Families in India have undergone vast changes over the years due to the rapid development of industries, educational achievements, the technological revolution, and speedy communication. Each individual needs to be trained to fit himself in this changing environment by making the right decision at each moment of his or her life. Case Management, Third Edition Arthur J. Frankel, Sheldon R. Gelman, 2011-08 Case managers provide an indispensable service acting as both experts and liaisons to the wide variety of services, resources, and opportunities available to their clients. The authors use their extensive practice, classroom, and research experience to delineate clearly the steps of the case management process and to address the myriad roles case managers fill in different practice situations. By detailing the various processes and goals of case management and the different populations they help, the authors present a resource that is invaluable not only to social workers but also to case managers in nursing centers, community mental health facilities, and criminal justice centers. The third edition of this book is updated to reflect the constantly changing nature of the helping professions. New and updated references provide readers with an array of options for pursuing specific aspects of case management. The book is attentive to the evolving needs of a variety of populations and it now contains a new section on working with members of the military and their families. This edition also contains new information on case management within larger organizations that provide mental health services. *Catalog of Copyright Entries. Third Series* Library of Congress.
