Library, 1970 **Management Laureates** Arthur G. Bedeian, 2018-04-17 First published in 1992 This volume compiles the autobiographies of the management discipline s most distinguished laureates Prior to this publication the available management literature provided little insight into the personal and intellectual lives the frustrations as well as the triumphs of the individuals in the management discipline Although such understanding could be conveyed in many forms perhaps the most intimate and fascinating of these for gaining behind the scenes insights is the autobiography Thus the autobiographies in this volume as in the five companion volumes offer the reader not only a glimpse of the subjective determinants and personal experiences of the management discipline s most distinguished laureates but also a deeper understanding of what management is and what it is becoming The various accounts reflect a diversity of approaches interests and experiences Personnel Literature United States Civil Service Commission. Howard, Jerome B. McKinney, 1998-03-10 This is a complete and up to date revision of the classic text for public administration implementing the rule of law as a fundamental issue in American democracy in pursuit of the common interest It presents public administration as a tension between the necessary exercise of power and the search for responsiveness to achieve maximum accountability from public servants The authors have initiated a new approach to the study of public administration by focusing on middle and lower level managers These are positions that most public servants will occupy for the bulk of their professional careers The book recognizes that most of the administration is in field offices in state and local government and in cooperation with the private and nonprofit sectors It then focuses on power and its potential for influencing the behavior of the bureaucracy to perform its goal oriented and balancing functions in a pluralistic open system This leads to the relationship between theories about administration and the actual practice and how best results imperative of accountability are achieved in the
