living policies domestically and internationally particularly through the role of the United Nations Convention on the Rights of Persons with Disabilities UNCRPD a landmark treaty adopted on 13 December 2006 Rimmerman shows that deinstitutionalization and community living cannot be examined only in terms of the number of institutions closed but also through the substantial change in values legislation and policies supporting personalization as well as the social participation of people with disabilities The book includes a significant exploration of United States legislation and important Supreme Court decisions compared with European policies toward community living Finally it discusses the importance of Articles 12 and 19 of the convention and demonstrates the case of Israel that has used the convention as a road map for proposing a new community living policy

Long-Term Care U. S. Government Accountability Office (,2013-06 In the Olmstead case the Supreme Court decided that states were violating title II of the Americans with Disabilities Act of 1990 ADA if they provided care to disabled people in institutional settings when they could be appropriately served in a home or community based setting Considerable attention has focused on the decision s implications for Medicaid the dominant public program supporting long term care institutional home and community based services Although Medicaid spending for home and community based service is growing these are largely optional benefits that states may or may not choose to offer and states vary widely in the degree to which they cover them The implications of the Olmstead decision in terms of the scope and the nature of states obligation to provide home and community based long term care services are still unfolding Although the Supreme Court ruled that providing care in institutional settings may violate the ADA it also recognized that there are limits to what states can do given the available resources and the obligation to provide a range of services for disabled people The decision left many open questions for states and lower courts to resolve State programs also may be influenced over time as dozens of lawsuits and hundreds of formal complaints seeking access to appropriate services are resolved
