Self Freedom And Transcendence:

Self, Freedom, and Transcendence Sheila McGarry Bruening, William H. Bruening, 1990-01-01 **Freedom and Transcendence** Krishna Chaitanya, 1982 **Global Democracy and Human Self-Transcendence** Glen T. Martin, 2019-01-15 This volume examines the dynamics of self transcendence for both individuals and humanity as a whole In doing so it illuminates the definitive relationship between self transcendence and global democracy Drawing upon a vast literature of philosophy psychology and religion ancient and modern East and West this book reveals the power of human futurity in actualizing our higher potential It represents a real breakthrough in understanding our emerging new era in the evolution of humanity It describes our transition from personal consciousness to global consciousness The book includes chapters on the fundamental ideas that animate our self understanding and define our common humanity Through careful scholarship it examines the dynamics of human dignity freedom love community intrinsic rights and global ethics It explores each of these concepts as a dimension of our human temporality as we envision and move into an ever transcending future a future that includes a World Parliament and planetary democracy In our time of apparent hopelessness and despair this volume reveals the grounds for a powerful hope that we can establish one world civilization of peace justice freedom and sustainability It makes a truly unique contribution not found elsewhere in today s literature revealing the astonishing dignity and potential of being human It is essential reading for all those concerned for the future of humanity and our precious planet Earth **Hans Kelsen in America - Selective Affinities and the Mysteries of Academic Influence** D.A. Jeremy Telman, 2016-08-26 This volume explores the reasons for Hans Kelsen s lack of influence in the United States and proposes ways in which Kelsen s approach to law philosophy and political democratic and international relations theory could be relevant to current debates within the U S academy in those areas Along the way the volume examines Kelsen s relationship and often hidden influences on other members of the mid century Central European migr community whose work helped shape twentieth century social science in the United States The book includes major contributions to the history of ideas and to the sociology of the professions in the U S academy in the twentieth century Each section of the volume explores a different aspect of the puzzle of the neglect of Kelsen s work in various disciplinary and national settings Part I provides reconstructions of Kelsen s legal theory and defends that theory against negative assessments in Anglo American jurisprudence Part II focuses both on Kelsen s theoretical views on international law and his practical involvement in the post war development of international criminal law Part III addresses Kelsen s theories of democracy and justice while placing him in dialogue with other major twentieth century thinkers including two fellow migr scholars Leo Strauss and Albert Ehrenzweig Part IV explores Kelsen s intellectual legacies through European and American perspectives on the interaction of Kelsen s theoretical approach to law and national legal traditions in the United States and Germany Each contribution features a particular applications of Kelsen s approach to doctrinal and interpretive issues currently of interest in the legal

academy The volume concludes with two chapters on the nature of Kelsen's legal theory as an instance of modernism

Self-Deception and Wholeness in Paul and Matthew Dan O. Via, 2005-10-18 Via uses the concept of self deception as a vantage point for understanding something about Paul and Matthew Employing an existential method in the broad sense Via asks about the nature of a pervasive phenomenon of human existence with some attention given to psychological aspects Nevertheless this study is primarily exegetical and interpretive aimed at theological understanding rather than intensively methodological Positing that self deception is a deformation Via undertakes to pay attention primarily to the subversion of the self and the recovery of wholeness Additionally attention is paid to self deception as a social phenomenon and some consideration is given to its social causes and implications Reinhold Niebuhr Revisited Daniel F. Rice, 2009-07-10 In 2007 then presidential candidate Barack Obama called Reinhold Niebuhr 1892-1971 his favorite philosopher Reinhold Niebuhr Revisited offers fresh and creative ways of looking at this influential American theologian's views on religion politics and culture through the eyes of diverse respected scholars *Formation and the Person* Alessandro Manenti, Stefano Guarinelli, Hans Zollner, 2007 This book gathers the foundational concepts which characterise the approach to the person as human and as Christian which has been developed at the Institute of Psychology of the Pontifical Gregorian University during its more than 35 years of activity The book directs these concepts towards further paths for investigation and puts them in dialogue with sister schools of depth psychology and with other areas of scholarship in particular philosophy and theology which are equally interested in exploring the human mystery Hence the variety of authors psychologists philosophers and theologians brought together by a common interest in understanding and forming the human person in better ways The reflections contained in this book gain concrete expression in an educative therapeutic practice and they review the nodal points which are part of every journey of growth and of psychotherapy personal identity interaction with the external world and the attainment of personal truth inner imagination desires and affections conflicts Instruments are offered to enable the formator and the psychotherapist to make the best possible use of the great energies which are made available by their application how to identify the real problem where to concentrate one's attention what to listen to how to handle the relationship on what element to act in order to promote improvement cure what kind of change to propose While accompaniment and psychotherapy are different procedures they nevertheless have many similarities and points of contact The dynamic relations and the factors involved in growth which this book describes are valid for both modalities of intervention and will be of interest to anyone who wishes to help others in a more enlightened educative dialogue

Logotherapy and Existential Analysis Alexander Batthyány, 2016-04-08 This landmark volume introduces the new series of proceedings from the Viktor Frankl Institute dedicated to preserving the past disseminating the present and anticipating the future of Franklian existential psychology and psychotherapy i.e. logotherapy and existential analysis Wide ranging contents keep readers abreast of current ideas findings and developments in the field while also presenting rarely seen selections

from Frankl's work. Established contributors report on new applications of existential therapies in specific OCD, cancer, end of life issues, and universal the search for meaning contexts, as well as intriguing possibilities for opening up dialogue with other schools of psychology. And this initial offering establishes the tenor of the series by presenting varied materials across the field, including archival and unpublished articles and lectures by Frankl, peer-reviewed studies on logotherapy process measures, and research. New case studies using logotherapy and existential analysis in diverse settings. Papers advocating cross-disciplinary collaboration. Philosophical applications of existential psychology. Critical reviews of logotherapy-related books. Volume 1 of *Logotherapy and Existential Analysis* will attract a wide audience, including psychologists, clinical social personality positive psychotherapists of different schools, psychiatrists in private practice, and researchers in these fields. Practitioners in counseling, pastoral psychology, coaching, and medical care will also welcome this new source of ideas and inspiration.

Subjectivity and Transcendence Arne Grøn, Iben Damgaard, Søren Overgaard, 2007. The book has its origins in a conference entitled *Subjectivity and Transcendence* which was held at the Danish National Research Foundation Center for Subjectivity Research, University of Copenhagen, Denmark, in November 2003. However, the book is not a conference proceedings volume. Preface.

Religion, Metaphysics, and the Postmodern Christopher Ben Simpson, 2016-08-05. William Desmond's original and creative work in metaphysics is attracting more and more attention from philosophers of religion. Putting Desmond in conversation with John D. Caputo, an important philosopher of religion from the Continental tradition, Christopher Ben Simpson casts new light on Desmond's complex, multifaceted, and nuanced thought. The comparative approach allows Simpson to get at the core of recent debates in the philosophy of religion. He develops a rich understanding of how ethics and religion are informed by metaphysics and contrasts this approach to the decidedly anti-metaphysical stance in Continental philosophy. *Religion, Metaphysics, and the Postmodern* presents a systematic analysis of Desmond's thought as it advances work on Caputo's thinking and on the philosophy of religion.

The Politics of Richard Wright Jane Anna Gordon, Cyrus Ernesto Zirakzadeh, 2019-01-11. A pillar of African American literature, Richard Wright is one of the most celebrated and controversial authors in American history. His work championed intellectual freedom amid social and political chaos. Despite the popular and critical success of books such as *Uncle Tom's Children* (1938), *Black Boy* (1945), and *Native Son* (1941), Wright faced staunch criticism and even censorship throughout his career for the graphic sexuality, intense violence, and communist themes in his work. Yet many political theorists have ignored his radical ideas. In *The Politics of Richard Wright*, an interdisciplinary group of scholars embraces the controversies surrounding Wright as a public intellectual and author. Several contributors explore how the writer mixed fact and fiction to capture the empirical and emotional reality of living as a black person in a racist world. Others examine the role of gender in Wright's canonical and lesser-known writing and the implications of black male vulnerability. They also discuss the topics of black subjectivity, internationalism, and diaspora, and the legacy of and responses to slavery in America. Wright's contributions to American political thought remain vital and

relevant today The Politics of Richard Wright is an indispensable resource for students of American literature culture and politics who strive to interpret this influential writer s life and legacy **Shadow Sophia** Celia Deane-Drummond,2021 Through a careful engagement with evolutionary and psychological literature this study argues that tendencies towards vice are more often than not distortions of the very virtues that are capable of making us good *Measurement in Health Psychology, volume II* Paola Gremigni,Giulia Casu,Antonio de Padua Serafim ,Victor Zaia,2025-09-25 Health psychology is the investigation of psychological and behavioral processes in health illness and healthcare It brings together biological psychological and social components to investigate the behavior of healthy or ill people and the decision making processes that may influence the delivery of healthcare services Several issues and factors are still understudied in health psychology Psychological effects of the Covid 19 outbreaks caregiving experiences work related stress and life work balance quality of life of sexual minorities young generations orientations and motivation for health or impacts of the new media on people s mental health are just a few examples of phenomena that remain partially explained A critical issue in health psychology is measurement Researchers may indeed use measures to elucidate processes to advance theory and evidence to gain a greater understanding of the observed phenomena or to assess the effects of interventions delivered to improve health and healthcare outcomes **Behold the Man!** Marion Lars Hendrickson,1998 John Macquarrie explicates an anthropological Christology Wolfhart Pannenberg holds to a Christological anthropology Paradoxically the two together provide a fuller understanding of both Christology and anthropology The anthropological field upon which this book compares the two theologians thought is essential to explicate a fully human Jesus to human beings and what this fully human Jesus reveals about God With the anthropological setting in common Macquarrie and Pannenberg pursue their Christology in such very different ways that they provide a compelling invitation for comparison **The Intimate Strangeness of Being** William Desmond,2012-04-09 This book explores the contested place of metaphysics since Kant and Hegel arguing for a renewed metaphysical thinking about the intimate strangeness of being *Death, 'Deathlessness' and Existenz in Karl Jaspers'* Philosophy Filiz Page,2008-01-23 Karl Jaspers is one of the least understood and most neglected major philosophers of the twentieth century and yet his ideas particularly those concerned with death have immense contemporary relevance Filiz Peach provides a clear explanation of Jaspers philosophy of existence clarifying and reassessing the concept of death that is central to his thought For Jaspers a human being is not merely a physical entity but a being with a transcendent aspect and so in some sense deathless Peach explores this transcendent aspect of humanity and what it is to be deathless in Jaspersian terms This book is a major contribution to the scarce literature on Jaspers and will be valuable to student and academic alike

The Church in an Age of Secular Mysticisms (Ministry in a Secular Age Book #6) Andrew Root,2023-10-10 Post Christian life and society do not eliminate a desire for the transcendent rather they create an environment for new and divergent spiritual communities and practices to flourish We are flooded with spiritualities that appeal to human desires for

nonreligious personal transformation But many fail to deliver because they fall into the trap of the self In the last book of the Ministry in a Secular Age series leading practical theologian Andrew Root shows the differences between these spiritualities and authentic Christian transformation He explores the dangers of following or adapting these reigning mysticisms and explains why the self has become so important yet so burdened with guilt and how we should think about both To help us understand our confusing cultural landscape he maps spiritualities using twenty of the best memoirs from 2015 to 2020 in which secular mystics promote their mystical and transformational pathways Root concludes with a more excellent way even a mysticism centered on the theology of the cross that pastors and leaders can use to form their own imaginations and practices

The Encyclicals of John Paul II Richard A. Spinello, 2016-12-08 Pope John Paul II was the second longest serving pope in history and the longest serving pope of the last century His presence was influential not only to Catholics but also throughout the world The Encyclicals of John Paul II is the first book to focus in depth on the pope's fourteen encyclicals through which he communicated many of the key themes of his papacy The first part of the book includes helpful background information a brief biographical sketch of John Paul II's life his intellectual formation and central theological themes of his papacy including some of the major controversies of the 20th century The first section of the book also provides invaluable background on the nature of an encyclical including the history of this papal document The second part of the book provides a thorough commentary on these encyclicals The encyclicals are grouped by theme introduced individually and analyzed to trace broad themes through John Paul II's work and theology The Encyclicals of John Paul II provides an important discussion of these key documents from John Paul II's papacy

Karl Jaspers. Richard Wisser, 1993 Beyond Transcendence in Law and Philosophy Louis E. Wolcher, 2023-03-31 What is the law of the law What produces our craven subservience to linguistic norms and our shocking indifference to the phenomenon of universal suffering In a path breaking new work of philosophy Louis Wolcher seeks to answer these questions from the standpoint of Zen Buddhism Bringing an Eastern sensibility into contact with three of the most important themes in Western philosophy Beyond Transcendence in Law and Philosophy meticulously investigates three of the twentieth century's most important philosophers Martin Heidegger on being Emmanuel Levinas on ethics and Ludwig Wittgenstein on language In the context of the larger Western obsession with transcending the ordinary Louis Wolcher argues that the yearning for transcendence is born of the illusion that there is a fundamental difference between the ordinary and the profound Employing Zen koans and stories to advance a deflationary view of language and knowledge he goes on to argue that the norms of transcendence to which we cling are not eternal truths but artefacts of desperate minds adrift on a sea of impermanence What used to seem so majestically True Right and Just thus shows itself to be utterly mundane as merely true right and just What is left however is not nihilism for clinging to a view of nothingness is just as deluded as clinging to a view of somethingness but rather a new beginning of compassionate concern for the suffering of others Beyond Transcendence in Law and Philosophy is a strikingly original synthesis of Eastern

and Western thought It will enlighten philosophers and legal theorists as well as those who are interested in or open to the insights of Zen Buddhism
