Vision Philip F. D. Rubovits-Seitz, 2016-01-28 Heinz Kohut was arguably the most influential modern day psychoanalyst. Because current interest in Kohut's work has focused so completely on self psychology, however, certain aspects of Kohut's thinking, in particular his nonreductive synthesis of Freudian theory, are in danger of being lost. Prior to his development of self psychology, Kohut was a legendary teacher of Freudian theory at the Chicago Institute for Psychoanalysis. In this volume, Philip Rubovits-Seitz presents Kohut's previously unavailable lectures from his course on psychoanalytic psychology, prepared in collaboration with Kohut himself, along with an illuminating summary statement on Freudian theory jointly written by Kohut and Rubovits-Seitz. Rubovits-Seitz continues with his own insightful analysis of Kohut's distinctive approach to Freudian theory. And he concludes by arguing persuasively why Kohut's later contributions should best be viewed as a continuation rather than an abandonment of this early vision. Kohut's Freudian Vision not only repairs an outstanding tear in received psychoanalytic history but also challenges self psychologists and contemporary Freudian psychoanalysts alike to renewed reflection.

Looking Back: Memoir of a Psychoanalyst Paul Ornstein, 2019-08-18 Looking Back is the unusual memoir of a senior figure in the international psychoanalytic community. Dr. Paul Ornstein was one of the small and distinguished group of Holocaust survivors, physicians, who came to the U.S. after the second world war and became prominent in American psychoanalysis. His memoir traces his route from a small town in Hungary to Budapest's Neolog Rabbinical Seminary to a Hungarian forced labor battalion, through medical school in post-war Heidelberg to the Chicago Institute for Psychoanalysis to Cincinnati, Ohio, where he became a prominent professor of psychiatry and a leader of the psychoanalytic Self Psychology movement. How does one begin to identify and evaluate a well-lived life? I thought again of this question as I read Paul Ornstein's lovely and surprisingly profound memoir titled simply Looking Back: Memoir of a Psychoanalyst. If you want to know what a life well-lived looks like, read this book. Ornstein, all of his personal and professional accomplishments and contributions notwithstanding, possesses an endearing humility. Its tone colors the memoir. For entrance into a life history that spans the great events of the last century that charts the growth and development of psychoanalysis into a humanistic and humane endeavor and that depicts a life very well-lived, I commend Looking Back: Memoir of a Psychoanalyst. Joye Weisel Barth, International Journal of Psychoanalytic Self Psychology. Paul Ornstein's remarkable life has taken him from a cheder in a Hungarian town to the Budapest Rabbinical Seminary, through the Holocaust to the summit of his psychoanalytic profession. This memoir tells this story in vivid and often moving fashion, including his dazed postwar search for surviving family members, the tenderness of his romance and reunion with his beloved wife and collaborator Anna, their improbable postwar study of medicine among former Nazis at Heidelberg, his use of hypnosis to cure a paralyzed aide, to a legendary congressman, to his development along with Anna into a towering figure in self psychology. Paul, who has been fortunate to have Helen Epstein as his co-author, enriches the book by using his penetrating insight to analyze his own motivations and foibles and those of colleagues and teachers. The reader comes away astonished by how Paul was able to
