degrees of success to become fathers The second goal is to outline a strategy for helping young fathers remain constructively involved with their partners and children Drawing from their research with over 1 000 young parents in Chicago and Salt Lake City Paul Florsheim and David Moore focus on a group of about 20 young fathers whose stories conveyed in their own words help the reader make sense of what is happening to fatherhood in America Having interviewed young fathers and their partners before and after their children were born these accounts provide a dynamic perspective on the development of young men and their relationships Young mothers the partners of these young men both corroborate and sometimes offer alternative or contradictory perspectives Oriented to undo stereotypes the authors introduce the notion of good enough fathering tempering the tendency to think simply in terms of good or bad fathers. They go on to provide concrete recommendations for strengthening fathers roles and helping young fathers and mothers create stable home environments for their children whether the parents are together or not **Effective Change in Schools** Una Connolly, Chris James, 2014-04-23 Focusing on the Improving Schools Project in South Wales Effective Change in Schools explores the process of successful and substantial educational change The 32 schools which took part in the project all made significant changes in their practice in order to improve pupil achievement This book describes and analyses the central features of that educational transformation process The authors include information about the project its aims and purposes fresh and innovative perspective on the change process in schools and the leadership and management of change examination of the key aspects of school effectiveness and improvement description of the strategies adopted by the schools to initiate change and an outline of the issues that the schools faced as they attempted to move forward consideration of the role of leadership in educational transformation and the essence of the successful leader This is an invaluable guide to anyone endeavouring to bring about change in their own school or who has an interest in educational management and leadership
