This is probably the best book on Managerial Communication in the market. Astrid Sheil, California State University, San Bernardino. Communication Strategies for Corporate Leaders Pragyan Rath, Apoorva Bharadwaj, 2017-11-06

Communication is key to success in every aspect of life and ever so in a competitive business environment. This book examines managerial communication from seminal theoretical and demonstrative vantage points through interdisciplinary amalgamation of sciences and the liberal arts. It presents new paradigms of managerial communication in the form of manoeuvres that can act as game changers in tug-of-war business situations including difficult negotiations, conflicts and interpersonal dissonance that characterise the day-to-day corporate workplace tenor. This volume develops persuasion strategies based on argumentation tactics derived, for example, from legal cross-examination. Introduces problematisation and deconstruction as effective communication tools into mainstream managerial discourse. Employs Harvard Business School cases to demonstrate problem-solving skills which will further serve as guide to writing business reports, plans and proposals. Positions business writing methods as taxonomical tenets that can help tackle complex business scenarios. Draws business diagnostic procedures from diverse fields such as Sherlock Holmes from popular culture and Jared M. Diamond from ecology. This book will be a significant resource for business communication practitioners, especially corporate managers and leaders, sales and marketing professionals and policymakers. It will be of interest to teachers and students alike in business communication, organization behaviour, human resource management and marketing communications. It will act as a useful aid for classroom efficacy for teachers and academics. The Executor of Integrated Marketing Communications Strategy: Marcom Manager's Working Model Kwang-Yong Shin, 2013-06-04

The book mainly addresses the following aspects: First, it systematically introduces the domestic and foreign research results, pointing out the key elements of the basic theory of IMC according to a company's present situation and the practice of IMC strategy. Second, according to the different characteristics of each organization, it provides various IMC organization structures such as linear structure, Model 1, a virtual network and centralized type that focuses on individual interest, external types of the IMC organizational structures, Model etc. and suggestions for further study are also presented. **Business Communication: Effective Strategies for Success**
