**The Man who Grew Two Breasts** Berton Roueché, 1995 A collection of true tales of medical mystery and detection from the author's *Annals of Medicine in the New Yorker* *Doctor-Detectives in the Mystery Novel* Howard Brody, 2021-01-18 This is the first book to offer a critical analysis of one variant of the mystery story or novel the use of a physician as the major detective There is little difference between a medical case study and a mystery story The book reviews the works of major authors from R Austin Freeman Helen McCloy Josephine Bell and H C Bailey to Patricia Cornwell Kathy Reichs Aaron Elkins and Colin Cotterill with briefer reviews of minor authors It also addresses historical fictional physician detectives psychological detectives and physician detective nonfiction Physicians and health workers are avid readers of detective fiction and will welcome this volume which addresses their specific interests Its critical analysis of books that have long been viewed as central to detective fiction will also appeal to fans of the mystery story **Epidemic Films to Die For** Tom

Zaniello, 2024-10-17 Epidemic cinema remains an enduring genre of contemporary film ranging from medical dramas to post apocalyptic thrillers Using a vast filmography Zaniello not only details the incredible variety of epidemics and their role in popular culture but also demonstrates how epidemics as a rule have been confronted without proper preparation or deployment of resources in different forms of media Therefore *Epidemic Films to Die For* is the first and the only book that extensively analyzes the history and deployment of films and TV series towards a chronicle of epidemic films In addition to providing an overview of how widespread disease and illness have been historically depicted via film and media this book skillfully contextualizes the contemporary ongoing moment in which filmmakers and producers grapple with the cultural imaginary surrounding the COVID 19 pandemic **The Blind Faith Hotel** Pamela Todd, 2010-04-20 When her family falls apart fourteen year old Zoe feels like her whole world is going to pieces Zoe's mother takes her kids away from their father a fisherman who ships out to Alaska and moves them to a run down farmhouse she's inherited in the Midwest Zoe's stuck in more ways than one Surrounded by strangers and a sea of prairie grass she loses her bearings A brush with the law lands Zoe in a work program at a local nature preserve But the work starts to ground and steady her When she meets a wild boy who shares her love of untamed places it seems he might help Zoe find her way Or is he too lost too damaged himself Funny and poignant sharp eyed and real this is a portrait of a girl looking for her own true self and a place she can call home

**Symptoms of Unknown Origin** Clifton K. Meador, 2005-04-22 For years after graduating from medical school Dr Clifton K Meador assumed that symptoms of the body when obviously not imaginary indicate a disease of the body something to be treated with drugs surgery or other traditional means But over several decades as he saw patients with clear symptoms but no discernable disease he concluded that his own assumptions were too narrow and indeed that the underlying basis for much of clinical medicine was severely limited Recounting a series of fascinating case studies Meador shows in this book how he came to reject a strict adherence to the prevailing biomolecular model of disease and its separation of mind and body He

studied other theories and approaches George Engel's biopsychosocial model of disease Michael Balint's study of physicians as pharmacological agents and adjusted his practice accordingly to treat what he called nondisease He had to retool learn new and more in depth interviewing and listening techniques and undergo what Balint termed a slight but significant change in personality In chapters like *The Woman Who Believed She Was a Man* and *The Diarrhea of Agnes Meador* reveals both the considerable harm that can result from wrong diagnoses of nonexistent diseases and the methods he developed to help patients with chronic symptoms not defined by a medical disease Throughout the book he recommends subsequent studies to test his observations and he urges full application of the scientific method to the doctor patient relationship pointing out that few objective studies of these all important interactions have ever been done **Woman** Natalie Angier, 2000 The author explores the essence of what it means to be a woman in body and mind as she shares her thoughts on everything from organs to orgasm and menopause **Traditions of the Skidi Pawnee** George Amos Dorsey, 1904 *Wrestling with God and Men* Steven Greenberg, 2004-02-23

For millennia two biblical verses have been understood to condemn sex between men as an act so abhorrent that it is punishable by death Traditionally Orthodox Jews believing the scripture to be the word of God have rejected homosexuality in accordance with this interpretation In 1999 Rabbi Steven Greenberg challenged this tradition when he became the first Orthodox rabbi ever to openly declare his homosexuality *Wrestling with God and Men* is the product of Rabbi Greenberg's ten year struggle to reconcile his two warring identities In this compelling and groundbreaking work Greenberg challenges long held assumptions of scriptural interpretation and religious identity as he marks a path that is both responsible to human realities and deeply committed to God and Torah Employing traditional rabbinic resources Greenberg presents readers with surprising biblical interpretations of the creation story the love of David and Jonathan the destruction of Sodom and the condemning verses of Leviticus But Greenberg goes beyond the question of whether homosexuality is biblically acceptable to ask how such relationships can be sacred In so doing he draws on a wide array of nonscriptural texts to introduce readers to occasions of same sex love in Talmudic narratives medieval Jewish poetry and prose and traditional Jewish case law literature Ultimately Greenberg argues that Orthodox communities must open up debate dialogue and discussion precisely the foundation upon which Jewish law rests to truly deal with the issue of homosexual love This book will appeal not only to members of the Orthodox faith but to all religious people struggling to resolve their belief in the scriptures with a desire to make their communities more open and accepting to gay and lesbian members 2005 Finalist for the Lambda Literary Awards for Religion Spirituality *Prosthetic Fantasies* Sarah S. Jain, 1999

**Environmentally Induced Illnesses** Thomas Kerns, 2012-07-24 Readers drawn to Rachel Carson's *Silent Spring* Laurie Garrett's *The Coming Plague* or Theo Colburn's *Our Stolen Future* will appreciate this work by Thomas Kerns as well The growing epidemics of chemically induced illnesses from long term low dose exposure to toxicants in both developed and developing nations are being studied by serious researchers Questions are being raised as to how societies will deal with
