Poverty Alleviation through Self-Help Groups in Anantapur District of Andhra Pradesh R. Neelaiah, 2017-06-27 In developing economies and particularly in rural areas many activities that would be classified in the developed world as financial are not monetized That is there is no money used to carry them out This is often the case when people need the services money can provide but do not have dispensable funds required for those services forcing them to revert to other means of acquiring them People find creative and often collaborative ways to meet the needs primarily through creating and exchanging different forms of non cash value Common substitutes for cash vary from country to country but typically include livestock grains jewelry and precious metals In the 2000s the micro finance industry s objective is to satisfy the unmet demand on a much larger scale and to play a role in reducing poverty While much progress has been made in developing a viable commercial micro finance sector in the last few decades several issues remain that need to be addressed before the industry will be able to satisfy massive worldwide demand

THROUGH SELF-HELP GROUPS Dr. A. Ramalingaiah and Dr. M. Muninarayanappa, 2023-03-28 The efforts made by the Indian development planners during the past decades are commendable in reducing poverty and other dimensions of human development. However, a number of tasks remain unfinished. Abject poverty is still a stark reality for millions of Indians. Also, wide gaps in human development among states, districts, and social groups exist. There is an urgent need for more concerted efforts to achieve greater social and gender equality. Women in India are victims of a multiple socio-economic and cultural factors. They are an integral part of every economy. All-round development and harmonious growth of a nation would be possible only when women are considered as equal partners in progress with men. Emancipation of women is a pre-requisite for a NATION'S ECONOMIC development and social upliftment. Poverty is the main obstacle for the improvement of the women. The role of women and the need to empower them are central to human DEVELOPMENT programs including poverty alleviation.

Monetary and Social Status of Women Self Help Groups Akash Shriram Meshram, 2018-05-20 The self-help groups are practical alternatives to achieve the aims of rural development and to get community involvement in all the rural development programmes. SHG is an organizational setup to disburse micro finance to the women for the purpose of making them creative women and encouraging them to enter into commercial activities. The work of women should not be restricted to kitchen room only. Now she is coming out from kitchen and showing her ability in each and every sector of economy. She finds pleasure in independent living and also she is enjoying economic independence. Spread of education and faster growth in mass media has awakened the women to get equal justice in society like men. SHGs are intermediaries for routing a broad range of government-sponsored development policies and schemes. NGOs and Government have increasingly been adopting SHGs as a strategy to bring women together for their development. This book is based on the minor research project carried out in Chandrapur District. Sample of the study was women self-help groups and the SHG members in Six Talukas of Chandrapur District. 300 SHGs and 200 SHG respondents are evaluated from this study. Monetary and Social evaluation of the women SHGs was the primary objective of the study. This Book is based on economic and social status of women in rural area; therefore, it is useful for the students of social science, economics, rural development, and also useful for social workers and NGOs.

Prof Akash Shriram Meshram *Microfinance and Self Help Groups* A Alimelu Annapurna, This book provides a vivid picture of Micro Finance for women empowerment through bank linkage of women groups in Andhra Pradesh with special focus on East Godavari District. The book presents the observations made by the author on the outcomes of specific endeavors of District rural development agency DRDA East Godavari District for the economic, political, and social empowerment of women and also the involvement of banking sector in the district to achieve

the holistic objective of inclusive growth and alleviation of poverty *Self-help groups for India's financial inclusion* Rajeev, Meenakshi, Vani, B.P., Veerashekharappa, 2017-12-13 Ensuring accessibility to credit to the poor self employed households is a critical concern for many developing nations Self help groups SHG formed by women in the developing countries help them to access financial intermediaries and access credit for various income generating activities In case of India SHGs are formed either through state assisted SHG Bank Linkage Programme SBLP or through private initiatives of micro finance institutions MFIs or NGOs Under the former the groups access formal banking directly while in case of MFIs loan is disbursed through MFIs themselves Rate of interest in case of loans obtained by SHGs through SBLP therefore depends on the rate of interest charged by the various types of formal lending agencies and is often found to be lower than the interest charges of the MFIs It is however argued that transaction costs involved in a bank loan are substantial therefore borrowers prefer loans from the informal sector delivered at the borrower's doorstep In order to examine this issue rigorously we have tried to estimate the effective costs towards borrowing by including the transaction costs estimated using quantitative data collected through our survey Our results show that the transaction costs contribute only marginally to the cost of borrowing hence we argue using field data that the programme which has many additional benefits including ensuring financial inclusion of women and empowering them should be strengthened and expanded further *MARKETING PRACTICES IN SELF HELP GROUPS* Dr.

Dr. Gaonkar Gopalkrishna M, 2018-10-04 The origin of SHGs is from the brainchild of Grameen Bank of Bangladesh which was founded by Mohammed Yunus SHGs were started and formed in 1975 Since then Self Help Groups have become proven and time tested vehicles for promoting savings and credit among poor Self Help Group development evolves through phases of coming together learning to work together developing norms of engagement and finally being able to work together in an interdependent and flexible manner **Women, Microfinance and the State in Neo-liberal India** K. Kalpana, 2016-07-07 This book discusses women oriented microfinance initiatives in India and their articulation vis vis state developmentalism and contemporary neo liberal capitalism It examines how these initiatives encourage economically disadvantaged rural women to make claims upon state provided microcredit and connect with multiple state institutions and agencies thereby reshaping their gendered identities The author shows how Self Help Group SHG based microfinance institutions mobilise

agency and create channels of empowerment for women as well as make them responsible for alleviating poverty for themselves and their families The book also brings out the importance of factoring in women s dissenting voices when they negotiate developmental projects at the grassroots level Rich in empirical data this volume will be useful to scholars and researchers of development studies gender studies economics especially microeconomics politics public policy and governance

Sustainability of Microfinance Self Help Groups in India Ajai Nair,2005 The major form of microfinance in India is that based on women s Self Help Groups SHGs which are small groups of 10 20 members These groups collect savings from their members and provide loans to them However unlike most accumulating savings and credit associations ASCAs found in several countries these groups also obtain loans from banks and on lend them to their members By 2003 over 700 000 groups had obtained over Rs 20 billion US 425 million in loans from banks benefiting more than 10 million people Delinquencies on these loans are reported to be less than 5 percent Savings in these groups is estimated to be at least Rs 8 billion US 170 million Despite these considerable achievements sustainability of the SHGs has been suspect because several essential services required by the SHGs are provided free or at a significantly subsidized cost by organizations that have developed these groups A few promoter organizations have however developed federations of SHGs that provide these services and others that SHG members need but which SHGs cannot feasibly provide Using a case study approach Nair explores the merits and constraints of federating Three SHG federations that provide a wide range of services are studied The findings suggest that federations could help SHGs become institutionally and financially sustainable because they provide the economies of scale that reduce transaction costs and make the provision of these services viable But their sustainability is constrained by several factors both internal related to the federations themselves and external related to the other stakeholders The author concludes by recommending some actions to address these constraints This paper a product of the Finance and Private Sector Development Unit South Asia Region is part of a larger effort in the region to study access to finance in India
