zookeeper isn't just a zookeeper she's the narrator's mom A picture book that challenges kids to think beyond their first impressions in a warm and eye opening read perfect for storytime *Zooland* Irus Braverman, 2012-11-28 This book takes a unique stance on a controversial topic zoos Zoos have their ardent supporters and their vocal detractors And while we all have opinions on what zoos do few people consider how they do it Irus Braverman draws on more than seventy interviews conducted with zoo managers and administrators as well as animal activists to offer a glimpse into the otherwise unknown complexities of zooland Zooland begins and ends with the story of Timmy the oldest male gorilla in North America to illustrate the dramatic transformations of zoos since the 1970s Over these decades modern zoos have transformed themselves from places created largely for entertainment to globally connected institutions that emphasize care through conservation and education Zoos naturalize their spaces classify their animals and produce spectacular experiences for their human visitors Zoos name register track and allocate their animals in global databases Zoos both abide by and create laws and industry standards that govern their captive animals Finally zoos intensely govern the reproduction of captive animals carefully calculating the life and death of these animals deciding which of them will be sustained and which will expire Zooland takes readers behind the exhibits into the world of zoo animals and their caretakers And in so doing it turns its gaze back on us to make surprising interconnections between our understandings of the human and the nonhuman *Zooicide* Sue Coe, 2018-10-30 The issue of zoos is not about treatment but use not about reform but abolition Zoos often pay lip service to education enrichment and conservation but the cruelty is systemic and follows from the idea of animals as commodities As long as they are property animals will continue to be treated as things with no rights who can be caged bred abused or killed for a zoo's profit and the public's entertainment In Zooicide Sue Coe applies her bold and breathtaking artistic style to confront the institution of zoos exposing them as a form of capitalist cruelty that is enmeshed with the violence of war colonialism and ecological destruction **Entangled Encounters at the National Zoo** Daniel Vandersommers, 2023-09-29 Founded amid the urban commotion of Washington DC before the dawn of the twentieth century the National Zoological Park opened to preserve teach and conduct research about the animal world Entangled Encounters at the National Zoo is a study of this important cultural landmark from 1887 to 1920 Centered on the animals themselves each chapter looks from a different angle at the influential science of popular zoology in order to shed new light on the complex entangled relationships between humans and animals Daniel Vandersommers's goal is twofold First through narrative he shows how zoo animals always ran away from the zoo This is meant literally animals escaped frequently but even more so figuratively Living breathing historical zoo animals ran away from their cultural constructions and these constructions ran away from the living bodies they were made to represent The author shows that the resulting gaps produced by runaway animals contain concealed distorted and erased histories worthy of uncovering Second Entangled Encounters at the National Zoo demonstrates how the popular zoology fostered by the National Zoo shaped every aspect of American science culture and

conservation during the Gilded Age and Progressive Era Between the 1880s and World War I as intellectuals debated Darwinism and scientists institutionalized the laboratory zoological parks suddenly appeared at the heart of nearly every major American city captivating tens of millions of visitors Vandersommers follows stories previously hidden within the National Zoo in order to help us reconsider the place of zoos and their inhabitants in the twenty first century *Look Who's There! My Zoo Animals*: Julia Chiu, 2018-06-07 This book is for infants and toddlers Each cute animal illustrations accompanied by animal s name and design with bright colors can catch little kid s eyes keeping them interested which make this book a perfect tool for teaching baby identify animals nicely The illustrations classified by zoo display areas In Book 2 we have American Animal Area Africa Animal Area Desert Animal Area and Temperate Zone Animal Area Each of areas has five animals at least 23 animals in total *Zookeeping* Mark D. Irwin, John B. Stoner, Aaron M. Cobough, 2013-12-09 As species extinction environmental protection animal rights and workplace safety issues come to the fore zoos and aquariums need keepers who have the technical expertise and scientific knowledge to keep animals healthy educate the public and create regional national and global conservation and management communities This textbook offers a comprehensive and practical overview of the profession geared toward new animal keepers and anyone who needs a foundational account of the topics most important to the day to day care of zoo and aquarium animals The three editors all experienced in zoo animal care and management have put together a cohesive and broad ranging book that tackles each of its subjects carefully and thoroughly The contributions cover professional zookeeping evolution of zoos workplace safety animal management taxon specific animal husbandry animal behavior veterinary care public education and outreach and conservation science Using the newest techniques and research gathered from around the world *Zookeeping* is a progressive textbook that seeks to promote consistency and the highest standards within global zoo and aquarium operations *Zoo Studies* Tracy McDonald, Daniel Vandersommers, 2019-06-19 Do both the zoo and the mental hospital induce psychosis as humans are treated as animals and animals are treated as humans How have we looked at animals in the past and how do we look at them today How have zoos presented themselves and their purpose over time In response to the emergence of environmental and animal studies anthropologists sociologists philosophers theorists literature scholars and historians around the world have begun to explore the significance of zoological parks past and present *Zoo Studies* considers the modern zoo from a range of approaches and disciplines united in a desire to blur the boundaries between human and nonhuman animals The volume begins with an account of the first modern mental hospital La Salpêtrière established in 1656 and the first panoptical zoo the menagerie at Versailles created in 1662 by the same royal architect the final chapter presents a choreographic performance that imagines the Toronto Zoo as a place where the human body can be inspired by animal bodies From beginning to end through interdisciplinary collaboration this volume decentres the human subject and offers alternative ways of thinking about zoos and their inhabitants This collection immerses readers in the lives of animals and their experiences of captivity and asks us to
