The Management of Ethnic Secessionist Conflict Abeyasinghe M. Military Intervention and Secession in South Asia Anne N. Dos Santos, 2007-10-30 From Chechnya in Russia to Kashmir in India to the Basque region in Spain secessionist movements remain a serious threat to international security Despite the importance of this issue the causes that bring about external military intervention in a secessionist war have not until now been adequately addressed In this book Dos Santos identifies the conditions that make international military intervention in a secessionist war more or less likely South Asia being fraught with secessionist movements Bangladesh Sri Lanka Kashmir and Punjab provides an ideal laboratory for the examination of this compelling issue Dos Santos argues that a shift in the balance of power between a secessionist group and its central government will lead to a preventive war on the secessionists by the central government In turn a preventive war of this nature may lead to an alliance between the secessionist group and an external power The stronger the alliance the greater the chances of an international military intervention Understanding the conditions under which secessionist movements expand become secessionist wars and invite international military intervention on behalf of the secessionists has strong policy implications It can go a long way toward guiding policymakers who may want to mitigate or avoid these conditions in their states Dos Santos views both states and secessionist groups as primary actors and she examines both the distribution of power among states and the balance of power between central government and groups within states

Richmond, 2001-12-17 This study explores three generations of approaches to ending conflict and examines how in the context of the failings of the Westphalian international system their peacekeeping mediation and negotiation conflict resolution and peacebuilding approaches as well as UN peace operations and asks via an empirical and theoretical analysis what role such approaches have played and are playing in replicating an international system prone to intractable forms of conflict *The Routledge Handbook of Self-Determination and Secession* Ryan D. in contemporary India The chapters originally published as a special issue of India Review Journal of Conflict Studies, 1996 **Ethnicity and Intra-State Conflict** Håkan Wiberg, Christian P. Scherrer, 2018-12-21 Published in 1999 this text examines domestic wars looking at inter state relations only in as far as they are directly relevant to understand such wars The book aims to indicate how intra state war differs from the inter state war and focuses primarily on such domestic armed conflicts that at least have significant ethnonational components The book assesses how heterogeneous a category ethnic conflict is in terms of causes and consequences and gauges the complex interplay between class regionalism and ethnicity It is not limited to description and causal analysis but also attempts to assess suggestions as to what types of actors may contribute in what ways to avoiding ethnonational mobilization polarization avoiding militarization of manifest conflicts and de escalating militarized conflicts by looking for tenable generalizations on what types of approaches are fruitful in bringing about de escalation ceasefires political compromises peaceful division or peaceful integration reconciliation Sub-State Governance through Territorial Autonomy Markku Suksi, 2011-07-17 This study focuses on territorial autonomy which is often used in different conflict resolution and minority situations Four typical elements are identified on the basis of the historical example of the Memel Territory and the so called Memel case of the PCIJ distribution of powers participation through elections and referendums executive power of territorial autonomy and international relations These elements are used for a comparative analysis of the constitutional law that regulates the position of six currently existing special jurisdictions the land Islands in Finland Scotland in the United Kingdom Puerto Rico in the United States of America Hong Kong in China Aceh in Indonesia and Zanzibar in Tanzania The current sub state entities examined can be arranged in relation to Memel in a manner that indicates that Hong Kong and the land conform to the typical territorial autonomy while Puerto Rico and Aceh should probably not be understood as territorial autonomies proper At the same time the territorial autonomies can be distinguished from federally organized sub state entities Power Politics and State Formation in the Twentieth Century Bridget Coggins, 2014-04-24 From Kurdistan to Somaliland Xinjiang to South Yemen all secessionist movements hope to secure newly independent states of their own Most will not prevail The existing scholarly wisdom provides one explanation for success based on authority and control within the nascent states With the aid of an expansive new dataset and detailed case studies this book provides an alternative account It argues that the strongest members of the international community have a decisive influence over whether today s secessionists become countries tomorrow and that most often their support is conditioned on parochial political considerations **International Conflict and Conflict Management** Andrew P. Owsiak, J. Michael Greig, Paul F. Diehl, 2023-05-08 This book asks scholars to reexamine international conflict and its management in order to move the field toward directly theorizing about and examining the interdependence between conflict events and conflict management attempts Despite decades of work research on international conflict and its management remains siloed in three fundamental ways First scholars do not thoroughly address

international conflict dynamics within studies of conflict management even though the former give rise to the latter Second existing work generally investigates one conflict management strategy e g mediation at the expense of others e g adjudication These strategies however are not independent of one another they exist on a single menu from which potential third parties choose Third parties therefore implicitly if not explicitly consider and select among the various strategies when deciding how to manage a conflict thereby inviting and incorporating comparisons Finally researchers tend to treat conflict management efforts even within the same conflict as independent events even though some efforts e g adjudication or arbitration follow and explicitly relate to other earlier efforts e g an earlier negotiation or mediation In short elements of sequencing and interaction influence conflict management even as scholars rarely consider such elements This book will be of great value to scholars and researchers of Political Science International Relations and Conflict Management and Resolution The chapters in this book were originally published as a special issue of International Interactions
