Man Today Howard L. Parsons,1979-01-01 Man today - problems, values, and fulfillment Howard L. Parsons,1973

Haeckel's Theory of the Unity of Nature David H. DeGrood,1982 Marxism, Revolution, and Peace Society for the Philosophical Study of Dialectical Materialism,1977 **Prefaces and Writing Sampler** Robert L. Perkins,2006 The International Kierkegaard Commentary For the first time in English the world community of scholars systematically assembled and presented the results of recent research in the vast literature of S ren Kierkegaard Based on the definitive English edition of Kierkegaard s works by Princeton University Press this series of commentaries addresses all the published texts of the influential Danish philosopher and theologian This is volume 9 10 in a series of commentaries based upon the definitive translations of Kierkegaard s writings published by Princeton University Press 1980ff *Revolutionary World*,1973 **Well-Being as Value Fulfillment** Valerie Tiberius,2018-11-10 What is human well being Valerie Tiberius argues that our lives go well to the extent that we succeed in terms of what matters to us emotionally reflectively and over the long term In other words well being consists in fulfilling or realizing our appropriate values over time In the first half of the book Tiberius sets out the theory of well being as value fulfilment She explains what valuing is and what it is to fulfill values over time In the second half of the book she applies the theory to the problem of how to help others particularly our friends We don t always know how to provide the help we know others need but we also have the problem of knowing what help they need in the first place and this is a problem that requires ethical thinking Tiberius argues that when we want to help others achieve greater well being we should pay attention to their values This entails attending to how others values fit together how they understand what it means to succeed in terms of these values and how things could change for them over time Being a good and helpful friend then requires cultivating some habits of humility that overcome our tendency to think we know what s good for other people without really understanding what it s like to be them *The Owl Flies by Day* Dale Riepe,1979-01-01 **The Problem of the Idea of Culture in John Paul II** John Corrigan,2019-11-13 In The Problem of the Idea of Culture in John Paul II Exposing the Disruptive Agency of the Philosophy of Karol Wojtyla John Corrigan provides a new lens with which to view and understand the philosophy of Karol Wojtyla John Paul II He exposes Wojtyla as a major player in contemporary philosophical debates The work reformulates the problem of experience in light of the questions surrounding our idea of culture Corrigan argues that for Wojtyla the drama of the problem of experience manifests in the apparently divergent accounts of the meaning of human experience as presented by the philosophies of being and of consciousness Solving this conundrum results in an idea of the person capable of explaining human experience in relation to human culture unfolding the experiences of self knowledge conscience and the ontic causal relationship of the person to human culture The first part of the book concerns formal considerations regarding the constitutive aspects of Wojtyla s approach while the second part deals with pragmatic considerations drawn from his comments on culture **UGC NET**
