Man The Choicemaker:

Man the Choicemaker Elizabeth Boyden Howes, Sheila Moon, 1973 Through a series of accidents the cowardly potter becomes known as the bravest man in the Rajah s kingdom **The Choicemaker** Elizabeth Boyden Howes, Sheila Moon, 1977 **Seizing the Essence** Hamilton Priddy, 2007-12-20 SEIZING THE ESSENCE is about the dynamics of Value that form mans concept of reality Human beings dont just passively experience the things and events that represent this journey through life they construct them intellectually from the sense of value that is intrinsic to all cognizant individuals We dont simply enjoy the finer things in life we aspire to them and when awed by the experience of great beauty or magnificence we want to identify with its source As the created agents of this source we intellectualize its value by experiencing it as differentiated reality Making value aware as representational objects in a relational world affirms the absolute value of our uncreated Essence The author believes that one of the tragedies of our materialistic age is that we have mistaken our differentiated amoral existence for ultimate reality with the result that we have lost much of our value sensibility With the possible exception of artists and musicians the mindset of most people today has been shaped by objectivists who insist that man is totally a product of biological and cultural evolution Although fueled by Darwins Origin of the Species in truth this ideology is the outcome of a 2000 year battle between Aristotelian empiricism and Platonic idealism that scientists claim to have won only in the last century In their zeal to renounce religion and spirituality the objectivists have thrown the baby out with the bathwater Selfness is today regarded as a myth of dubious origin and material reality is believed to be primary to ones awareness of it In SEIZING THE ESSENCE the author makes the case that the mind matter duality of Descartes and Kant has not been overcome by Science that all knowledge is proprietary to the self and that physical reality is an intellectual construct of Value which is the individuals perspective of Essence Since traditional logic is relational by fiat the author bases his cosmology on a principle first postulated by the 15th century logician Nicholas of Cusa which deals with a not other that is the coincidence of all otherness Instead of trying to describe the ineffable Cusas theory affords the philosopher a dialectic handle by which to relate finite experience to the Oneness of Essence This leads logically to a cosmology in which physical existence is a virtual reality created largely by man who is the cognizant agent of his estranged Essence Contrary to previous theories of natures essences there is but one Essence and it is the uncreated source of differentiated experience Starting with the fundamental premise that Essence is absolute and immutable the book unfolds an ontology whereby value can be understood as the essential link between the autonomous self and its uncreated source The central message of this book is that although values drive mankind it is mans free choices that determine the course of history Essentialism is a new and original philosophy that embraces the spirituality of Judeo Christianity and Eastern mysticism yet is grounded in a metaphysical cosmology that is non dogmatic logically plausible and far more vital to contemporary man In addition to chapters describing our real world mentality mans historical search for the stuff of reality a Cosmology of Essence and the

autonomous self the author offers A Modernists Guide to Values complete with a strategy for achieving an authentic society Included in the Appendix is an extended glossary of names and special terms that are relevant to the Philosophy of Essence
