Selling Asap Art Science Agility Performance:

Selling Asap Nick Jones, Stevens, Chonko, 2004-01 *Selling ASAP* Eli Jones, Larry Chonko, Fern Jones, Carl Stevens, 2012-03-05 *Selling ASAP* combines both timely and timeless components of selling to help professionals achieve their sales objectives in today's fast paced business world. As the authors demonstrate, rapidly changing customer expectations have led to a dramatic shift in the business of selling. Customers no longer want product experts; they want trusted advisors. This invaluable guide stresses the importance of viewing a sale not as a one time encounter but as an opportunity to build a long lasting mutually beneficial relationship. Utilizing sound academic research and solid business practices, the authors provide strategies for better anticipating client needs and prescribing solutions that build value over time. The professional edition of *Selling ASAP* includes numerous practical tips such as how to behave during a sales call, what language to use or avoid and how to complete a transaction and begin a profitable business relationship. In addition to covering the fundamentals, *Selling ASAP* offers innovative sales techniques backed by extensive research for the modern salesperson.

Selling ASAP Eli Jones, Carl G. Stevens, Lawrence B. Chonko, 2006 *The Oxford Handbook of Strategic Sales and Sales Management* David W. Cravens, Kenneth Le Meunier-FitzHugh, Nigel F. Piercy, 2012-11-22 *The Oxford Handbook of Strategic Sales and Sales Management* is an unrivalled overview by leading academics in the field of sales and marketing management. Sales theory is experiencing a renaissance driven by a number of factors including building profitable relationships, creating brand value, strategic customer management, sales and marketing relationships, global selling and the change from transactional to customer relationship marketing. Escalating sales and selling costs require organisations to be more focused on results and highlight the shifting of resources from marketing to sales. Further, the growth in customer power now requires a strategic sales response and not just a tactical one. The positioning of sales within the organisation, the sales function and sales management are all discussed. The Handbook is not a general sales management text about managing a sales force but will fill a gap in the existing literature through consolidating the current academic research in the sales area. The Handbook is structured around four key topics. The first section explores the strategic positioning of the sales function within the modern organisation. The second considers sales management and recent developments. The third section examines the sales relationship with the customer and highlights how sales is responding to the modern environment. Finally, the fourth section reviews the internal composition of sales within the organisation. The Handbook will provide a comprehensive introduction to the latest research in sales management and is suitable for academics, professionals and those taking professional qualifications in sales and marketing.
