Winning Wizard's Words of Management Wisdom William P. Fisher, 2016-12-06 Winning Wizard's Words of Management Wisdom Book 2 Moving Up is the third book in the author's Winning Wizard series and is the continuation of management wisdom dispensed from a mentor to a mentee. The book follows Winning Wizard, a retired chairman of an international organization, in his mission to provide insight, advice, and guidance to Redael, a junior manager in the firm intent on advancing to the upper reaches of management. The book's 49 chapters offer incisive, trenchant, and thought-provoking precepts to help Redael climb the corporate ladder. Chapter titles include *Firing and De-hiring Winners and Losers*, *What Sets Leaders Apart*, *Sinews for Success*, and *Teamthink*. Winning Wizard's Words of Management Wisdom include *Passionate People Perform Perspicaciously in Purposeful Positions*. There is a strong and positive correlation between good people sense and good economic sense, and the formula for Success is to be Smart, Unflappable, Courageous, Creative, Energetic, Sanguine, and Steadfast. The first book in the award-winning series is Winning Wizard's Leadership Axioms for Career Progression and Everyday Living. The second book is Winning Wizard's Words of Management Wisdom Book One Starting Out. Defense Management Journal, 1985. **Winning at Active Management** William W. Priest, Steven D. Bleiberg, Michael A. Welhoelter, 2016-07-25 Winning at Active Management conducts an in-depth examination of crucial issues facing the investment management industry and will be a valuable resource for asset managers, institutional consultants, managers of pension and endowment funds, and advisers to individual investors. Bill Priest, Steve Bleiberg, and Mike Welhoelter, all experienced investment professionals, consider the challenges of managing portfolios through complex markets as well as managing the cultural and technological complexities of the investment business. The book's initial section highlights the importance of culture within an investment firm, the characteristics of strong cultures, the imperatives of communication and support, and suggestions for leading firms through times of both adversity and prosperity. It continues with a thorough discussion of active portfolio management for equities. The ongoing debate over active versus passive management is reviewed in detail, drawing on both financial theory and real-world investing results. The book also contrasts traditional methods of portfolio management based on accounting metrics and price-earnings ratios with Epoch Investment Partners' philosophy of investing on free cash flow and appropriate capital allocation. Winning at Active Management closes with an inquiry into the crucial and growing role of technology in investing. The authors assert that the most effective portfolio strategies result from neither pure fundamental nor quantitative methods but instead from thoughtful combinations of analyst and portfolio manager experience and skill with the speed and breadth of quantitative analysis. The authors illustrate the point with an example of an innovative Epoch equity strategy based on economic logic and judgment but enabled by information technology. Winning at Active Management also offers important insights into selecting active managers, the market cycle factors that have held back many managers' performance in recent years, and the difficulty of

identifying those firms that truly possess investment skill Drawing on behavioral economic theory and empirical research the book makes a convincing case that many active investment managers can and do generate returns superior to those of the broad market
