Man Who Sold The Milky Way:

The Man who Sold the Milky Way David H. Levy, 1993 Distinguished astronomy researcher teacher and lecturer Bart Bok always loved to talk about astronomy's big picture observes David Levy and in his lifetime of commitment to the Milky Way he had seen that picture evolve Drawing on more than fifty interviews with Bok over the two years before his death Levy's biography was first undertaken over Bok's protests but later gained his full cooperation The book shows not only what made Bok an exceptional scientist but also what it was like to be an astronomer in an era of significant progress in that field

Cosmic Discoveries David H. Levy, 2010-09-09 For many millennia the starry night sky has been a source of wonder and awe to men and women who have tried to unravel the mystery of the billion distant lights that fill the heavens after dark The story of the great discoverers who succeeded in explaining part of the mystery is told here with the joy and infectious enthusiasm that only a fellow discoverer can convey David Levy codiscoverer of Comet Shoemaker Levy 9 with his wife Wendee Wallach Levy evokes that marvelous moment of Eureka as he masterfully relates each story He gives the reader a glimpse of the enthralling adventure of cosmic discovery through stories of the most famous and brilliant astronomers Beyond their personal accomplishments these scientists expanded all of humanity's understanding of the universe and our place within it For example Galileo's breathtaking discovery of the moons of Jupiter new worlds that refused to orbit the sun challenged the whole doctrine of the earth being the center of the universe With the start of the 20th century Shapley pushed back the envelope that had been opened by Galileo by proving that the center of our galaxy is very far beyond our own sun And Hubble showed that even our galaxy is but a tiny part of a universe that is rapidly expanding In describing these milestones of science Levy reveals his own spirited conversations with such luminaries of the imagination as the discoverer of the planet Pluto Clyde Tombaugh and one of the world's greatest science fiction writers Sir Arthur C Clarke Through Levy's unique perspective on cosmic discovery he is able to connect his own personal life story with that of astronomers of the past and by extension with the history of the whole universe As the codiscoverer of the spectacular comet that crashed into Jupiter Levy formulated a whole new range of exciting questions about the universe Do comets serve to transport the elements of life from one planet to the next What is the evidence that a large comet once hit the earth Will the earth someday be in danger of colliding with another such comet and will we have the technology to stop it This fascinating book will excite any of us who have stared at the night sky in awe and amazement David Levy and Wendee Wallach Levy Vail AZ are continuing their ongoing search for new comets David Levy is the president of the Jarnac Observatory science editor for PARADE magazine a contributing editor to Sky and Telescope and Sky News magazines and the author of Starry Nights The Quest for Comets and Impact Jupiter among other books *Air & Space Smithsonian*, 1993 *Mt Stromlo Observatory* Ragbir Bhathal, Ralph Sutherland, Harvey Butcher, 2013-12-02 This book tells the story of the Mt Stromlo Observatory in Canberra which began with W G Duffield's idealism and vision in 1905 The Observatory began life as a government

department later becoming an optical munitions factory producing gun sights and telescopes during the Second World War before changing its focus to astrophysics the new astronomy In the ensuing years programs were introduced to push the Observatory in new directions at the international frontiers of astronomy The astronomers built new better and larger telescopes to unravel the secrets of the universe There were controversies exciting new discoveries and new explanations of phenomena that had been discovered The Observatory and its researchers have contributed to determining how old the universe is participated in the largest survey of galaxies in the universe and helped to show us that the universal expansion is accelerating research that led to Brian Schmidt and his international team being awarded the 2011 Nobel Prize in Physics These and other major discoveries are detailed in this fascinating book about one of the great observatories in the world

Jazz Sells: Music, Marketing, and Meaning Mark Laver, 2015-02-11 Jazz Sells Music Marketing and Meaning examines the issues of jazz consumption and capitalism through advertising On television on the Internet in radio and in print advertising is a critically important medium for the mass dissemination of music and musical meaning This book is a study of the use of the jazz genre as a musical signifier in promotional efforts exploring how the relationship between brand jazz music and jazz discourses come together to create meaning for the product and the consumer At the same time it examines how jazz offers an invaluable lens through which to examine the complex and often contradictory culture of consumption upon which capitalism is predicated
