Introduction to Transpersonal Psychology Paul F. Cunningham, Ph.D., 2021-12-28

Introduction to Transpersonal Psychology: Bridging Spirit and Science provides an accessible and engaging introduction to this complex and evolving field. Adopting a modular approach, the book systematically relates key themes of Transpersonal Psychology to three major areas within psychology: general psychology, experimental psychology, and clinical psychology. Covering a wide range of topics including transpersonal states of consciousness, biological foundations, research methods, and cognition, the book also features extensive discussion of transpersonal theorists and the impact of their work on our understanding of psychological concepts. The book also introduces contemporary developments in the field and anticipates future advances such as feminist perspectives and cross-cultural approaches alongside practical experiments designed to give transpersonal theories and concepts psychological roots. A critical evaluation of both mainstream and transpersonal theories and research is applied throughout to foster analytical skills and encourage critical and scientific thinking about humanity's nature as spiritual creatures and ways to educate for personal and social transformation. Accompanied by an online instructor's manual, this book will be an essential companion for all students of Transpersonal or Humanistic Psychology or those interested in applying transpersonal ideas to mainstream psychological research.

The Posner Files Gerald Posner, 2018-10-02

Definitive accounts of JFK's and Martin Luther King's assassinations by a Pulitzer Prize finalist and New York Times bestselling author. Case Closed: A Pulitzer Prize finalist and New York Times bestseller. Case Closed is a vivid and straightforward account that stands as one of the most authoritative books on the assassination of John F. Kennedy. Drawing from official sources and dozens of interviews filled with powerful historical detail and including an updated comment for the fiftieth anniversary, Posner's utterly convincing book lays to rest all of the convoluted conspiracy theories concerning the mafia, a second shooter, and the CIA that have obscured what really happened in Dealey Plaza on November 22, 1963. Chicago Tribune: By far the most lucid and compelling account of what probably did happen in Dallas and what almost certainly did not. The New York Times Book Review: Killing the Dream. On April 4, 1968, Martin Luther King Jr. was killed in Memphis, Tennessee, by a single assassin's bullet. James Earl Ray was seen fleeing from a rooming house that overlooked the hotel balcony where King was shot. An international manhunt ended two months later with Ray's capture. Though Ray initially pled guilty, he quickly recanted and for the rest of his life insisted he was an unwitting pawn in a grand conspiracy. In Killing the Dream, expert investigative reporter Gerald Posner cuts through phony witnesses, false claims, and a web of misinformation to put Ray's conspiracy theory to rest and disclose what really happened the day King was murdered. A superb book, a model of investigation.
