creating a scientific discipline from the study of the psyche and the factionalization of psychology into different competing schools By exploring universal variables and how they fit into a causal nexus Beyond the Therapeutic Relationship identifies transtheoretical processes of change that cut across diverse therapies It also offers heuristic research direction and guidance in eclectic and integrative practice as it broadens the perspective on the psychotherapeutic encounter Combining physiological social and psychological research into a transtheoretical psychodynamic theory this important text discusses why the need for paradigmatic direction is urgent bringing nonverbal variables to the therapist's working awareness or focus

how a small range of conceptual possibilities limits knowledge of human behavior the lack of efficacy in psychotherapy the psychobiological significance of intensive experiential exploration formation of the self through language and discourse integrative eclecticism within transtheoretical and common factors integration Psychologists psychiatrists mental health therapists and academics and students in psychology psychiatry and educational psychology now have a text that cuts across the multitude of therapeutic approaches to provide a theory that is empirically supported and grounded in the author's 25 years of clinical practice As you will see *Beyond the Therapeutic Relationship* discusses the current position of the field of psychotherapy where it needs to go specific strategies for getting there as well as alternative interventions beyond empathy and the therapeutic relationship

Disclosure and Concealment in Psychotherapy Sarah Knox, Clara Hill, 2018-10-11

Although clients disclose many of their concerns to therapists they often choose to conceal some of their concerns as well Equally therapists occasionally reveal something of themselves to clients via therapist self disclosure but typically keep the focus on clients Such disclosure whether by clients or therapists is seldom easy and is instead often fraught with questions as to what how much and why to disclose as well as concerns regarding the consequences of disclosure Clearly disclosure or the lack thereof is an important phenomenon of the therapy endeavour The chapters included in this book examine various aspects of the disclosure and concealment phenomena whether from client or therapist perspective Contributions examine the relationship of therapist self disclosure to alliance and outcome the phenomenon of therapist self disclosure in psychodynamic therapy client concealment and disclosure of secrets in therapy young adults disclosures in psychotherapy and on Facebook and lying in psychotherapy Each offers intriguing insights into the disclosure or lack of disclosure in psychotherapy from the therapist or client perspective This book was originally published as a special issue of *Counselling Psychology Quarterly*
