*Humanitarianism in Question* Michael Barnett, Thomas G. Weiss, 2012-05-15 Years of tremendous growth in response to complex emergencies have left a mark on the humanitarian sector Various matters that once seemed settled are now subjects of intense debate What is humanitarianism Is it limited to the provision of relief to victims of conflict or does it include broader objectives such as human rights democracy promotion development and peacebuilding For much of the last century the principles of humanitarianism were guided by neutrality impartiality and independence More recently some humanitarian organizations have begun to relax these tenets The recognition that humanitarian action can lead to negative consequences has forced humanitarian organizations to measure their effectiveness to reflect on their ethical positions and to consider not only the values that motivate their actions but also the consequences of those actions In the indispensable *Humanitarianism in Question* Michael Barnett and Thomas G Weiss bring together scholars from a variety of disciplines to address the humanitarian identity crisis including humanitarianism's relationship to accountability great powers privatization and corporate philanthropy warlords and the ethical evaluations that inform life and death decision making during and after emergencies

**Shaping the Humanitarian World** Peter Walker, Daniel G. Maxwell, 2014-08-07 Origins of the

Lang Jr.,2018-08-13 This book assesses the impact of the work of Chris Brown in the field of International Political Theory The volume engages with general issues of IPT as well as basic issues such as the use and role of practical reasoning and presents a nuanced understanding about issues regarding the legitimacy of war and violence It explores questions that pertain to human rights morality and ethics and generally an outlook for devising a better world The project is ideal for audiences with interest in International Relations Ethics and Morality Studies and International Political Theory

Mitigating Conflict Henry F. Carey,Oliver P. Richmond,2004-08-02 Drawing upon the writings of academics and activists this collection explores the roles that have emerged for NGOs as they have engaged more with peacekeeping and peacebuilding initiatives in various locations around the world **Today We Drop Bombs, Tomorrow We Build Bridges** Peter Gill,2016-05-15 An indispensable inquiry into our moral health and humanity LSE Review of Books The war on terror has politicised foreign aid as never before Aid workers are being killed at an alarming rate and civilians in war torn countries abandoned to their fate From the ravaged streets of Mogadishu to the unending struggle in Helmand Peter Gill travels to some of the most conflict stricken places on earth to reveal the true relationship between the aid business and Western security While some agencies have clung to their neutrality against ever stiffer odds others have compromised their impartiality to secure the flow of official funds In a world where the advance of Islamic State constitutes the gravest affront to humanitarian practice and principle the aid community has faced in decades Gill poses the crucial question can Western nations fight in a country and aid it at the same time *Humanitarianism* Tim Allen,Anna Macdonald,Henry Radice,2018-06-27 The field of humanitarianism is characterised by profound uncertainty by a constant need to respond to the unpredictable and by concepts and practices that often defy simple or straightforward explanation Humanitarians often find themselves not just engaged in the pursuit of effective action but also in a quest for meaning That is the starting point for this book Humanitarian action has in recent years confronted geopolitical challenges that have upended much of its conventional modus operandi and presented threats to its foundational assumptions and legal frameworks The critical interrogation of the purpose practice and future of humanitarian action has yielded a rich new field of enquiry humanitarian studies and many thoughtful books articles and reports So the question arose as to the most useful way to provide a critical overview that might serve to bring some definitional clarity as well as analytical rigor to the waves of critique and shifting sands of humanitarian action Humanitarianism A Dictionary of Concepts provides an authoritative analysis that attempts to rethink rather than merely problematize or define the issues at stake in contemporary humanitarian debates It is an important moment to do so Just about every tenet of humanitarianism is currently open to question as never before

**The Endtimes of Human Rights** Stephen Hopgood, 2013-11-18 We are living through the endtimes of the civilizing mission The ineffectual International Criminal Court and its disastrous first prosecutor Luis Moreno Ocampo along with the failure in Syria of the Responsibility to Protect are the latest pieces of evidence not of transient misfortunes but of fatal structural defects in international humanism Whether it is the increase in deadly attacks on aid workers the torture and disappearing of al Qaeda suspects by American officials the flouting of international law by states such as Sri Lanka and Sudan or the shambles of the Khmer Rouge tribunal in Phnom Penh the prospect of one world under secular human rights law is receding What seemed like a dawn is in fact a sunset The foundations of universal liberal norms and global governance are crumbling from The Endtimes of Human Rights In a book that is at once passionate and provocative Stephen Hopgood

argues against the conventional wisdom that the idea of universal human rights has become not only ill adapted to current realities but also overambitious and unresponsive A shift in the global balance of power away from the United States further undermines the foundations on which the global human rights regime is based American decline exposes the contradictions hypocrisies and weaknesses behind the attempt to enforce this regime around the world and opens the way for resurgent religious and sovereign actors to challenge human rights Historically Hopgood writes universal humanist norms inspired a sense of secular religiosity among the new middle classes of a rapidly modernizing Europe Human rights were the product of a particular worldview Western European and Christian and specific historical moments humanitarianism in the nineteenth century the aftermath of the Holocaust They were an antidote to a troubling contradiction the coexistence of a belief in progress with horrifying violence and growing inequality The obsolescence of that founding purpose in the modern globalized world has Hopgood asserts transformed the institutions created to perform it such as the International Committee of the Red Cross and recently the International Criminal Court into self perpetuating structures of intermittent power and authority that mask their lack of democratic legitimacy and systematic ineffectiveness At their best they provide relief in extraordinary situations of great distress otherwise they are serving up a mixture of false hope and unaccountability sustained by human rights as a global brand The Endtimes of Human Rights is sure to be controversial Hopgood makes a plea for a new understanding of where hope lies for human rights a plea that mourns the promise but rejects the reality of universalism in favor of a less predictable encounter with the diverse realities of today s multipolar world

**The Food Question in the Middle East** Malak S. Rouchdy, Iman A. Hamdy, 2017-10-01 In recent years the food question has been a central concern for politicians economists international organizations activists and NGOs alike as well as social scientists at large This interest has emerged from the global food crisis and its impact on the environment and the political economy and security of the global south as well as the expansion of scholarly studies relating food issues to agrarian questions with the objective of developing theoretical frameworks that would allow for a critical analysis of the current food issues at historical cultural social political and economic levels In this context Cairo Papers organized its 2016 symposium around the food question in the Middle East Papers in this collection address the food question from both its food and agricultural aspects and approach it as the site of political and economic conflicts as the means of sociocultural control and distinction and as the expression of national and ethnic identities Contributors Ellis Goldberg Saker ElNour Hala Barakat Khaled Mansour Malak S Rouchdy Habib Ayeb Christian Handerson Sara Pozzi and Sara El Sayed

The Politics of Aid to Burma Anne Decobert, 2015-11-19 For over sixty years conflict between state forces and armed ethnic groups was ongoing in parts of the borderlands of Burma Ethnic minority communities were subjected to systematic and widespread abuses by an increasingly complex patchwork of armed state and non state actors Populations in more remote and disputed border areas typically had little to no access to even basic healthcare and education services As

part of its counter insurgency campaign the military state also historically restricted international humanitarian access to civilian populations in unstable border areas It was in this context that cross border aid to Burma had developed as an alternative mechanism for channelling assistance to populations denied aid through more conventional systems Yet by the late 2000s national and international changes had significant impacts on an aid debate which had important political and ethical implications Through an ethnographic study of a cross border aid organisation working on the Thailand Burma border this book focuses on the political and ethical dilemmas of humanitarian government It explores the ways in which aid systems come to be defined as legitimate or illegitimate humanitarian or un humanitarian in an international context that has witnessed the multiplication of often conflicting humanitarian systems and models It examines how an embodied history of violence can shape the worldviews and actions of local humanitarian actors as well as institutions created to mitigate human suffering It goes on to look at the complex and often invisible webs of local organisations international NGOs donors armed groups and other actors which can develop in a cross border and extra legal context a context where competing constructions of systems as legitimate or illegitimate are highlighted Exploring the history of humanitarianism from the local aid perspective of Burma this book will be of interest to students and scholars of Southeast Asian Studies Anthropology of Humanitarian Aid and Development Studies      **Even in Chaos** Kevin M.
