# Self Society And The Search For Transcendence

**W. Horosz**

## **Self Society And The Search For Transcendence:**

**Self, Society, and the Search for Transcendence** William H. Bruening,1974 Self, Society, and the Search for Transcendence William H. Bruening,1974-01-01 **Search Without Idols** W. Horosz,2012-12-06 Search Without Idols is a study of human transcendence in the context of human striving projecting surpassing overcoming This power is central to man s search for wholeness Such transcendence makes reality tolerable It provides us with m impressive array of human responses which enable us to cope But it also provides the excesses that go beyond human striving Nothing seems to be off limits to this ubiquitous power Such a state of surpassing limits is what we find in the relation between the human search for wholeness and the quest for external totalities which lies beyond the human context Such soaring flights beyond the capacity of human striving are hard to control impossible to show responsibility for and beyond the reach of criteria The reach exceeds both our grasp and our control Transcendence then is a greatly used and much abuse human power Its activities have never ceased to amaze me its excesses have always troubled me even from the beginning of my studies This book is not an exercise in self clarification I have some thoughts on the matter which I wish to share with the reader Perhaps we can mutually appreciate the great gift without compromising our sanity Part I will provide a new look at the meaning of transcendence **Heroes and Anti-heroes** Rita Ghesquiere,Knut Johannessen Ims,2010 Unamuno; an Existential View of Self and Society ,1948 Bibliogr p 9 18 **Interpreting and Explaining Transcendence** Robert A. Yelle,Jenny Ponzo,2021-09-07 In this volume an interdisciplinary group of scholars uses history sociology anthropology and semiotics to approach Transcendence as a human phenomenon and shows the unavoidability of thinking with and through the Beyond Religious experience has often been defined as an encounter with a transcendent God Yet humans arguably have always tried to get outside or beyond themselves and society The drive to exceed some limit or condition of finitude is an eduring aspect of culture even in a disenchanted society that may have cut off most paths of access to the Beyond The contributors to this volume demonstrate the humanity of Transcendence in various ways as an effort to get beyond our crass physical materiality as spiritual entrepreneurship as the ecstasy of rituals of possession and as a literary aesthetic and semiotic event These efforts build from a shared conviction that Transcendene is thoroughly human and accordingly avoid purely confessional and parochial approaches while taking seriously the various claims and behavioral expressions of traditions in which Transcendence has been understood in theological terms **forum for inter-american research Vol 6** Wilfried Raussert,2023-07-20 Volume 6 of 6 of the complete premium print version of journal forum for inter american research fiar which is the official electronic journal of the International Association of Inter American Studies IAS fiar was established by the American Studies Program at Bielefeld University in 2008 We foster a dialogic and interdisciplinary approach to the study of the Americas fiar is a peer reviewed online journal Articles in this journal undergo a double blind review process and are published in English French Portuguese and Spanish Self and Society in the Films of Robert Wise Justin E.A.

Busch,2014-01-10 One of the most versatile Hollywood filmmakers Robert Wise had a number of renowned films under his directorial belt including *The Day The Earth Stood Still* *West Side Story* *The Sound of Music* and *Star Trek The Motion Picture* Nonetheless Wise remains a rarely studied Hollywood figure while many filmgoers know and love his films few recognize his name This book the first in depth analysis of Wise s cinematic achievement uncovers the elements that link the director s diverse cinematic subjects and examines the ways in which tensions between individuals and their societies are explored His films are seen from a new perspective that will heighten an appreciation for the range and depth of his overall body of work

**Natural Theology** Maurice Muhatia Makumba,2006 Consumption and Spirituality Diego Rinallo,Linda M. Scott,Pauline Maclaran,2013 This book sheds light on the consumption of spiritual products services experiences and places through state of the art studies by leading and emerging scholars in interpretive consumer research marketing sociology anthropology cultural and religious studies The collection brings together fresh views and scholarship on a cultural tension that is at the centre of the lives of countless individuals living in postmodern societies the relationship between the material and the spiritual the sacred and the profane The book examines how a variety of agents religious institutions spiritual leaders marketers and consumers interact and co create spiritual meanings in a post disenchanted society that has been defined as a supermarket of the soul *Consumption and Spirituality* examines not only religious organizations but also brands and marketers and the way they infuse their products services and experiences with spiritual meanings that flow freely in the circuit of culture and can be appropriated by consumers even without purchase acts From a consumer perspective the book investigates how spiritual beliefs practices and experiences are now embedded into a global consumer culture Rather than condemning consumption the chapters in this book highlight consumers agency and the creative processes through which authentic spiritual meanings are co created from a variety of sources local and global and sacred and profane alike

*Public Theology and Civil Society: Constructive Formation* Paul S. Chung,2022-03-28 In *Public Theology and Civil Society* author Paul S Chung charts the political history of modern democracy and social contract to define the role of Christian public theology in the post colonial era Capturing the thought of Rousseau Kant and Rawls in reference to the dialectical theory of Hegel and Marx Chung forges a new model of public theology for today s society Engaging in an expansive conversation with the thought of major figures in philosophy political economy and theology Paul Chung articulates a compelling argument for a public theology that takes seriously our postcolonial context Chung s prophetic perspective critiques the hierarchical structures and social stratification that threaten civil society upholding the values of justice democracy and peace among the religions This book constructs a public theology that engages diverse public spheres toward the creation of a more equitable and diverse society Craig L Nesson Professor of Contextual Theology and Ethics Wartburg Theological Seminary Dubuque Iowa How does political and emancipatory public theology look and function in post colonial reality Dr Chung makes a resounding case for Christian public theology as explicitly ethical theology

Dr Chung's excavation of some of the root causes and frameworks of oppression invites deep and theologically informed engagement in the affairs of the world Kirsi Stjerna Los Angeles Southwest California Synod Professor of Lutheran History and Theology Pacific Lutheran Theological Seminary of California Lutheran University      **Social Theory: Volume II** Roberta Garner, Black Hawk Hancock, 2014-05-29 The organization of this popular social theory reader which pairs classical articles with contemporary theoretical and empirical studies highlights the historical flow of social theory and demonstrates how disagreements and confrontations shape theory over time Written in clear down to earth language the introductions to each selection link theorists to one another illustrating how theoretical traditions are not rigidly separate but are always in conversation addressing and challenging each other Volume II From Modern To Contemporary Theory uses key transitional theorists to illustrate how contemporary theory emerged from the past New chapters on race on culture and on media as well as a significantly reworked gender chapter deepen coverage As well new contextual and biographical materials surround each reading and each chapter includes a study guide with key terms and innovative discussion questions and classroom exercises The result is a volume of readings that offers instructors flexibility in how they approach teaching and students an affordable and accessible introduction to the most important contemporary social theorists      **Authenticity and Religion in the Pluralistic Age** Francesca E.S. Montemaggi, 2019-03-19 This book provides an original concept of authenticity to illuminate the transformation of Christian consciousness in the increasingly more secular and pluralistic culture of Western societies The present work is unique in offering an in depth study of Simmel's sociology and philosophy in dialogue with an ethnographic account of contemporary Christians It develops original concepts drawing on Simmel's writings on individuality and religion and connecting them with classical and contemporary scholarship in sociology and philosophy The theoretical framework is illustrated through an analysis of the narratives and practices of Christians in an evangelical church in the UK and several New Monastic communities in the UK US and Canada The book proposes an understanding of belief as relational and experiential and a concept of authenticity as self transcendence articulated in dialogue with religious tradition and the Other Religious tradition is developed through an on going process of interpretation and sacralization of what is considered within and without the tradition's boundaries The book also proposes an innovative approach to the study of morality by distinguishing between a people centered ethic ethic of compassion and a norm centered ethic ethic of purity to account for the the different ways in which Christians engage with the Other This allows an exploration of the relationship between ethics and the making and breaking of boundaries in a given community The case studies in this book show that committed Christians attempt to reconcile commitment to their tradition with the value of inclusiveness and to affirm their moral and religious identity as a distinctive moral lifestyle not superior but of equal worth to those of non Christians      **From the American dream to the American nightmare** Heinrich Anker, 2024-04-16 Conflicts in Western societies have been on the rise and not just since the financial crisis of 2008 This is generally explained in economic terms with growing disparities in

wealth and income The left should benefit from this with its redistribution philosophy However the right is on the upswing even though its neoliberalism is fueling social conflicts How is that Behind the economic tensions lies a deep crisis of meaning The right is exploiting this by offering simplistic set pieces of meaning With success because people strive for nothing so much as meaning in their own lives The example of the USA shows how neoliberalism destroys people and societies Possible solutions also come from there *How is Society Possible?* S. Vaitkus, 2012-12-06 How is society possible In *Die Krisis der europaiischen Wissenschaften und die transzendente Phiinomenoioogie I* Edmund Husserl is found with a pathos send ing out pleas for belief Glauben in his transcendental philosophy and tran scendental ego The traditional idea of theoretical reflection instituted in ancient Greece as the suspension of all taken for granted worldly interests has through a partial realization of itself forsaken itself in the one sided development of the objective mathematical natural sciences as they themselves have become so taken for granted with the method and validity of their results held as so self evident that they appear as resting self sufficiently on their own grounds while pursuing an increasingly abstract mathematization of nature The sciences are left without a foundation and their meaning within the world consequently unintelligible while their objective and valid abstract concepts continually tend to supercede the everyday life world and render it questionable In the end these of belief in the everyday life world or reflective evolving and exchanging attitudes doubt science ultimately leads to a disbelief in both and a search in one direction for idol leaders and in the other for the cult of experience This collapse of Western belief systems becomes particularly threatening as it turns into nihilism which is the development of beliefs in societal forms which employ 2 natural and social science for the liquidation of humanity and nature Society starts becoming impossible

**Covenant As Ethical Commonwealth** Perry Simpson Huesmann, 2010 Modernity as the fruit of the Enlightenment is a theme that has been explored and analyzed for decades both in Western and non Western academia There is strong consensus that one of the major foundations of this now three hundred year old project is the understanding of the human individual as an autonomous actor one capable of enormous discoveries through the application of rational intellect in his discovery and analysis of the natural world It seems however that the Enlightenment framework which has dominated modernity could contain the seeds of its own undoing and that this is evident in the loss of trust in civil society This raises a question Does modernity as the fruit of Enlightenment contain the elements necessary to deal with the loss of trust both interpersonal and institutional facing Western liberal democracy If not what possibilities does the Enlightenment framework offer as a corrective to human autonomy and its social consequences especially for civil society and its foundation in trust If a new framework for human social relationships can be established it would not need to discard the gains of the past centuries of modernity but would serve as a corrective to it both for cultures strongly shaped by Western modernity and for cultures that are seeking or are pressured to reach modernity at all costs This framework would need to address both the communal the nature of society and the singular the individual without sacrificing either to the other This work represents a fresh look

at the societal consequences of the Enlightenment and proposes an alternative framework in terms of covenant      **Social Theory: Continuity and Confrontation** Roberta Garner, Black Hawk Hancock, 2014-04-29 The third edition of this popular reader reflects considerable changes With over seventy readings representing a wide diversity of theorists it offers a breadth of coverage not available in other collections The framework for understanding theory as a set of conversations over time is maintained and deepened with a focus on key transitional theorists who helped pave the way from classical to contemporary theory New contextual and biographical materials surround the primary readings and each chapter includes a study guide with key terms discussion questions and innovative classroom exercises The result is a fresh and expansive take on social theory that foregrounds a plurality of perspectives and defines contemporary trends in the field while being both an accessible and manageable teaching tool      **Employee Performance and Well-being** Badrinarayan Shankar

Pawar, 2019-07-02 This book provides recent inputs from the field of organizational behavior OB for enhancing employee performance and well being a key concern for managers today It focuses on transformational leadership organizational justice organizational support and workplace spirituality The author outlines multiple dimensions of employee performance and five forms of employee well being physical emotional psychological social and spiritual The book also presents an overview of the traditional approaches and draws on relevant literature and empirical findings It offers exercises from a practitioner's point of view to facilitate managerial actions and will serve as a practical application guide for managers This book will be of interest and use to students and researchers of human resource management organizational behavior management education industrial and organizational psychology corporate social responsibility and business ethics as well as practicing HR managers and training managers      **Research in the Social Scientific Study of Religion, Volume 13**

Ralph L. Piedmont, David O. Moberg, 2021-11-15 Research in the Social Scientific Study of Religion RSSSR publishes reports of innovative studies that pertain empirically or theoretically to the scientific study of religion including spirituality regardless of their academic discipline or professional orientation It is academically eclectic not restricted to any one particular theoretical orientation or research method Most of our articles report the findings of quantitative or qualitative investigations but some deal with methodology theory or applications of social science studies in the field of religion

**Society and Democracy in Europe** Silke I. Keil, Oscar W. Gabriel, 2013 This comparative study examines what kinds of societal forces shape European relationships towards democratic political life in contemporary Europe Drawing on data from the European Social Survey ESS the book develops a theoretical perspective on the relationship between social structure and democracy and links this to research on social capital and political behaviour The authors explore the impact of individual social characteristics on a broad range of the Europeans political attitudes and behaviours They investigate how the social position of the individuals in the European societies contributes to the explanation of the national and cross national patterns of political engagement addressing trust in the social and political environment life satisfaction party preferences and

attitudes towards migration and migrants Providing detailed descriptions of the similarities and differences among the various European publics at the beginning of the 21st century Society and Democracy in Europe will be of strong interest to students and scholars of European politics political participation and political sociology
